force as a destructive monopoly and as a subordinate mechanism in pluralist industrial society Such groupings allow for ready comparison of divergent views of the origins development and future of the labor movement **Karl Marx and Friedrich Engels** Cecil Eubanks,2015-04-17 The project to publish the works of Marx and Engels continues and this book published in 1984 puts together a comprehensive bibliography of their works either written in or translated into English including books monographs articles chapters and doctoral dissertations together with the works of their interpreters The inclusion of the secondary literature makes this a particularly valuable bibliography and contributes greatly to the understanding of the thought of Marx and Engels Karl Marx's Social and Political Thought Bob Jessop,Russell Wheatley,1999 Collections of United States Joint Publications Research Service Translations in the Social Sciences Emanating from Communist China United States. Joint Publications Research Service,1961 Marx for Cats Leigh Claire La Berge,2023-10-02 At the outset of Marx for Cats Leigh Claire La Berge declares that all history is the history of cat struggle Revising the medieval bestiary form to meet Marxist critique La Berge follows feline footprints through Western economic history to reveal an animality at the heart of Marxism She draws on a twelve hundred year arc spanning capitalism s feudal prehistory its colonialist and imperialist ages the bourgeois revolutions that supported capitalism and the communist revolutions that opposed it to outline how cats have long been understood as creatures of economic critique and liberatory possibility By attending to the repeated archival appearance of lions tigers wildcats and sabo tabbies La Berge argues that felines are central to how Marxists have imagined the economy and by asking what humans and animals owe each other in a moment of ecological crisis La Berge joins current debates about the need for and possibility of eco socialism In this playful and generously illustrated radical bestiary La Berge demonstrates that class struggle is ultimately an interspecies collaboration **The Marxist Review** ,1977
