Ojibwe Singers Michael David McNally, 2009 In the early nineteenth century Protestant missionaries promoted the translation of evangelical hymns into the Ojibwe language regarding this music not only as a shared form of worship but also as a tool for rooting out native cultural identity But for many Minnesota Ojibwe today the hymns emerged from this history of material and cultural dispossession to become emblematic of their identity as a distinct native people Author Michael McNally uses hymn singing as a lens to view culture in motion to consider the broader cultural processes through which Native American peoples have creatively drawn on the resources of ritual to make room for survival integrity and a cultural identity within the confines of colonialism

Beyond Ritual Siobhán Garrigan, 2017-03-02 In *Beyond Ritual* Siobhán Garrigan uses Habermas's theory of communicative action to suggest two things first a method by which theology can access the ritual symbols by which faith is formed and secondly a metaphor of intersubjectivity with which theology can propose an interpretative rather than an instrumental understanding of sacramentality and thus of God Through fieldwork studies of both marginal and mainstream Christian Eucharists Garrigan develops the conversation between Habermas's philosophy and Christian theology showing how ritual interactions form and challenge our very idea of God

The Dysfunction of Ritual in Early Confucianism Michael David Kaulana Ing, 2012-11-01 In The Dysfunction of Ritual in Early Confucianism Michael Ing describes how early Confucians coped with situations where their rituals failed to achieve their intended aims In contrast to most contemporary interpreters of Confucianism Ing demonstrates that early Confucian texts can be read as arguments for ambiguity in ritual failure If as discussed in one text Confucius builds a tomb for his parents unlike the tombs of antiquity and rains fall causing the tomb to collapse it is not immediately clear whether this failure was the result of random misfortune or the result of Confucius straying from the ritual script by building a tomb incongruent with those of antiquity The Liji Record of Ritual one of the most significant yet least studied texts of Confucianism poses many of these situations and suggests that the line between preventable and unpreventable failures of ritual is not always clear Ritual performance in this view is a performance of risk It entails rendering oneself vulnerable to the agency of others and resigning oneself to the need to vary from the successful rituals of past thereby moving into untested and uncertain territory Ing s book is the first monograph in English about the Liji a text that purports to be the writings of Confucius s immediate disciples and included in the earliest canon of Confucian texts called The Five Classics several centuries before the Analects It challenges some common assumptions of contemporary interpreters of Confucian ethics in particular the idea that a cultivated ritual agent is able to recognize which failures are within his sphere of control to prevent and thereby render his happiness invulnerable to ritual failure

Language in the Buddhist Tantra of Japan Richard K. Payne, 2018-08-09 Language in the Buddhist Tantra of Japan dismantles the preconception that Buddhism is a religion of mystical silence arguing that language is in fact central to the Buddhist tradition By examining the use of extraordinary language evocations calling on the power of the Buddha in Japanese Buddhist Tantra Richard K Payne shows that such language was not simply cultural baggage carried by Buddhist practitioners from South to East Asia Rather such language was a key element in the propagation of new forms of belief and practice In contrast to Western approaches to the philosophy of language which are grounded in viewing language as a form of communication this book argues that it is the Indian and East Asian philosophies of language that shed light on the use of language in meditative and ritual practices in Japan It also illuminates why language was conceived as an effective means of

progress on the path from delusion to awakening

Living Devotions Mary Clark Moschella, 2008-01-01 Living Devotions explores how a particular community has creatively negotiated its religious bonds of connection in the context of immigration These matters cannot be studied in the abstract Religious practice is not something separate from the economic cultural and psychological dimensions of life but rather something integral which shapes and is being shaped by all of these other realities The author examines these dynamics through an ethnographic case study of the living devotions of a group of Italian Catholic immigrants to San Pedro California The narrative describes how the group's historical experiences of immigration and fishing find expression in their particular forms of prayer art artifacts and food The healing and transformative power of these shared religious practices is explored As contemporary theologians pastors and congregations seek to welcome and care for immigrants and other strangers in a shifting social landscape we need ways to engage in care full and attentive relationships The ethnographic method employed here suggests a way to lift up the voices of ordinary people allowing them to tell their own stories while piecing together emerging bits of theological wisdom and compelling care practices While the particular insights of any community are situated and specific theological reflection in one context can animate a broader discussion of transformative pastoral theology and practice

Toward More Family-Centered Family Sciences Howard M. Bahr, Kathleen S. Bahr, 2009-03-16 Much academic writing on families reflects the ideal of non involvement and distanced subject matter Toward More Family Centered Family Sciences suggests that the family sciences in their effort to be scientific have perpetuated this distance between researcher and subject to the detriment of both The authors argue that family and kinship ties are transcendent ties boundary crossing in numerous ways They place an emphasis on family love in contrast and in addition to romantic love and criticize current approaches for neglecting the importance of transcendent concepts such as love commitment respect and sacrifice in the development and well being of family structures Drawing from insights both inside and outside of academia the authors seek to reincorporate transcendent concepts into the study of the family as a unit of society They argue for a more collaborative family centered family science and offer recommendations for how family researchers might work to change the scientific monologue about families to a systemic dialogue with families
