Reality Of One Poets Surreal Fate The:

The Reality of One Poet's Surreal Fate Elizabeth Edinburgh, 2005-04 These poems echo with the emotions we call life Some of them reflect a somewhat darker and mournful time in my own life Most of these poems are about life experiences while others are just intended to be thought provoking and to inspire people to think about how important life truly is to them The reality is that the world is not so pretty No one seems to care that communication and understanding are the base of all life I am in hopes that those who read this understand that there is more to life than selfish needs I used to think that I had lost love along with everything else Only now I realize that I was wrong because it has found me Maybe there is still hope for humanity in this world after all

From Romanticism to Surrealism Robert Havard, 1988-01-01 The book offers an in depth critical appreciation of seven major Spanish poets Emphasis is on the modern period with five of the poets being twentieth century poets It is argued that the roots of modern poetry are to be found in Romanticism s anguished search for meaning The seven Spanish poets include Becquer Rosalia de Castro Antonio Machado Jorge Guillen Pedro Salinas Garcia Lorca and Rafael Alberti

Surrealism, Insanity, and Poetry J. H. Matthews, 1982 In this groundbreaking original study J H Matthews clearly the chief scholarly explicator of surrealism today according to Contemporary Literature shows the surrealists goals and the imaginative freedom of mind are fused and diffused in the poet s creative world Hallucination game playing experimental research and the irrational which nurtures new ways of poetical expression are all interwoven Out of their eagerness to share benefits they ascribed to mental disturbance surrealists

developed an approach to poetic technique which capitalized on the free association of the unconscious mind without undermining the sanity of the poets themselves Matthews discusses early surrealist interest in psychosis hysteria and insanity This interest underlies such major works as Andre Breton's *Nadja* and Breton's and Paul Eluard's *The Immaculate Conception* It is in the latter text that the issue of insanity and its relationship to poetic activity is most clearly revealed as essential to the surrealist enterprise Also included here are chapters on insanity's poetic simulation and possession Matthews work is important to anyone interested in poetry the unconscious and the history of twentieth century ideas as well as to scholars of surrealism Karol Baron a Czech surrealist artist has provided six original drawings especially for this book
