WHAT CUSTOMERS WANT

Shopping for new products is a very personal thing. Some of us are looking for **original** products that nobody else will have. Others want to have the same things as everybody else, so they are more attracted by **popular** products. But it seems that we all have the same reasons for choosing one product or service over another. A recent online survey showed that the top five priorities for customers were:

1 VALUE

Most people want to be sure that they are getting **good value** when they buy a product. This doesn't always mean that the product is cheap; it means that it is the product we want and that we are happy with the price we are paying.

2 SERVICE

Most of us want to talk to people who know their job and can give us good advice. We want **helpful** staff who can deal with problems quickly and efficiently. This is true not only in shops, but also when we order by phone or online.

3 TRUST

Most customers want to buy from **reliable** companies that give them what they promise, every time. Companies that deliver late or that sell faulty products will soon lose our business.

4 QUALITY

We know that a Cartier watch is a quality product, but quality isn't only about price and expensive materials. A cheap watch that looks good and still tells us the right time after ten years is also a high-quality product.

5 SIMPLICITY

Most people want **user-friendly** products and services. We don't want to read a 200-page manual before we can use our mobile phone or other high-tech gadget.

- 3 Work with a partner. The five reasons in the survey are in order of importance for customers. Do you agree with the order? Would it change for different types of product?
