Brainmedia Flora Lysen, 2022-07-28 Will we ever be able to see the brain at work Could it be possible to observe thinking and feeling as if watching a live broadcast from within the human head Brainmedia uncovers past and present examples of scientists and science educators who conceptualize and demonstrate the active human brain guided by new media technologies from exhibitions of giant illuminated brain models and staged projections of brainwave recordings to live televised brain broadcasts brains hooked up to computers and experiments with brain to brain synchronization Drawing on archival material Brainmedia outlines a new history of live brains arguing that practices of and ideas about mediation impacted the imagination of seeing the brain at work By combining accounts of scientists examining brains in laboratories with examples of public demonstrations and exhibitions of brain research Brainmedia casts new light on popularization practices placing them at the heart of scientific work

Sensational Subjects John Jervis, 2015-01-29 This book is available as open access through the Bloomsbury Open Access programme and is available on www.bloomsburycollections.com Under what conditions does sensation become sensational In the early nineteenth century murder was a staple of the sensationalizing popular press and gruesome descriptions were deployed to make a direct impact on the sensations of the reader By the end of the century public concern with the thrills spills and shocks of modern life was increasingly articulated in the language of sensation Media sensationalism contributed to this process and magnified its impact just as sensation was in turn taken up by literature art and film In the contemporary world the dramatization of these experiences in an era of media panics over terrorism and

paedophilia has taken an overtly melodramatic form in which battles of good and evil play out across the landscapes of our lives Sensational Subjects develops an innovative interdisciplinary approach to exploring these themes their impact and their implications for understanding the modern world A companion volume Sympathetic Sentiments Affect Emotion and Spectacle in the Modern World is published simultaneously by Bloomsbury

Twenty Years on Renate Rechtien,Dennis Tate,2011

Twenty years on from the dramatic events that led to the opening of the Berlin Wall and the collapse of the GDR the subjective dimension of German unification is still far from complete The nature of the East German state remains a matter of cultural as well as political debate This volume of new research focuses on competing memories of the GDR and the ways they have evolved in the mass media literature and film since 1989 90 Taking as its point of departure the impact of iconic visual images of the fall of the Wall on our understanding of the historical GDR the volume first considers the decade of cultural conflict that followed unification and then the emergence of a more complex and diverse textual memory of the GDR since the Berlin Republic was established in 1999 It highlights competing generational perspectives on the GDR era and the unexpected afterlife of the GDR in recent publications The volume as a whole shows the vitality of eastern German culture two decades after the demise of the GDR and the centrality of these memory debates to the success of Germany's unification process

The Pragmatics of Literary Testimony Chantelle Warner,2013 In this book Warner examines a number of German language literary autobiographies that are connected to diverse social movements of the last forty years These books have all received critical attention from the popular press topped bestseller lists and have been pivotal in discussions of authenticity subjectivity and referentiality Because of the thematic diversity of these works scholars within literary and cultural studies have tended to treat them separately under topical categories such as women's literature the post war generation migration and multiculturalism etc Underlying Warner's analysis is the belief that the social construction of autobiographical acts is as much a matter of textuality as it is of topicality i.e. how language means rather than what it means and that a pragmatic stylistic approach is well suited to describing how literary autobiographies come to function as testimonies to certain collective experiences By presenting a model for an integrative stylistics approach The Pragmatics of Literary Testimony participates in current discussions within fields of literary linguistic scholarship as well as autobiographical theory In its analysis of key examples of German social testimonies from the late twentieth century this book incorporates insights from discourse analysis pragmatics cognitive poetics and sociolinguistics in order to demonstrate that this diverse body of works constitutes a particular form of textual practice defined by what the author calls authenticity effects feelings of realism immediacy exemplarity genuineness and social relevance Such a study of authenticity as a poetic effect can help us to better understand the testimonial glamour owned by various types of autobiographical narration

Production Studies Vicki Mayer,Miranda J. Banks,John T Caldwell,2009-09-10 Behind the scenes stories of ranting directors stingy producers temperamental actors and the like have fascinated us since the beginnings of film and television Today magazines websites

television programs and DVDs are devoted to telling tales of trade lore from on set antics to labor disputes The production of media has become as storied and mythologized as the content of the films and TV shows themselves Production Studies is the first volume to bring together a star studded cast of interdisciplinary media scholars to examine the unique cultural practices of media production The all new essays collected here combine ethnographic sociological critical material and political economic methods to explore a wide range of topics from contemporary industrial trends such as new media and niche markets to gender and workplace hierarchies Together the contributors seek to understand how the entire span of media producers ranging from high profile producers and directors to anonymous stagehands and costume designers work through professional organizations and informal networks to form communities of shared practices languages and cultural understandings of the world This landmark collection connects the cultural activities of media producers to our broader understanding of media practices and texts establishing an innovative and agenda setting approach to media industry scholarship for the twenty first century Contributors Miranda J Banks John T Caldwell Christine Cornea Laura Grindstaff Felicia D Henderson Erin Hill Jane Landman Elana Levine Amanda D Lotz Paul Malcolm Denise Mann Vicki Mayer Candace Moore Oli Mould Sherry B Ortner Matt Stahl John L Sullivan Serra Tinic Stephen Zafirau **Television after TV** Jan Olsson, Lynn Spigel, 2004-11-30 A critical reassessment of television and television studies in the age of new media

administration economists and labor studies specialists It is the official publication of the Center for Advanced Studies in Management The SAGE Handbook of Film Studies James Donald, Michael Renov, 2008-04-16 Written by a team of veteran scholars and exciting emerging talents The SAGE Handbook of Film Studies maps the field internationally drawing out regional differences in the way that systematic intellectual reflection on cinema and film has been translated into an academic discipline It examines the conversations between Film Studies and its contributory disciplines that not only defined a new field of discourse but also modified existing scholarly traditions It reflects on the field's dominant paradigms and debates and evaluates their continuing salience Finally it looks forward optimistically to the future of the medium of film the institution of cinema and the discipline of Film Studies at a time when the very existence of film and cinema are being called into question by new technological industrial and aesthetic developments The Nicest Kids in Town Matthew F. Delmont, 2012-02-22 American Bandstand one of the most popular television shows ever broadcast from Philadelphia in the late fifties a time when that city had become a battleground for civil rights Counter to host Dick Clark's claims that he integrated American Bandstand this book reveals how the first national television program directed at teens discriminated against black youth during its early years and how black teens and civil rights advocates protested this discrimination Matthew F. Delmont brings together major themes in American history civil rights rock and roll television and the emergence of a youth culture as he tells how white families around American Bandstand's studio mobilized to maintain all white neighborhoods and how local school officials reinforced segregation long after Brown vs Board of Education The Nicest Kids in Town powerfully illustrates how national issues and history have their roots in local situations and how nostalgic representations of the past like the musical film Hairspray based on the American Bandstand era can work as impediments to progress in the present **What Journalism Could Be** Barbie Zelizer, 2017-05-23 What Journalism Could Be asks readers to reimagine the news by embracing a conceptual prism long championed by one of journalism's leading contemporary scholars A former reporter media critic and academic Barbie Zelizer charts a singular journey through journalism's complicated contours prompting readers to rethink both how the news works and why it matters Zelizer tackles longstanding givens in journalism's practice and study offering alternative cues for assessing its contemporary environment Highlighting journalism's intersection with interpretation culture emotion contingency collective memory crisis and visibility Zelizer brings new meaning to its engagement with events like the global refugee crisis rise of Islamic State ascent of digital media and twenty first century combat Imagining what journalism could be involves stretching beyond the already known Zelizer enumerates journalism's considerable current challenges while suggesting bold and creative ways of engaging with them This book powerfully demonstrates how and why journalism remains of paramount importance The Future of Live Karin van Es, 2016-11-28 Liveness is a persistent and much debated concept in media studies Until recently it was associated primarily with broadcast media and television in particular However the emergence of social media has brought new forms of liveness

into effect These forms challenge common assumptions about and perspectives on liveness provoking a revisiting of the concept In this book Karin van Es develops a comprehensive understanding of liveness today and clarifies the stakes surrounding the category of the live She argues that liveness is the product of a dynamic interaction between media institutions technologies and users In doing so she challenges earlier conceptions of the notion which tended to focus on either one of these contributors to its construction By analyzing the live in four different cases a live streaming platform an online music collaboration website an example of social TV and a social networking site van Es explores the operation of the category and pinpoints the conditions under which it comes into being The analysis is the starting point for a broader reflection on the relation between broadcast and social media Opening The X-Files Darren Mooney,2017-09-13 More than 20 years after it was first broadcast The X Files still holds the public imagination Over nine seasons and two feature films agents Mulder and Scully pursued monsters aliens mutants and shadowy conspirators across the American landscape Running for more than 200 episodes the series transformed television crafting a postmodern mythology that spoke to the anxieties and uncertainties of the end of the 20th century Covering the entire series from its debut through the second feature film this book examines how creator Chris Carter and his team of writers turned a scrappy cult favorite on Fox into a global phenomenon Grand Designs Aneta Podkalicka,Esther Milne,Jenny Kennedy,2018-11-28 This is the first academic book to examine the long running hit series Grand Designs which occupies a significant place in the popular imagination internationally The authors apply an empirically grounded critical perspective to the study of television to reveal how people use the program in their everyday lives The emphasis on everyday uses and meanings combines creatively with understanding the program theoretically textually and in terms of its production structures This position challenges framings of the popular lifestyle and factual television genre that has been dominated by a neoliberal or governmentality perspective for many years Presented by British designer and writer Kevin McCloud Grand Designs follows the progress of home owners as they embark on design renovation and building projects at almost always dizzying scales of endeavour Understanding the program as both a text to analyse and a site of material impact the book draws on interviews with production members home renovators building practitioners and audiences as well as references to associated media formats to provide contextual depth to the analysis The authors argue that as a cultural object the program is both shaped by and enacts social discourses of home making design value and taste Navigating public commercial and promotional logics Grand Designs sparks new forms of cultural production and consumer markets Through the Crosshairs Roger Stahl,2018-06-21 Now that it has become so commonplace we rarely blink an eye at camera footage framed by the crosshairs of a sniper s gun or from the perspective of a descending smart bomb But how did this weaponized gaze become the norm for depicting war and how has it influenced public perceptions Through the Crosshairs traces the genealogy of this weapon s eye view across a wide range of genres including news reports military public relations images action movies video games and social media posts As he

tracks how gun camera footage has spilled from the battlefield onto the screens of everyday civilian life Roger Stahl exposes how this raw video is carefully curated and edited to promote identification with military weaponry rather than with the targeted victims He reveals how the weaponized gaze is not only a powerful propagandistic frame but also a prime site of struggle over the representation of state violence
