Why Can't Grammy Remember Me? Dan Perkins,2017-10-26 This is a breakthrough book written on an important subject to children parents and grandparents The subject is Dementia or what is commonly referred to as memory loss To the best of my knowledge no other book on this subject has been written specifically for children ages 9 to 12 However Hudson s and Charlotte s endearing adventure is for all readers children parents and grandparents Your children will relate to the adventures of these two young girls and as they learn about memory loss so too will you and your children As people live longer the population winding up with Dementia is rapidly growing Parents find themselves ill equipped to talk to their children about this subject They themselves know little and without basic mental health knowledge parents are unable to discuss this issue with their children If you have a parent that is fine today they could start the long slow goodbye tomorrow I believe this book is a must read for all ages and parents in particular should read it and discuss it with their children Because this is such an important issue I am going to donate 10% of my royalties to the Alzheimer Foundation Keys to Understanding Alzheimer's Disease Gisèle P. Wolf-Klein,Arnold P. Levy,1992 If you re a spouse a child or a close relative of an Alzheimer s victim you need to read this book In non technical language the authors explain symptoms advise on care strategies offer moral support suggest sources of outside help and generally treat this difficult subject with both intelligence

from the insights provided by this beautifully written collection **Measure of the Heart** Mary Ellen Geist, 2025-05-01

Mary Ellen Geist decided to leave her job as a CBS Radio anchor to return home to Michigan when her father's Alzheimer's got to be too much for her mother to shoulder alone. She chose to live her life by a different set of priorities to be guided by her heart not by outside accomplishment and recognition. The New York Times wrote a front page story on Mary Ellen on Thanksgiving 2005. It was one of the most e-mailed stories for the month. Through her own story and through interviews with doctors and other women who've followed the Daughter Track leaving a job to care for an aging parent, Geist offers emotional insights on how to encourage interaction with the loved one you're caring for, how to determine daily tasks that are achievable and rewarding, how the personality of the patient affects the caregiving and the progression of the diseases, as well as invaluable advice about how caregivers can take care of themselves while accomplishing the Herculean task of constantly caring for others. Geist's years in journalism allow her to report on Boomers' caretaking dilemmas with professional objectivity, and her warm voice brings compassion and insight to one of the most difficult situations a son or daughter may face during his or her life.
