The Equity Myth Frances Henry,Enakshi Dua,Carl E. James,Audrey Kobayashi,Peter Li,Howard Ramos,Malinda S. Smith,2017-06-22

The university is often regarded as a bastion of liberal democracy where equity and diversity are promoted and racism doesn't exist In reality the university still excludes many people and is a site of racialization that is subtle complex and sophisticated While some studies do point to the persistence of systemic barriers to equity in higher education in depth analyses of racism racialization and Indigeneity in the academy are more notable for excluding racialized and Indigenous professors This book is the first comprehensive data based study of racialized and Indigenous faculty members experiences in Canadian universities

Challenging the myth of equity in higher education it brings together leading scholars who scrutinize what universities have done and question the effectiveness of their equity programs They draw on a rich body of survey data interviews and analysis of universities stated policies to examine the experiences of racialized faculty members across Canada who despite diversity initiatives in their respective institutions have yet to see meaningful changes in everyday working conditions They also make important recommendations as to how universities can address racialization and fulfill the promise of equity in higher education
