parachurch groups operate under secular leadership principles and strategies without considering what Scripture teaches In this accessible and comprehensive book leadership expert Aubrey Malphurs articulates a working definition of Christian leadership based on the Bible and his own extensive research Malphurs begins by defining a uniquely Christian leader from the inside out from godly character and commitment to pure motives and a servant attitude He examines the leaders of the first century church and then discusses qualities such as credibility capability and influence that are essential for successful

leadership Each chapter contains helpful questions for reflection and discussion The appendix includes numerous audits to help readers evaluate themselves on various leadership components Being Leaders is the first book of a two part series on leadership The companion book will address the how to of building leaders Building Leaders Aubrey Malphurs, Will Mancini, 2004-03-01 Training the next generation of leaders is crucial to spreading the gospel yet most churches have no formal way of doing this Why Tight budgets small staffs and a lack of know how are just a few reasons suggested by church consultants Aubrey Malphurs and William Mancini in this groundbreaking book Building Leaders provides real life examples of ways churches can unleash their true ministry potential by training staff members and laypeople to lead With step by step instructions that can be applied to any church or parachurch ministry Building Leaders shows readers how to empower not just train leaders overcome obstacles to developing leaders identify emerging leaders use biblical models for training leaders form a leadership training program to fit any size or budget Packed with surveys discussion questions and a leadership development guide Building Leaders will encourage leaders to duplicate themselves in order to see their ministry grow It is a perfect resource for ministry students church leaders and pastors The Payoff Principle Alan Zimmerman, 2015-03-03 Where do you hope to go with your life your career and your relationships How will you muster the energy to keep on keeping on in the good times and the bad What skills do you have to learn and then use to make sure you get the payoffs you really want in your professional life and your personal life The problem with so many positive thinking books and self help routines is that they don't give you the whole formula The Payoff Principle gives you that formula Purpose Passion Process Payoff and then works as your guidebook teaching you how to apply the formula to achieve success at work at home and everywhere you go When you find purpose in what you do exhibit passion for the outcome and master the process to make it happen you produce the payoffs you want need and deserve Plenty of people have done exactly that whether consciously and deliberately or accidentally and luckily But you don't have to depend on luck anymore You have a formula for getting what you want You have a practical set of strategies guaranteed to deliver greater happiness and success than you've ever experienced All you have to do now is read The Payoff Principle to learn how to implement the formula to experience the new and complete you *Decently and In Order* Otis H. Corbitt, III, 2022-04-14 Seminary taught me to be a pastor but the Army taught me to be a leader We live in a broken fallen world which does not work exactly the way God originally intended Instead of being a well ordered and totally functional environment like the perfect Holy God who created it the world in which we live often manifests its brokenness by descending into near chaos Unless action is taken to correct the decline all aspects of our world descend towards chaos and our ministry efforts are no exception The military forces of the United States operate in a harsh environment that does not tolerate failure Whether it is rescuing hostages from a terrorist camp flying high performance aircraft in all types of weather operating nuclear power plants or even just feeding its troops in an austere field location military operations must succeed because the price of failure is too high Therefore the military has developed

excellent schemes for ensuring the success of events and operations Without a doubt the U S military knows how to operate in every clime and every country across the world Anyone who wants to be successful in leading any kind of team operation or event can do no better than to learn how to operate the way the military does The purpose of this book is not to turn churches into armies or ministry volunteers into soldiers but to provide a powerful tool which used appropriately in context can help any church or ministry conduct their operations effectively and efficiently In short do not be afraid because these techniques originated in a military context your author s personal experience of using them in ministry revealed them to be valuable and effectual
