Making Contact Maps Identity And Travel:

Making Contact Glenn Burger, 2003-02-26 When civilizations first encounter each other a cascade of change is triggered that both challenges and reinforces the identities of all parties Making Contact revisits key encounters between cultures in the medieval and early modern world Contributors cross disciplinary boundaries to explore the implications of contact Scott D Westrem examines the imagined Africa depicted in the Bell Mappamundi Day to day accommodations between the religious identities of Vilnius in the Polish Lithuanian Commonwealth are explored by David Frick Steven F Kruger argues that medieval Christian identity was destabilized by the living Talmudic tradition Individual Jesuits who were critical to the success of contact in Japan are evaluated by Nakai Ayako Linda Woodbridge argues that Elizabethan attitudes towards aborigines paralleled their attitudes towards English vagrants Despite a nod to Arcadian conventions travel narratives of Virginia were preoccupied with finding wealth according to Paul W DePasquale s research Rick H Lee examines the conflicting loyalties of Pierre Raddisson in the New World Richard A Young demonstrates that the Florida shipwreck narratives of Cabeza de Vaca were groomed for intended audiences past and present This rich interdisciplinary collaboration contributes to the debate on boundaries between disciplines as well as boundaries between the Middle Ages and the early modern period and also between historical and theoretical perspectives Making Contact draws our attention to the important ways in which historic encounters with contrasting others have shaped the identities of both individual and corporate selves over a span of five centuries

Brutal Journey Paul Schneider, 2024-09-04 A wonderfully rich account of an incredible cross country journey of survival beautifully crafted Best of all it really happened Jerald T Milanich PhD author of Florida Indians from Ancient Times to the Present One part Heart of Darkness one part Lewis and Clark Brutal Journey tells the story of a group of explorers who came to the new world on the heels of Cort s bound for glory only four of four hundred would survive Eight years and some five thousand miles later three Spaniards and a black Moroccan wandered out of the wilderness to the north of the Rio Grande and into Cortes gold drenched Mexico The four survivors of the Narv ez expedition brought nothing back from their sojourn other than their story but what a tale it was They had become killers and cannibals torturers and torture victims

slavers and enslaved They became faith healers arms dealers canoe thieves spider eaters and finally when there were only the four of them left in the high Texas desert they became itinerate messiahs They became in other words whatever it took to stay alive long enough to inch their way toward Mexico the only place where they were certain they would find an outpost of the Spanish empire The journey of the Cabeza De Vaca expedition is one of the greatest survival epics in the history of American exploration By drawing on the accounts of the first explorers and the most recent findings of archaeologists and academic historians Paul Schneider offers a thrilling and authentic narrative to replace a legend of North American exploration A you are there enterprise in the Steven Ambrose vein full of surprising turns and not a few ironies Kirkus Reviews

Mathematical Practitioners and the Transformation of Natural Knowledge in Early Modern Europe Lesley B. Cormack, Steven A. Walton, John A.

Schuster,2017-03-15 This book argues that we can only understand transformations of nature studies in the Scientific Revolution if we take seriously the interaction between practitioners those who know by doing and scholars those who know by thinking These are not in opposition however Theory and practice are end points on a continuum with some participants interested only in the practical others only in the theoretical and most in the murky intellectual and material world in between It is this borderland where influence appropriation and collaboration have the potential to lead to new methods new subjects of enquiry and new social structures of natural philosophy and science The case for connection between theory and practice can be most persuasively drawn in the area of mathematics which is the focus of this book Practical mathematics was a growing field in early modern Europe and these essays are organised into three parts which contribute to the debate about the role of mathematical practice in the Scientific Revolution First they demonstrate the variability of the identity of practical mathematicians and of the practices involved in their activities in early modern Europe Second readers are invited to consider what practical mathematics looked like and that although practical mathematical knowledge was transmitted and circulated in a wide variety of ways participants were able to recognize them all as practical mathematics Third the authors show how differences and nuances in practical mathematics typically depended on the different contexts in which it was practiced social cultural political and economic particularities matter Historians of science especially those interested in the Scientific Revolution period and the history of mathematics will find this book and its ground breaking approach of particular interest

Instrument of Memory Lisa Lampert-Weissig,2024-01-18 How can immortality be a curse According to the Wandering Jew legend as Jesus made his way to Calvary a man refused him rest cruelly taunting him to hurry to meet his fate In response Jesus cursed the man to wander until the Second Coming Since the medieval period the legend has inspired hundreds of adaptations by artists and writers Instrument of Memory Encounters with the Wandering Jew the first English language study of the legend in over fifty years is also the first to examine the influence of the legend s medieval and early modern sources over the centuries into the present day Using the lens of memory studies the work shows how the Christian tradition of the legend centered the memory of the Passion at the heart of the Wandering Jew s curse Instrument of Memory also shows how Jewish artists and writers have reimagined the legend through Jewish memory

traditions Through this focus on memory Jewish adapters of the legend create complex renderings of the Wandering Jew that recognize not only the entanglement of Jewish and Christian memory but also the impact of that entanglement on Jewish subjects This book presents a complex sympathetic and more fully realized version of the legend while challenging the limits of the presentism of memory studies
