The Samaritan's Dilemma Deborah Stone, 2008-07-01 A leading political scientist's response to a generation of political orthodoxy arguing for compassion as a political movement      United States Welfare Policy Thomas J. Massaro, 2007-05-02 The Welfare Reform Act of 1996 drastically changed the delivery of social services in the United States for the first time in sixty years More than a decade later according to Catholic social ethicist Thomas Massaro a disturbing gap exists between the laws we have enacted as a nation and the moral concerns we profess as a people Massaro contends that ethicists too often focus on strictly theoretical concerns rather than engaging concrete social and political issues while public policy experts are uncomfortable drawing ethical judgments about legislation United States Welfare Policy takes a fresh approach to the topic by using Catholic social teaching as a lens through which to view contemporary American welfare policies citing the tradition's emphasis on serving the needy including a preferential option for the poor and the common good Massaro maintains that the most important outcome of welfare policy is not the cost effectiveness of programs but the well being of individual families The concluding analysis of this thoughtful study applies Catholic ethical concerns to specific aspects of welfare reform including the funding mechanisms for the Temporary Assistance to Needy Families TANF program work participation requirements affecting the bond between mothers and children eligibility rules the intrusion of family caps into reproductive decisions and the imposition of disproportionate burdens upon particular demographic groups Massaro offers possible alternatives in each case and as the fight over reauthorization of the welfare act continues he calls on Catholic churches and clergy and laity to take action and advocate publicly for a more ethical approach to welfare reform

**Corporatism, Social Control, and Cultural Domination in Education** Joel H. Spring, 2012 Starting with the 1972 publication of his seminal work Education and the Rise of the Corporate State Joel Spring has been documenting and analyzing the politics of knowledge and education Throughout his work he has explored the attempts to use education to advance the economic and political interests of dominant groups The general term he uses for the relationship between schools and power is ideological management His scholarly work first looked at the influence on American schooling of business and economic doctrines embodied in human capital theories and consumerism The next step in his exploration of the politics of knowledge was to examine these issues in the context of globalization leading to a proposed educational rights

amendment to national constitutions and a new paradigm for education both of which might ensure that schools are protected from ideological management by economic and political elites Spring s indigenous background has strongly shaped his interest in the political and economic goals of schooling particularly the attempts of those in power to use schools to destroy indigenous languages and cultures In this collection Spring brings together 10 of his key writings providing an overview not just of his own career but the larger contexts in which it is situated In the Introduction he reviews the evolution and scope of his work and his earlier arguments and reflects on its central themes which are reflected in the writings selected for this volume In the World Library of Educationalists international scholars themselves compile career long collections of what they judge to be their finest pieces extracts from books key articles salient research findings major theoretical and practical contributions so the world can read them in a single manageable volume Readers will be able to follow the themes and strands of their work and see their contribution to the development of a field as well as the development of the field itself Contributors to the series include Michael Apple James A Banks Stephen J Ball Elliot Eisner Howard Gardner John Gilbert Ivor F Goodson Peter Jarvis

**Who Will Provide? The Changing Role Of Religion In American Social Welfare** Mary Jo Bane, 2021-11-28 Leading scholars examine how the church community organizations and the government must work together to provide for America s poor in the aftermath of welfare reform Who will provide for Americas children elderly and working families Not since the 1930s has our nation faced such fundamental choices over how to care for all its citizens Now amid economic prosperity Americans are asking what government business and non profit organizations can and can t do and what they should and shouldn t be asked to do As both political parties look to faith based organizations to meet material and spiritual needs the center of this historic debate is the changing role of religion These essays combine a fresh perspective and detailed analysis on these pressing issues They emerge from a three year Harvard Seminar sponsored by the Center for the Study of Values in Public Life that brought together scholars in public policy government religion sociology law education and non profit leadership By putting the present moment in broad historical perspective these essays offer rich insights into the resources of faith based organizations while cautioning against

viewing their expanded role as an alternative to the government's responsibility. Volume I, subtitled *Theoretical Perspectives*, focuses on the problems and prospects of applied sociology in an era of globalization. The essays emphasize the close association of applied sociology with altruism, identity formation, race, and ethnicity. The authors agree that the ultimate test of theory is the extent to which it can produce knowledge that works.

Woods Jr., 2013-01-09 This three-volume collection demonstrates the depth and breadth of evangelical Christians' consumption, critique, and creation of popular culture and how evangelical Christians are both influenced by and influence mainstream popular culture, covering comic books to movies to social media. *Evangelical Christians and Popular Culture: Pop Goes the Gospel* addresses the full spectrum of evangelical media and popular culture offerings, even delving into lesser-known forms of evangelical popular culture such as comic books, video games, and theme parks. The chapters in this 3-volume work are written by over 50 authors who specialize in fields as diverse as history, theology, music, psychology, journalism, film, and television studies, advertising, and public relations. ### **Darwinian Evolution and Classical Liberalism**

Stephen C. Dilley,2013-05-02 Darwinian Evolution and Classical Liberalism canvasses an array of thinkers from the past to the present as it examines fundamental political philosophical ethical economic anthropological and scientific aspects of the ferment between Darwinian biology and classical liberalism Early chapters focus on classical thinkers like John Locke and Adam Smith while later chapters provide analyses of present day classical liberals focusing especially on F A Hayek Thomas Sowell and Larry Arnhart the most prominent advocates of contemporary classical liberalism Thematically the volume falls into three parts Part I examines foundational matters arguing that Darwinism and classical liberalism hold incompatible visions of morality human nature and individual autonomy This section also contends that the free market s spontaneous order is fully compatible with a teleological or non Darwinian view of the universe Part II turns to contemporary applications contending that Darwinism and classical liberalism are at odds in their views of or implications about limited government vital religion economic freedom and the traditional family This section also argues that since its inception Darwinism has attenuated core tenets and values of classical liberalism and Western civilization Part III of the volume contains alternative views to those in the first two parts adding critical diversity to the book Respectively these chapters hold that Darwinian evolution simply has little to say about classical liberalism an evolutionary account of human volition is fully compatible with the individual choice presupposed in classical liberalism and evolutionary naturalism unlike religious alternatives provides a strong foundation for freedom morality and the traditional family

Unchecked and Unbalanced Arnold Kling,2009-11-16 In Unchecked and Unbalanced Arnold Kling provides a blueprint for those who are skeptical of political and financial elitism At the heart of Kling s argument is the growing discrepancy between two phenomena knowledge is becoming more diffuse while political power is becoming more concentrated Kling sees this knowledge power discrepancy at the heart of the financial crisis of 2008 Financial industry executives and regulatory officials lacked the ability to fathom the complexity of the system that had emerged And in response Treasury Secretary Henry Paulson and Federal Reserve Board Chairman Ben Bernanke said that they required still more power including 700 billion to purchase toxic assets from banks Kling warns that increased concentration of power is a problem not a panacea for our modern world and suggests reforms designed to curb the growth of government and allow citizens greater control over the allocation of public goods Published in cooperation with the Hoover Institution

The Mirage Shall Become a Pool Ondrej

Hron,2012-11-01 Few things are as important as our notions of justice and mercy Yet how are we to make sense of our moral treatment of the poor given all the political philosophical and theological voices While Christian Scripture is not silent on the matters of social justice and charity even here our variously conditioned presuppositions cause us significant interference Only a careful hermeneutical reset can move us beyond our personal and cultural situatedness This requires a thorough exploration of both interpretative strategies and pertinent scriptural witnesses So how would the New Testament witness have us treat the materially needy How do we act justly and love mercy in walking humbly with our God **The Religions Next Door** Marvin Olasky,2004-11-01 The Religions Next Door What We Need to Know About Judaism Hinduism Buddhism and Islam And What Reporters Are Missing will educate readers as to the truth about world religions that the media often misrepresent Our neighborhoods are full of religious diversity these days but the media would have us believe they all hold different variations of the same tenets But this isn't so and it is in those missed details that serious and grave misjustice is done to the American people by the misreporting of religion The Religions Next Door provides insight into the beliefs of four growing religions in America and challenges the media community to report religion as real news not as community relations fodder but as stories of human and theological interest *The Politics of Disaster* Marvin Olasky,2006-07-29 Why was the government not capable of responding to human need in the aftermath of Hurricane Katrina How will the Katrina failure impact the next presidential election And just what should we expect and not expect from the government in times of crisis Big government didn't work says veteran journalist and political analyst Marvin Olasky And it is clear that a new paradigm for responding to national crisis has emerged Private and faith based organizations have stepped in and politics will never be the same Yoga Morality Georg Feuerstein,2022-09-01 It is impossible to be a good yogi or yogini without also being a morally mature individual writes internationally known Yoga authority and author Georg Feuerstein Yoga Morality looks at our present world situation primarily from the viewpoint of a spiritually committed person especially a practitioner of Yoga It addresses the question How are we to live consciously responsibly authentically and without fear in the midst of mounting global crises This book is a hard hitting critique of the media hype surrounding Yoga and an exploration of Yogic philosophy and practice to discover what it really means to be a mature and moral person Topics Include Moral Law and Cosmic Law Interconnectedness and the Web of Life Universal Morality and Personal Virtues Truthfulness Compassion Generosity Death Freedom and Moral Spontaneity **Faith, Politics, and Power** Rebecca Sager,2010-01-15 This title explores how there is often more than meets the eye where politics and money are concerned Faith Based Initiatives are no exception The book looks at how despite the good intentions of some faith based policies did not create new significant programmes to help those in need *Religion, Welfare and Social Service Provision* Robert Wineburg,Jay Poole,2019-04-16 Religion Welfare and Social Service Provision Common Ground delves deeply into the partnerships forged between religious communities government agencies and nonprofits to deliver social services to the needy These pages offer a considered examination of

how local faith entities have served those in their midst and how the provision of those services has been impacted by evolving social policies This foundational volume brings together the work of more than two dozen leading researchers each providing long overdue scholarly inquiry into religiously affiliated helping and the many possibilities that it holds for effective cooperation      *Culturally Incorrect* Rod Parsley, 2009-04-08 Parsley exposes the failure of the current generation of believers to engage the culture present a relevant gospel and lead influence through service and paints a vivid picture of the cost and implications of that failure Parsley explains how the culture wars have entered a new critical phase for the United States and discusses the areas in which this war is being fought Cultural Scientific Geopolitical Media and Academia He presents an understanding of the paradigms assumptions and values that animate the humanist secularist and neo pagan enemies of Christianity in America and offers a strategy for winning this war what he calls a New Great Awakening and how evangelism social action and the engagement of culture fit into that plan
