Captured by Neurophysiological Tools Alexandra Wolf,Elena Salobar-Garcia ,D. S. V. Bandara,Karine Ravienna,2024-04-19 Major neurocognitive disorders are one of the leading causes of disability and dependency among the elderly worldwide Notably their far reaching impact extends beyond the estimated 50 million people currently living with a major neurocognitive disorder As the conversion to Alzheimer s disease AD progresses patients symptoms e g memory loss severe impairments in thinking and behavior place a heavy toll on their caregivers family and friends who face emotional frustration coupled with great financial stress Furthermore in terms of global cost estimation the World Health Organization predicted that by 2030 the treatment of patients with AD and other forms of acquired cognitive impairment will cost the healthcare system US 1 7 trillion or US 2 8 trillion if corrected for the increase in care costs Reflecting on

Autoethnographic and Phenomenological Experiences Donald Collins,2021-07-08 Reflecting on Autoethnographic and

Phenomenological Experiences A Caregiver's Journey is a unique critical qualitative inquiry study that uses the author's experience as a caregiver to his wife suffering from dementia as the basis of a critical autoethnography. It explores components of positive caregiving that may be not only melancholic and empirical but also emotionally painful. The book employs multiple approaches that include critical narrative phenomenology, autoethnography, and experiential writing. Through a phenomenological lens of an insider that includes self and other, hood, marriage, career, fatherhood, suicide, despair, triple grief, loss, caregiving, cooking, housekeeping, advocating, mind reading, and encouraging, a narrative illustrating self-reflection on particular experiences is constructed. These culminating experiences result in first-hand and didactical understandings by the caregiver. Individual personal and subjective interpretation of relational happenings are explored. Reflective journaling and observations of the seasons of marital life seek to understand if and how shared experiences transcend multiple contexts and help the reader understand experiences of dementia. Reflecting on Autoethnographic and Phenomenological Experiences A Caregiver's Journey is a volume that will be invaluable to qualitative inquiry researchers, autoethnographers, and those readers interested in the research of caregiving. Perfect for courses such as Autoethnography, Advanced Qualitative Inquiry, Disability Studies, Educational Research, Research Philosophy, Qualitative Research Inquiry.

Ribeiro, 2019-05-02 This book is a large-scale historical reconstruction of liberal legalism from its inception in the mid-nineteenth century, the moment in which the jurists forged the alliance between political liberalism and legal expertise embodied in classical private law doctrine to the contemporary anxiety about the possibility of both a liberal solution to the problem of political justification and of law as a respectable form of expert knowledge. Each stage in the history is a moment of synthesis between a substantive and a methodological idea. The former is the liberal political theory of the period purporting to provide a solution to the problem of political justification. The latter is a conception of legal method or science supposedly vindicating the access of the expert to the political choices embodied in the law. Thus, each moment in the history of liberal legalism integrates a political theory with a jurisprudential conception. Although it reaches the unsettling conclusion that liberal legalism has largely failed by its own standards, the book urges us to avoid quietism, scepticism, or cynicism in the hope that a deeper understanding of the fragility of our values and institutions inspires a more thoughtful, broadminded, and
