America and the Postwar World: Remaking International Society, 1945-1956 David Mayers, 2018-03-13 The main tide of international relations scholarship on the first years after World War II sweeps toward Cold War accounts These have emphasized the United States and USSR in a context of geopolitical rivalry with concomitant attention upon the bristling security state Historians have also extensively analyzed the creation of an economic order Bretton Woods mainly designed by Americans and tailored to their interests but resisted by peoples residing outside of North America Western Europe and Japan This scholarship centered on the Cold War as vortex and a reconfigured world economy is rife with contending schools of interpretation and bolstered by troves of declassified archival documents will support investigations and writing into the future By contrast this book examines a past that ran concurrent with the Cold War and interacted with it but which usefully can also be read as separable Washington in the first years after World War II and in response to that conflagration sought to redesign international society That society was then and remains an admittedly amorphous thing Yet it has always had a tangible aspect drawing self regarding states into occasional cooperation mediated by treaties laws norms diplomatic customs and transnational institutions The U S led attempt during the first postwar years to salvage international society focused on the United Nations Relief and Rehabilitation Administration the Acheson-Lilienthal plan to contain the atomic arms race the Nuremberg and Tokyo tribunals to force Axis leaders to account the 1948 Genocide Convention the 1948 Universal Declaration of Human Rights and the founding of the United Nations None of these initiatives was transformative not individually or collectively Yet they had an ameliorative effect traces of which have touched the twenty first century in

Jewish Internationalism and Human Rights after the Holocaust Nathan A. Kurz, 2020-11-26 Nathan A Kurz charts the fraught relationship between Jewish internationalism and international rights protection in the second half of the twentieth century For nearly a century Jewish lawyers and advocacy groups in Western Europe and the United States had pioneered forms of international rights protection tying the defense of Jews to norms and rules that aspired to curb the worst behavior of rapacious nation states In the wake of the Holocaust and the creation of the State of Israel however Jewish activists discovered they could no longer promote the same norms laws and innovations without fear they could soon apply to the Jewish state Using previously unexamined sources Nathan Kurz examines the transformation of Jewish internationalism from an effort to constrain the power of nation states to one focused on cementing Israel's legitimacy and its status as a haven for refugees from across the Jewish diaspora
