Power, authority, and legitimacy form the framework of governance within a kingdom. Power allows the monarch to command, authority gives them the right to do so, and legitimacy earns them the consent of the governed.

Religion And The State The Struggle For Legitimacy And Power:

Collectivistic Religions Slavica Jakelic, 2016-05-23 *Collectivistic Religions* draws upon empirical studies of Christianity in Europe to address questions of religion and collective identity religion and nationalism religion and public life and religion and conflict It moves beyond the attempts to tackle such questions in terms of choice and religious nationalism by introducing the notion of collectivistic religions to contemporary debates surrounding public religions Using a comparison of several case studies this book challenges the modernist bias in understanding of collectivistic religions as reducible to national identities A significant contribution to both the study of religious change in contemporary Europe and the theoretical debates that surround religion and secularization it will be of key interest to scholars across a range of disciplines including sociology political science religious studies and geography

Islamic International Law Mohammad Z. Sabuj, 2021-06-22 This book investigates the legitimacy deficits of two potentially conflicting legal systems namely Public and Islamic international law It discusses the challenges that Public international law is being presented within the context of its relationship with Islamic international law It explores how best to overcome these challenges through a comparative examination of state practices on the use of force It highlights the legal political legacies that evolved surrounding the claims of the legitimacy of use of force by armed non state actors states and regional organizations This book offers a critical analysis of these legacies in line with the Islamic Shari a law United Nations Charter state practices and customs It concludes that the legitimacy question has reached a vantage point where it cannot be answered either by Islamic or Public international law as a mutually exclusive legal system Instead Public international law must take a coherent approach within the existing legal framework

Religious Ideology and the Roots of the Global

Jihad J. Turner, 2014-08-26 The events of 9 11 prompted questions as to the origins nature and purpose of international

jihadist organisations In particular why had they chosen to target the US and the West in general Turner s book provides a unique holistic insight into these debates taking into account historical perceptions and ideology as key factors

The Quest for Legitimacy in Chinese Politics Lanxin Xiang, 2019-09-03 Xiang explains the nature and depth of the legitimacy crisis

facing the government of China and why it is so frequently misunderstood in the West. Arguing that it is more helpful to understand the quest for legitimacy in China as an eternally dynamic process rather than to seek resolutions in constitutionalism, Xiang examines the understanding of legitimacy in Chinese political philosophy. He posits that the current crisis is a consequence of the incompatibility of Confucian Republicanism and Soviet inspired Bolshevism. The discourse on Chinese political reform tends to polarize between total westernization on the one hand or the rejection of western influence in all forms on the other. Xiang points to a third solution meeting western democratic theories halfway, avoiding another round of violent revolution. This book provides valuable insights for scholars and students of China's politics and political history.

Disciples of the State Kristin Fabbe, 2019-03-28 Using historical process tracing, this book examines state interaction with religious elites, institutions and attachments in Egypt, Greece and Turkey.

The Battle for the Soul of Islam James M. Dorsey, 2024-07-02 This book describes the battle between major Middle Eastern and Asian Muslim majority states to control the definition of Islam in the 21st century. Focusing on United Arab Emirates, Saudi Arabia and Indonesia, the book explores how the outcome of this battle will significantly empower the winner or winners to wield religious soft power, secure leadership of the Islamic world and project strategic influence worldwide. The result of the rivalry will determine which notions of a moderate Islam will prevail, including the degree to which these notions embrace religious and political pluralism, tolerance, gender equality, secularism and human rights as defined by the Universal Declaration of Human Rights or remain vague as in current Saudi and Emirate usage of the term moderation, which is designed to mask these states' failure to systematically integrate these values into their domestic and foreign policy agendas. Ultimately, the battle for the soul of Islam will significantly impact how Muslims worldwide understand and practice their faith. Waged in diverse arenas across the globe, this complex religious and geopolitical struggle will play a significant role in determining the prospects for peace and security not only in the vast region extending from the Atlantic coast of Africa to the Philippines but also in the United States and Europe.

The Oxford Handbook of Cultural Sociology Jeffrey C. Alexander, Ronald Jacobs, Philip Smith, 2010-01-01 Since sociologists returned to the study of culture in the past several decades, a pursuit all but anathema for a generation, cultural sociology has emerged as a vibrant field. Edited by three leading cultural sociologists, *The Oxford Handbook of Cultural Sociology* presents the full theoretical and methodological vitality of this critically significant new area. The Handbook gathers together works by authors confronting the crucial choices all cultural sociologists face today about analytic priorities, methods, topics, epistemologies, ideologies and even modes of writing. It is a vital collection of preeminent thinkers studying the ways in which culture, society, politics and economy interact in the world. Organized by empirical areas of study rather than particular theories or competing intellectual strands, the Handbook addresses power, politics and states, economics and organization, mass media, social movements, religion, aesthetics, knowledge and health. Allowing the reader to observe tensions as well as convergences, the collection displays the value of cultural

sociology not as a niche discipline but as a way to view and understand the many facets of contemporary society The first of its kind The Oxford Handbook of Cultural Sociology offers comprehensive and immediate access to the real developments and disagreements taking place in the field and deftly exemplifies how cultural sociology provides a new way of seeing and modeling social facts This groundbreaking readable handbook is the first single volume to attempt to unify its diverse contemporary applications in a wide range of traditional genres of sociology Valuable for college universities and libraries supporting undergraduate and graduate degree programs in sociology and history CHOICE □□□□□□□□,1986 State and Religion in the Arab World Khair El-Din Haseeb,2017-12-22 This collection focuses on the controversial relationship between religion and the state within the Arab Spring context and the evolving debates on democratic transition In this book democracy is not questionable it is hailed by all those vocal on the political scene The array of opinions presented here varies from a call for a secular state based on Islamic philosophy to a call for setting democratic institutions before working on solving this religion state dichotomy Meanwhile some prefer to have an ambiguous stand on which side to back up the liberals or the Islamists despite a detailed criticism of the ossified ways of those calling for a religious state Al Majd The book starts with an analysis and a detailed account of how the sensitive issue of the relationship between state and religion developed in Arab though and society and it goes on to employ less the religious discourse in presenting their positions thus focusing on actual cases of this struggle for power in different Arab countries such as Tunisia and Egypt The collection also provides insights and analysis of the ongoing debates and views on the role of religion in Libya and provides an analysis of the case of Morocco In addition to this there is a special chapter that deals with how Muslim communities living in the West adapt to secular state politics The collection ends with a thorough discussion by a number of Arab intellectuals and activists Muslims and Christians alike whereby core issues related to the debate on state and religion are presented This discussion in addition to reflecting the Islamist secular dichotomy demonstrates the richness of the ongoing debates that extend well beyond the discourse on this dichotomy This book is a compilation of articles published in Contemporary Arab Affairs The Search for a Cold War Legitimacy: Foreign Policy and Tito's Yugoslavia Robert Edward Niebuhr,2018-01-03 Titoist Yugoslavia is a particularly interesting setting to examine the integrity of the modern nation state especially the viability of distinctly multi ethnic nation building projects Scholarly literature on the brutal civil wars that destroyed Yugoslavia during the 1990s emphasizes divisive nationalism and dysfunctional politics to explain why the state disintegrated But the larger question remains unanswered just how did Tito s state function so successfully for the preceding forty six years In an attempt to understand better what united the stable multi ethnic and globally important Yugoslavia that existed before 1991 Robert Niebuhr argues that we should pay special attention to the dynamic and robust foreign policy that helped shape the Cold War

Local Peacebuilding and Legitimacy Landon E. Hancock,Christopher Mitchell,2018-02-15 This volume searches for pragmatic answers to the problems that continue to beset peacebuilding efforts at all levels of society with a singular focus

on the role of legitimacy Many peacebuilding efforts are hampered by their inability to gain the support of those they are trying to help at the local level or those at regional national or international levels whose support is necessary either for success at the local level or to translate local successes to wider arenas There is no one agreed upon reason for the difficulty in translating peacebuilding from one arena of action to another but among those elements that have been studied one that appears understudied or assumed to be unimportant is the role of legitimacy Many questions can be asked about legitimacy as a concept and this volume addresses these questions through multiple case studies which examine legitimacy at local regional national and international levels as well as looking at how legitimacy at one level either translates or fails to translate at other levels in order to correlate the level of legitimacy with the success or failure of peacebuilding projects and programs The value of this work lies both in the breadth of the cases and the singular focus on the role of legitimacy in peacebuilding By focusing on this concept this volume represents an attempt to build beyond the critical peacebuilding approach of deconstructing the liberal peacebuilding paradigm to a search for pragmatic answers to the problems that continue to plague peacebuilding efforts at all levels of society This book will be of much interest to students of peacebuilding conflict resolution development studies security studies and International Relations

The Confucian-Legalist State Dingxin Zhao, 2015-10-16 In *The Confucian Legalist State* Dingxin Zhao offers a radically new analysis of Chinese imperial history from the eleventh century BCE to the fall of the Qing dynasty This study first uncovers the factors that explain how and why China developed into a bureaucratic empire under the Qin dynasty in 221 BCE It then examines the political system that crystallized during the Western Han dynasty a system that drew on China's philosophical traditions of Confucianism and Legalism Despite great changes in China's demography religion technology and socioeconomic structures this Confucian Legalist political system survived for over two millennia Yet it was precisely because of the system's resilience that China for better or worse did not develop industrial capitalism as Western Europe did notwithstanding China's economic prosperity and technological sophistication beginning with the Northern Song dynasty In examining the nature of this political system Zhao offers a new way of viewing Chinese history one that emphasizes the importance of structural forces and social mechanisms in shaping historical dynamics As a work of historical sociology *The Confucian Legalist State* aims to show how the patterns of Chinese history were not shaped by any single force but instead by meaningful activities of social actors which were greatly constrained by and at the same time reproduced and modified the constellations of political economic military and ideological forces This book thus offers a startling new understanding of long term patterns of Chinese history one that should trigger debates for years to come among historians political scientists and sociologists

The Illusion of Eternal Religious Law Joseph The Monotheist, 2024-09-22 This book is the third in a series that presents an attempt to understand the Qur'anic revelation published concurrently with the first and second volumes It continues on the work presented in the first two volumes of this series to propose a new interpretation of the Qur'anic revelation that is claimed to constitute a more accurate representation of the revelation The first three volumes of this series argue that the religion of Islam or rather the numerous interpretations of Islam are unacceptable representations of the Qur'anic revelation The proposed interpretation of the Qur'anic revelation challenges the standpoints of Traditional Islam on three key issues inclusiveness the sources of religious knowledge and the composition of any acceptable Qur'anic based interpretation of religion Each of the first three volumes of this series is dedicated to one of these topics respectively In this book the stance of the proposed interpretation of the Qur'anic revelation on law is addressed This position will prove to be of special significance particularly in the context of modernity and the modern state Furthermore Islamic law and its relationship to the religion of Islam is explored The proposed interpretation of the Qur'anic revelation does not see religion to be the source of law but rather it sees religion to be a source of ethics It sees that any acceptable interpretation of religion that is based on revealed scripture should have no law component It rejects religious law altogether and calls for the implementation of secular law In consequence the proposed interpretation of the Qur'anic revelation would be redefining the role of religion and its domain of operation What Islam is the book talking about Is it one Islam that around one quarter of the world's population follows Are all of the commands in the Qur'an of eternal applicability What is Islamic law commonly referred to as Shari'a Why study Islamic law and why is it important to study it Is there only one Islamic law How does Islamic law relate to Islam Why does this book call for comprehensive religious reform and not religious law reform These questions and a multitude of others are addressed in this volume of the series This book is self contained It can be read as part of the series or independently It does not require the reader to have previous knowledge in any of the topics discussed The book discusses topics you do not find in your typical book about the Qur'an or Islam It would interest those who want to learn about the Qur'an its message and Islamic law Among this group would be those searching for a reformed understanding of the Qur'an and how it applies today those interested to learn about Islamic law what it is and what it is not and those interested in monotheistic religions in general This book will prove to be particularly useful to those seeking to understand the problems in the contemporary interpretations of Islam and consequently how such problems reflect on the Muslim individual and societies in general

Legitimacy and the State in Twentieth-Century Africa Terence Ranger, Olufemi Vaughan, 1993-06-15 This book takes as its theme the ways in which governments legitimate their rule both to themselves and to their subjects Its introduction explores legitimacy and pre colonial states but the three sections of the book deal with colonial legitimacy the question of legitimation in the transition from colonialism to majority rule and the contemporary debate about accountability **Hidden Powers of State in the Cuban Imagination** Kenneth Routon, 2010-07-18 Despite its hard nosed emphasis on the demystifying realism of Marxist Leninist ideology the political imagery of the Cuban revolution and the state that followed conjures up its own magical seductions and fantasies of power In this fascinating account Kenneth Routon shows how magic practices and political culture are entangled in Cuba in unusual and intimate ways Routon describes not only how the monumentality of the state arouses magical sensibilities and popular images of its hidden powers but he also explores the ways in which revolutionary officialdom has in recent years tacitly embraced and harnessed vernacular fantasies of power to the national agenda In his brilliant analysis popular culture and the state are deeply entangled within a promiscuous field of power taking turns siphoning the magic of the other in order to embellish their own fantasies of authority control and transformation This study brings anthropology and history together by examining the relationship between ritual and state power in revolutionary Cuba paying particular attention to the roles of memory and history in the construction and contestation of shared political imaginaries State and Society Coenraad M.
