As well as a historical and theoretical overview of the field it provides rationale and techniques for several specific methodologies: linear drama, process oriented drama, drama for social justice and performance art. Each approach is supplemented with sample lesson plans, activities, ideas for differentiation and extensive bibliographies. The topics are discussed from five key angles: Historical and theoretical foundations, Curricular applications, Practical toolkits for a range of classrooms and learning environments, Different strategies for lesson plans, Extension options for longer workshops. Alongside these core methods the integration of other innovative forms from performance art to Theatre of the Oppressed into drama based learning is explored as well as the pragmatic concerns such as assessment, planning and advocacy for arts learning and arts education partnerships. *Drama and Education* is the comprehensive textbook for teachers and students on Applied Theatre and Theatre and Education courses.
