Making Of Rhodesia:

The Making of Zimbabwe M. Tamarkin, 2012-11-12 First published in 1990 This volume is essentially a study in decolonization The approach of the author is of a conflict resolution process taken from the perspective of 1974 as the chosen point Following the decolonization of the Portuguese colonial empire the uniqueness of the decolonization of Rhodesia became more apparent and the conflict began to realize its full potential The author has taken three analytical concepts the goals continuum the strategic options continuum and the interaction within and between the three levels of the conflict system A/AS Level History for AQA The Making of Modern Britain, 1951-2007 Student Book David Dutton, Lucien Jenkins, Richard Kerridge, 2016-06-30 A new series of bespoke full coverage resources developed for the AQA 2015 A AS Level History Approved by AQA this print Student Book covers The Making of Modern Britain 1951 2007 Depth component and provides valuable background information to contextualise the period of study Supporting students in developing their critical thinking research and written communication skills it also encourages them to make links between different time periods topics and historical themes *The Making of Rhodesia* Hugh Marshall Hole, 2018-10-24 Initially published in 1926 this book seeks to clear some misconceptions of Southern and Northern Rhodesia at the time of the evolution of British colonies that bear the name of Rhodes their founder The author who lived there for twenty three years used official records and reports original photographs and his friends and his own narrative to tell this story **The Collapse of Rhodesia** Josiah Brownell, 2010-10-27 In the years leading up to Rhodesia s Unilateral Declaration of Independence in 1965 its small and transient white population was balanced precariously atop a large and fast growing African population This unstable political demography was set against the backdrop of continent wide decolonisation and a parallel rise in African nationalism within Rhodesia The Collapse of Rhodesia provides a controversial reexamination of the final decades of white minority rule Josiah Brownell argues that racial population demographics and the pressures they produced were a pervasive but hidden force behind many of Rhodesia s most dramatic political events including UDI He concludes that the UDI rebellion eventually failed because the state was unable to successfully redress white Rhodesia s fundamental demographic weaknesses By addressing this vital demographic component of the multifaceted conflict this book is an important contribution to the historiography of the last years of white rule in Rhodesia **Rhodesia** Cedric Phillips, 2016-08-12 Although the idea of a continuous British dominion from the Cape Colony to Cairo in Egypt was first formulated by William Gladstone and Sir Rutherford Alcock and summed up by Sir Edwin Arnold in the phrase From Cape to Cairo it was Cecil Rhodes who finally embraced this dream as a viable project This book outlines how close the dream came to reality as far as Central Africa was concerned and why in the end it was the impossible dream **Botanical Abstracts** ,1924 The Outlook ,1898 **AF Press Clips** United States Department of State.
