My Grandfathers Generations Of An American Family:

Five Generations of a Mexican American Family in Los Angeles Christina Chavez, 2007-04-09 Despite their citizenship and English monolingualism Mexican Americans have long been known to remain largely working class which academically has meant that they tend to be mostly high school graduates with low rates of college attendance and completion Attempting to understand this phenomenon *Five Generations of a Mexican American Family in Los Angeles* chronicles the home work and school lives of the author's multigenerational family throughout the twentieth century Using oral histories of 33 members across five generations the Fuentes story illuminates the interaction between race ethnicity and class at home in the labor market and in schools which circumscribe the opportunity and resources or lack thereof for academic success Generally findings show that these factors work together to reproduce the family's social standing over generations Equally important the analysis reveals how the persistence and strength of the Fuentes heritage cultural values *buena educaci n* and familism have insulated them from the continued threat of racial discrimination and economic hardship in American life The Fuentes story provides the reader with a keen view of the process by which Fuentes moved from immigrants to ethnic Americans and shows how they have gracefully survived the harsh and unpredictable nature of being of a racial minority and the working class

which settled on the shores of the Schuylkill River five years before William Penn laid out the city Before his death in 1992 the author s father wrote a series of letters containing the stories told to him as a child in the early twentieth century He researched the public records of both the Historical Societies and the Quaker Meetinghouse to build upon the actual accounts of his family members He spent the last twenty years of his life collecting this historical information In the mid nineteenth century the author s great grandfather began building on the names and facts about family members The information he gathered was also used to write this book Actual letters written from the foxholes of the civil war are typical of the documents used to complete this book Our past can only be retrieved from what we remember and from the historical records that have been kept Without memories and without records we have no personal history **Mrs. Hornstien** Fredrica Wagman,2025-08-22 Every so often a writer invents a story whose simplicity cannot disguise for more than a few moments a work of radiant beauty and sustained power Mrs Hornstien is such a book With a raw lyricism all her own Fredrica Wagman writes of family of passing generations of love and striving of grief and loss and renewal Her narrator Marty begins with a day burned in her memory when as a young woman in love she meets her future mother in law Mrs Hornstien She ends her tale many years later now a matriarch herself poised to meet her own son s future bride Within the elegantly drawn arc of this natural succession Wagman gathers with unsparing honesty more than one lifetime s worth of wisdom about women s lives and the human experience And standing stalwartly at the center of this pageant is the unforgettable figure of Mrs Hornstien a formidable being whose huge heart is nonetheless more than capable of being broken *Even the Best of Us* Dwight A. Empty Pastures Terence J. Centner, 2010-10-01 Over the past century American agriculture has shifted dramatically with small commercial farms finding it increasingly difficult to compete with large scale mostly indoor animal feeding operations AFOs In this book Terence J Centner investigates the environmental social economic and political impact of the rise of the so called factory farm exposing the ramifications of the contemporary trend toward industrial scale food production Just as Rachel Carson s landmark *Silent Spring* used the disappearance of songbirds as a jumping off point for a work that raised public awareness of pesticides devastating environmental impact *Empty Pastures* sees the dwindling numbers of livestock in the American countryside as a symptom of a broader transformation one with serious consequences for the rural landscape and its inhabitants animal as well as human After outlining the rise of the AFO Centner examines the troubling consequences of consolidation in animal farming and suggests a number of remedies The issues he tackles include groundwater contamination the loss of biodiversity animal welfare concentrated odors and other nuisances soil erosion and the economic effects of the disappearance of the small family farm Inspired by largely abandoned traditional practices rather than a radical and unrealistic vision of a return to an idealized past Centner proposes a series of pragmatic reforms for regulating factory farms to halt ecological degradation and revitalize rural communities **First Generation** June

 Murray, 2024-06-25 First published in 1956 *Proud Shoes* is the remarkable true story of slavery survival and miscegenation in
 the South from the pre Civil War era through the Reconstruction Written by Pauli Murray the legendary civil rights activist
 and one of the founders of NOW *Proud Shoes* chronicles the lives of Murray's maternal grandparents From the birth of her
 grandmother Cornelia Smith daughter of a slave whose beauty incited the master's sons to near murder to the story of her
 grandfather Robert Fitzgerald whose free black father married a white woman in 1840 *Proud Shoes* offers a revealing
 glimpse of our nation's history *Factors That Affect Succession in African-American Family-Owned Business* Charles W.
 Hunt, 2012-03 A great deal of literature confirms the fact that small family owned businesses rarely extend beyond the
 founder of the business This study explored and identified factors that helped to create a successful family business
 transition for two African American family owned businesses in the San Antonio area One family experienced working
 through a well thought out succession plan that successfully passed the mantle from one generation to the next while the
 other family experienced going through an unexpected unplanned business succession that was also successful
 Understanding the factors that help create a successful family business transition is difficult because there is very little
 scholarly research that has an in depth focus on the African American family business The research design used was a
 Phenomenological Qualitative Historical Case Study The findings revealed that both families success may be attributed to
 factors such as being raised by both of their parents and being taught family values hard work responsibility and
 accountability Self preservation the first law of nature was taught to make them aware of the importance of taking care of
 self first so they could take care of others As children they watched their parents at work which gave them the opportunity to
 shape and mold their own work ethic with a strong family influence Most of the children in both families were socialized into
 the family business and never worked elsewhere Both families were very active in church and made the church the center of
 their social life All of the family members had mentors and or role models as a child at school and at work The researcher
 concludes that it is important to note a plan for succession should consist of three elements all of which must precede the
 actual succession by a few months A plan for succession occurred in one case however in the second case it occurred several
 months after succession took place **Van Norden Family Possessions, from the Sixth and Seventh Generations in

 several distinguished careers military man and champion fencer among them before he assumed the editorial chair of the

Shaw edited Black Mask magazine The pioneering first stories of Carroll John Daly and Dashiell Hammett had just begun to appear in its pages Shaw recognized in their hard boiled treatment of the American crime story the potential for a new literary school Working closely with his hand picked writers he pulled the magazine back from the brink of cancellation and transformed the staid detective story into a vigorous and modern genre discovering and championing important inheritors of this new tradition among them Raymond Chandler But there is more to Joe Shaw than his editorial career Here in the first biography ever written of this editorial giant his son relates the full fascinating story of the man behind the revolutionary editorial persona
