Making Of The Second Cold War:

The Making of the Second Cold War Fred Halliday, 1986 **From Cold War to Collapse** Mike Bowker, Robin Brown, 1993 A review of the survival of International Relations theories after the collapse of the Cold War Creating the Second Cold War Simon Dalby, 2016-10-06 The Cold War is over yet many attitudes and analyses typical of the period persisted in the strategic thinking of the Great Powers In this brilliantly original study Simon Dalby uses the conceptual tools of geopolitical analysis to uncover the essence of American strategic discourse Focussing on the period of the late 1970s he shows how Washington pressure groups political organisations and in particular the Committee on the Present Danger recreated a language of confrontation that deeply influenced Western attitudes towards the Soviet Union in ways that continue to shape foreign policy *The Second Cold War* Aaron Donaghy, 2021-04-29 Towards the end of the Cold War the last great struggle between the United States and the Soviet Union marked the end of a tense and escalated into the most dangerous phase of the conflict since the Cuban Missile Crisis Aaron Donaghy examines the complex history of America's largest peacetime military buildup which was in turn challenged by the largest peacetime peace movement Focusing on the critical period between 1977 and 1985 Donaghy shows how domestic politics shaped dramatic foreign policy reversals by Presidents Jimmy Carter and Ronald Reagan He explains why the Cold War intensified so quickly and how contrary to all expectations US Soviet relations were repaired Drawing on recently declassified archival material *The Second Cold War* traces how each administration evolved in response to crises and events at home and abroad This compelling and controversial account challenges the accepted notion of how the end of the Cold War began *Rethinking Theory and History in the Cold War* Richard Saull, 2001 *Rethinking Theory and History in the Cold War* focuses on what we mean by politics and international relations and how such assumptions have come to determine our understanding of the Cold War Using an historical materialist method the author criticizes conventional conceptions of international politics that tend to focus on the agency of and relations among states and offers an alternative historical sociology of the Cold War through an analysis of the relationship between formal political authority and socio economic production Seen from this perspective the state the modern conceptions of politics can be seen as products of a capitalist modernity in which politics is based on the separation of the spheres of politics in the state and economics in civil society **BOOK JACKET** *The Geopolitics Reader* Gerard Toal, Gearóid Ó Tuathail, Simon Dalby, Paul Routledge, 1998 Content Description Includes bibliographical references and index *The Origins of the Cold War in Europe* David Reynolds, 1994-01-01 Although the Cold War is over the writing of its history has only just begun This book presents an analysis of the origins of the Cold War in the decade after the Second World War discussing the development of the United States and the Soviet Union as superpowers and the reactions of the Western European states to the growing Soviet American rivalry Drawing on recently opened archives from the former Soviet Union as well as on existing research largely unavailable in English distinguished authorities from each of the countries

discussed provide new insight into the Cold War and into the Europe that has been molded by it The book begins with an overview of United States Cold War policy after the war and a pioneering post communist examination of Russian involvement The next chapters focus on the other two members of the wartime alliance Britain and France for which the Cold War was interwoven with concerns such as the maintenance of empire and the continued fear of Germany The book then examines the vanquished countries of World War II Italy and Germany who particularly in the case of divided Germany were struggling to recover their international status and come to terms with their past The last part of the book considers how the small states Benelux and Scandinavia forged new groupings in the search for security even though conflicts of national interest still persisted between them The authors not only show the impact of superpower policies on each country but also reveal the many ways in which West European states were active participants in Cold War politics trying to draw the Americans into Europe and shaping the blocs that emerged The book sheds light on the European Community in many ways a response to uneasiness about Germany and on NATO whose purpose was once described as keeping the Russians out the Americans in and the Germans down

The Culture of the Second Cold War Richard Sakwa, 2025-02-04 The work examines the metapolitics of the Second Cold War The focus is less on the detailed analysis of diplomatic history and processes in international politics and more on the underlying attitudes and ideologies that have generated and sustained Cold War 2 The work examines the definition of a Cold War and reasons for the persistence of this form of international politics as well as the clash over interpretations of the causes of renewed conflict The work then looks at how this Cold War is being conducted including renewed militarism the suppression of dissent the decline of diplomacy and the reduced opportunities for dialogue The instruments of the Cold War 2 include sanctions and the reinterpretation of history and memory wars Many of the familiar methods drawn from Cold War 1 are now applied but in novel ways to reflect technological change as well as the different ideological contexts The position of the global South in this Cold War is examined and the work ends with some reflections on possible ways this Cold War could end

The Second Cold War Luiz Alberto Moniz Bandeira, 2017-05-30 This book investigates the geopolitics and strategic dimensions of US American foreign policy during George W Bush s and Barack Obama s presidential terms Based on a vast amount of empirical and historical sources the author offers deep insights into the recent political developments Arabellions along the axis of Northern Africa the Middle East and Central Asia situating them in the context of the global geopolitical and geo economical Great Game either latent or overt between USA NATO and Russia The author also analyses the influence of the US on these historical and political processes in the last two decades

Origins of the Cold War 1941-1949 Martin McCauley, 2015-11-19 Origins of the Cold War 1941 1949 covers the formative years of the momentous struggle which developed between two superpowers the Soviet Union and the United States It not only involved these titans but also the rest of the globe many proxy wars were fought much to the detriment of the developing world In a clear concise manner this book explains how the Cold War

originated and developed between 1941 and 1949 The fourth edition is revised updated and expanded to include new material on topics such as the culture wars and Stalin s view of Marxism The introduction looks at the various approaches which have been adopted to analyse the Cold War and the challenges to arrive at a theory which can explain it The book explores questions such as Who was responsible for the Cold War Was it inevitable or could it have been avoided Was Stalin genuinely interested in a post war agreement Illustrated with maps and figures and containing a chronology and who s who of key individuals *Origins of the Cold War 1941 1949* incorporates the most recent scholarship theories and information to provide students with an invaluable introduction to a fascinating period that shaped today s world *The Strategic Defense Initiative* Ralph L. Dietl, 2018-08-15 The Nuclear and Space Talks revolutionized arms control The Cold War endgame commenced with the umbrella negotiations that linked START and INF negotiations to a regulation on the weaponization of space This volume reveals a US grand strategy to replace deterrence with a collective security order An entente of the superpowers was needed to transform bipolarity The US planned the replacement of mutually assured destruction by mutually assured security A global astrodome was to protect a nuclear disarmed world The Franco German special relationship in European affairs had to be amended by a US SU special relationship to replace classic bloc politics The Reagan Administration planned a global zero agenda a joint development of a global protective system and a creation of a Common House of Europe In brief the superpowers prepared the velvet revolution that eliminated the Cold War structures Neither containment nor convergence offers a valid explanation of the Cold War endgame Co creation is the key to decipher the end of the Cold War NATO Europe challenged the transformation of bipolarity The European NWS resisted to a multilateralization of strategic arms control In Europe the classic Cold War thinking survived the fall of the Iron Curtain European conservatism contributed to the geopolitical catastrophe of the first order the downfall of the Soviet Union The Reagan Administration developed a Grand Strategy to end the Cold War The US SU co creation of an astrodome was meant to ease a global zero agenda A global collective security structure under the United Nations was to replace deterrence The superpower project collapsed due to the penetration of US decision making by NATO Allies The European NWS totally objected to a multilateralization of strategic arms control to preserve their relative position in the international system

The Arms Dynamic in South-East Asia During the Second Cold War Mark. G. Rolfs, 2017-11-30 This title was first published in 2002 This work uses the concept of the arms dynamic to identify and assess the various factors which influenced arms acquisitions of Southeast Asian states during the second Cold War period from 1979 to 1989 providing an essential basis for understanding contemporary developments The book provides a comprehensive and systematic explanation of the reasons for arms purchases in SE Asia during the 1980s and aims to fill a gap in the literature by fully exploring arms procurement processes in the region prior to the end of the Cold War **Not Just Another Cold War** Bård Nikolas Vik Steen, 2025-03-05 This book considers how the emerging superpower rivalry between the US and China compares to the Cold

War and what it means for the world Featuring contributions from leading strategic thinkers like Stephen Walt M Taylor Fravel Scott Kastner Fran ois Heisbourg and Thomas J Christensen the book analyzes key issues such as the prospect for war economic and military balances the impact of technology the relationship between China and Russia and NATO s role It offers a nuanced perspective on a relationship that is likely to be at least as significant as the Cold War highlighting the critical differences between this superpower rivalry and the previous one Cold War II Tatiana

Prorokova-Konrad,2020-11-24 Contributions by Thomas J Cobb Donna A Gessell Helena Goscilo Cyndy Hendershot Christian Jimenez David LaRocca Lori Maguire Tatiana Prorokova Konrad Ian Scott Vesta Silva Lucian Tion Dan Ward and Jon Wiebel In recent years Hollywood cinema has forwarded a growing number of images of the Cold War and entertained a return to memories of conflicts between the USSR and the US Russians and Americans and communism and capitalism Cold War II Hollywood s Renewed Obsession with Russia explores the reasons for this sudden reestablished interest in the Cold War Essayists examine such films as Guy Ritchie s The Man from U N C L E Steven Spielberg s Bridge of Spies Ethan Coen and Joel Coen s Hail Caesar David Leitch s Atomic Blonde Guillermo del Toro s The Shape of Water Ryan Coogler s Black Panther and Francis Lawrence s Red Sparrow among others as well as such television shows as Comrade Detective and The Americans Contributors to this collection interrogate the revival of the Cold War movie genre from multiple angles and examine the issues of patriotism national identity otherness gender and corruption They consider cinematic aesthetics and the ethics of these representations They reveal how Cold War imagery shapes audiences understanding of the period in general and of the relationship between the US and Russia in particular The authors complicate traditional definitions of the Cold War film and invite readers to discover a new phase in the Cold War movie genre Cold War II **The Cold War** David S. Painter,1999 The Cold War dominated international relations for forty five years and hardly any part of the world escaped its influence David Painter provides a compact and analytical study that examines its origins course and end **History for**

the IB Diploma Paper 2: The Cold War Allan Todd,2015-07-30 Comprehensive second editions of History for the IB Diploma Paper 2 revised for first teaching in 2015 This coursebook covers Paper 2 World History Topic 12 The Cold War Superpower Tensions and Rivalries 20th century of the History for the IB Diploma syllabus for first assessment in 2017 Tailored to the requirements of the IB syllabus and written by experienced IB History examiners and teachers it offers authoritative and engaging guidance through the following detailed studies of leaders and crises from around the world Truman Khrushchev Gorbachev Castro and Reagan and the Cuban Missile Crisis the Korean War the Prague spring and the Soviet invasion of Afghanistan **The Study of International Relations** Hugh C. Dyer,Leon Mangasarian,1989-10-16 This wide ranging study surveys the present state of international relations as an academic field It locates and assesses recent developments in the field in short what is being done where by whom and why The editors have focused on some central and controversial theoretical issues and included surveys of principal sub fields as well as the various approaches to the study of

international relations in different countries The book provides a comprehensive overview of an important and fast growing area of academic endeavour and is essential reading for teachers and students of international politics and the social sciences at large **Intelligence in the Cold War: What Difference did it Make?** Michael Herman,Gwilym

Hughes,2013-09-13 Intelligence was a major part of the Cold War waged by both sides with an almost warlike intensity Yet the question What difference did it all make remains unanswered Did it help to contain the Cold War or fuel it and keep it going Did it make it hotter or colder Did these large intelligence bureaucracies tell truth to power or give their governments what they expected to hear These questions have not previously been addressed systematically and seven writers tackle them here on Cold War aspects that include intelligence as warning threat assessment assessing military balances Third World activities and providing reassurance Their conclusions are as relevant to understanding what governments can expect from their big secret organizations today as they are to those of historians analysing the Cold War motivations of East and West This book is valuable not only for intelligence international relations and Cold War specialists but also for all those concerned with intelligence s modern cost effectiveness and accountability This book was published as a special issue of Intelligence and National Security **Irish Slavonic Studies** ,1984 **On Every Front** Thomas G. Paterson,1992 How and why did the Cold War begin How and why did it end What will its end mean for international relations Opening his new book with the drama of people struggling to survive in rubble strewn countries after the Second World War Thomas G Paterson follows the long Cold War crisis though to the dismantling of the Berlin Wall and the disintegration of the Soviet Union He examines features of the international system that guaranteed conflict the great power quest for order by building spheres of influence the power ideology and strategic economic needs of the United States and the Soviet Union that compelled activist global foreign policies and the personalities of key figures from Truman to Bush Stalin to Gorbachev and Yeltsin In his exploration of the end of the Cold War the author concludes that the two superpowers sought detente because they had been weakened by the economic costs of the Cold War challenges from allies and the diffusion of power in the international system after the rise of the Third World As historical story and analysis On Every Front provides a telling account of an era of the making and unmaking of the Cold War
