cause of unclear vision and other eye problems is Wearing Eyeglasses Mental Strain Mental Visual Effort to See Poor Vision Habits incorrect use of the eyes vision squinting staring not shifting lack of normal relaxed eye movements lack of central fixation poor memory and imagination Perfect Sight occurs with Perfect Relaxation deep or active dynamic relaxation Relaxation occurs first and then the eyesight becomes clear Practicing normal relaxed eye vision function induces relaxation of the mind eyes and perfect clarity Dr Bates experiments on the outer eye muscles proved that tension in these muscles mainly caused by eyeglasses strain in the mind incorrect vision habits disrupts their function the eyes movement accommodation convergence unaccommodation divergence causes pressure tension pulling on in the eye alters the eyes shape and lens retina disrupts refraction focus of light rays in the eye on the retina and the clarity of vision When the mind is strained tense the brain and retina do not communicate function together at optimum level Function of the retina is lowered Relaxing the mind returning normal eye movement relaxes the outer inner eye muscles returns the eyes lens retina to normal shape with clear vision Website <https://cleareyesight.com/batesmethod/info> <https://cleareyesight.com/batesmethod/info> naturalvisionimprovement.com/originalandmodernbatesmethod/default.htm **Ten Steps for Clear Eyesight Without Glasses** Clark Night, Ophthalmologist William H.
