Two Yellow Butterflies Caroline Malone,2020-08-10 So why this book and why *Two Yellow Butterflies* Why this book is relatively easy to answer I have been pushed shoved encouraged and eventually motivated by spirit and my best friend Carol to write it It is a book to help you on your spiritual path and to give you a better understanding when you are feeling spiritually excited to learn more and more or are feeling lost out your depth with life or questioning almost everything spiritual that you have heard or read about It is also when you want to learn more safely and with encouragement The exercises at the end of most chapters will help you so feel free to read in any order You will notice there is reference in some chapters to others but it should still be easy to follow With all things in life there are some misunderstood practices this book is not to shun other beliefs but to live alongside others and their beliefs with an open mind and heart The subject of spirituality is too vast to cover everything literally in one book but this book should be a guide for you and make you laugh as you walk the pathway as well as give you hope and a clearer understanding of many things The excitement I mentioned many of you will empathise with as a spiritual path is exciting and you will know what I mean when I say it This book will possibly touch on some spiritual aspects you may find hard to believe may not have heard of or understand The idea of writing it is to clarify for you some of the confusing thoughts and ideas about spiritual things that happen in my world Always remember it is good if you query doubt and keep an open mind as each of us need to question what we read and are taught then make our own decisions if it fits with us Remember this book is about my journey through

spirituality and teachings and what I believe and have experienced With spiritual disciplines there is no right or wrong way only the way you personally feel and have a chance to develop Differing views of spirituality are everywhere which are invaluable it cannot be one size fits all but in essence it is about how we live our life and what we do with it Living Well Through The Menopause Myra Hunter, Melanie Smith, 2021-02-04 An essential book to help women journey through menopause with the confidence and skills to cope effectively with menopause symptoms using cognitive behavioural therapy CBT CBT is proven as an effective alternative for women who are looking for non medical approaches for challenging menopause symptoms and for those who do not want or are unable to use hormone therapy HT Written in an accessible and interactive style with case examples and quotes this guide will empower you to take control of your menopause It covers Taking a bio psycho social approach to understand the range of factors that might influence your experience of the menopause Preparing for the menopause no need to expect the worst Using interactive questions and tasks to help you understand the links between menopause symptoms thoughts feeling and coping behaviours Helping you to implement your key goals for this important stage of your life whether your menopause is early or on time or a consequence of surgery or breast cancer treatment Enhancing your self esteem through behaviour change and a compassionate mindset Helping partners and loved ones to support you through the menopause Living Well Through the Menopause is based on a wealth of psychological research including randomised controlled trials of the MENOS CBT intervention with over 1000 women that has demonstrated the effectiveness of this approach hot flushes night sweats low mood insomnia and their impact on daily life Living Well self help guides use clinically proven techniques to treat long standing and disabling conditions both psychological and physical Series Editors Professor Kate Harvey and Emeritus Professor Peter Cooper
