Reproducing Order A Study Of Police Patrol Work:

Reproducing Order Richard V. Ericson, University of Toronto. Centre of Criminology, 1982-01-01 Professor Ericson and his colleagues followed the work of patrol officers in a large Canadian regional police force From their direct observations comes a wealth of information quantitatively assembled and qualitatively discussed with insights into the nature of policing This book reveals that the police are not mere referees of our legal lives blowing the whistle on our infractions They are censors of certain types of possibly wrong actions They are selective in their invocation of criminal law and use the law artfully to restore settings to orderliness Ericson emphasizes the routine manner in which the patrol officer intervenes and gains compliance from the citizenry He demonstrates that when the criminal process is invoked the police maintain fundamental control over the court outcome Using these findings he addresses basic questions about the role of police in relation to crime and how it is produced literally by the patrol officer Crime is also seen as the primary basis of police legitimacy which in turn enables the police to engage in broad surveillance and information gathering The author's conclusions about the nature of policing and his discussion of the implications of proposals for reform of police will generate better informed deliberation in political and public decision making and in the general study of sociological theory *The Persistent Prison?* Maeve Winifred McMahon, 1992-01-01 The Prison system is widely believed to be an immutable element of contemporary society Many criminologists and sociologists of deviance believe that decarceration movements have failed to yield progressive reform and that feasible alternatives to the prison system do not exist Maeve McMahon challenges these views Reconstructing the emergence of critical perspectives on decarceration she examines analytical and empirical problems in the research She also points out how indicators of community programs and other penalties serving as alternatives to prison have typically been overshadowed through critical focus on their effects in widening the net of control McMahon presents a detailed analysis of decreasing imprisonment and of the part played by alternatives in this during the postwar period in Ontario Drawing from extensive documentary research and from interviews with former correctional officials she charts the changing climates of opinions and socio economic factors which facilitated decarceration By situating her analysis in the context of theoretical and political arguments about the possibility of decarceration McMahon provides in her work a stimulus to the development of progressive penal politics not just in Canada but in all western countries

Interpreting Policework Roger Grimshaw, Tony Jefferson, 2023-03-31 In the 1980s there existed wide and often acrimonious disagreement over the purposes and objectives of police organizations the ways in which their activities were structured and their relations with the wider society Interpreting policework requires a rounded conception of policing based on both a thorough critique of the main theoretical trends in police sociology and close familiarity with actual patterns of policing on the streets in the stations and inside the police headquarters where key policies are formulated Originally published in 1987 the achievement of this book is that it combines rigorous theoretical analysis with a wealth of descriptive

material drawn from first hand observation of policing and decision making at all levels and thus relates sociological theory to practice and political debate at the time The introduction provides a careful analysis of central theoretical and political strands in police sociology and proposes a new general conception of policework The authors go on to provide vivid illustrations of this conception from the worlds of uniformed unit beat patrols and resident beat officers and from the fora in which policy for operational practice is considered A final section draws the wider lessons of these concrete analyses for sociological theory and for our understanding of past policy shifts from one form of beatwork to another and spells out the radical implications of the study for the political debate on the future of policing Interpreting Policework thus had relevance to students and researchers in police studies sociology public policy and the law at the time and will still be of historical interest today The authors are experienced researchers practised in investigating a wide range of criminological and social control issues

The Future of Policing Jennifer Brown, 2013-10-08 The police service in England and Wales is facing major challenges in its financing political oversight and reorganisation of its structures Current economic conditions have created a wholly new environment whereby cost saving is permitting hitherto unthinkable changes in the style and means of delivery of policing services In the context of these proposed changes Lord Stevens formerly Commissioner of the Metropolitan Police Service was asked to chair an Independent Commission looking into the future of policing The Commission has a wide ranging remit and the papers in this book offer up to date analysis of contemporary problems from the novel perspective of developing a reform agenda to assist the Commission Bringing together contributions from both key academic thinkers and police professionals this book discusses new policing paradigms lays out a case for an evidence based practice approach and draws attention to developing areas such as terrorism public order and hate crime Policing is too important to be left to politicians as the health of a democracy may be judged by the relationship between the police and the public The aim of this book is to question and present analyses of problems offer new ideas and propose realistically achievable solutions without being so timid as to preserve the status quo It will be of interest to both academics and students in the fields of criminology and policing studies as well as professionals in the policing service NGOs and local authority organisations

A Sociology of Crime Stephen Hester, Peter Eglin, 2017-05-15 A Sociology of Crime has an outstanding reputation for its distinctive and systematic contribution to the criminological literature Through detailed examples and analysis it shows how crime is a product of processes of criminalisation constituted through the interactional and organizational use of language In this welcome second edition the book reviews and evaluates the current state of criminological theory from this grammatical perspective It maintains and develops its critical and subversive stance but greatly widens its theoretical range including dedicated chapters on gender race class and the post als including postcolonialism It now also provides questions exercises and further readings alongside its detailed analysis of a set of international examples both classical and contemporary

Indigenous Homelessness Evelyn Peters, Julia

Christensen,2016-10-28 Being homeless in one's homeland is a colonial legacy for many Indigenous people in settler societies. The construction of Commonwealth nation states from colonial settler societies depended on the dispossession of Indigenous peoples from their lands. The legacy of that dispossession and related attempts at assimilation that disrupted Indigenous practices, languages, and cultures, including patterns of housing and land use, can be seen today in the disproportionate number of Indigenous people affected by homelessness in both rural and urban settings. Essays in this collection explore the meaning and scope of Indigenous homelessness in Canada, Australia, and New Zealand. They argue that effective policy and support programs aimed at relieving Indigenous homelessness must be rooted in Indigenous conceptions of home, land, and kinship and cannot ignore the context of systemic inequality, institutionalization, landlessness, among other things, that stem from a history of colonialism. *Indigenous Homelessness: Perspectives from Canada, New Zealand, and Australia* provides a comprehensive exploration of the Indigenous experience of homelessness. It testifies to ongoing cultural resilience and lays the groundwork for practices and policies designed to better address the conditions that lead to homelessness among Indigenous peoples.

Disarm, Defund, Dismantle Shiri Pasternak, Kevin Walby, Abby Stadnyk, 2022 Canadian laws are just the police uphold the rule of law and treat everyone equally and without the police communities would descend into chaos and disorder. These entrenched myths rooted in settler colonial logic work to obscure a hard truth: the police do not keep us safe. This edited collection brings together writing from a range of activists and scholars whose words are rooted in experience and solidarity with those putting their lives on the line to fight for police abolition in Canada. Together they imagine a different world: one in which police power is eroded and dissolved forever; one in which it is possible to respond to distress and harm with assistance and care. *Criminal Justice* George S. Bridges, Joseph G. Weis, Robert D.

Crutchfield,1996-02-22 This is a solid representation of criminological articles that are important to the discipline. The important material from each article has been retained yet an undergraduate won't be overwhelmed. The articles are germane and flow together; a certain consistency in thought is presented to the student as opposed to interesting but often semi-related articles. This book is accessible and in several areas very enjoyable reading. A. L. Marsteller, Drury College. Also by the Editors: *Crime Vol 1* and *Juvenile Delinquency Vol 2*. Why are these edited collections THE anthologies to use for teaching Criminal Justice, Criminology, or Juvenile Delinquency? All volumes present the field accurately and completely to students and in a way that is understandable to undergraduates and therefore teachable. All include rich collections of classic and contemporary articles, all of which have been carefully edited so that students can master the material. All volumes contain essays written by the Editors which provide the coherence and structure to the collections that undergraduate students need. Questions for Discussion and Writing and well-prepared indexes help to make these anthologies even more teachable. All are edited by scholars who have the credentials and the undergraduate teaching experience to make this three-volume set a particularly rich resource.

Democratic Policing in a Changing World Peter K. Manning, 2015-11-17 Democratic policing today is a widely used approach to policing not only in Western societies but increasingly around the world Yet it is rarely defined and it is little understood by the public and even by many of its practitioners Peter K Manning draws on political philosophy sociology and criminal justice to develop a widely applicable fundamental conception of democratic policing In the process he delineates today's relationship between democracy and policing Democratic Policing in a Changing World documents the failure of police reform showing that each new approach such as crime mapping and hot spots policing fails to alter any fundamental practice and has in fact increased social inequalities He offers a new and better approach for scholars policy makers police governments and societies

Policing Soviet Society Louise Shelley, 2005-08-02 The first book to look in depth at the Soviet militia A crucial aid to understanding the authoritarianism of the communist

system and its legacy for Russia and the successor states Community Policing Dominique Wisler,Ihekwoaba D. Onwudiwe,2009-06-10 Community oriented policing COP is the ideology and policy model espoused in the mission statements of nearly all policing forces throughout the world However the COP philosophy is interpreted differently by different countries and police forces resulting in practices that may in fact run far afield of the community based themes of partnership **Alternative dispute resolution** Jeremy McBride,Claude Samson,1993 *Introducing Criminology* Clive Coleman,Clive Norris,2013-06-17 This book answers the basic questions what is crime what is criminology before examining the ways in which crime has been studied and looking at the main approaches and schools of thought within criminology and how these have been developed *Ethnography and the Evocative World of Policing* Matthew Bacon,Bethan Loftus,Mike Rowe,2023-12-04 This book demonstrates the unique contribution police ethnographies make to our understanding of policing cultures and practices in a variety of international settings It features contemporary examples of police ethnographies that demonstrate the continuing value of ethnographic work to our understanding of policing The first section of the book focuses on the police and Anglo American policing The second section is international in scope and seeks to enrich our understandings of policing beyond the police Chapters explore police interactions during a stop and search and at a carnival They peer behind the scenes at the control room and at the use of intelligence We listen in to the experiences of new recruits and the stories told in canteens They also take us into the world of private security agencies to Kenya and to Vietnam The book explores the position of ethnographers asking whether we do too much with rather than on the police and whether our work reveals more about us as academics than them as officers Together they are revealing of a changing policing landscape Ethnography and the Evocative World of Policing demonstrates the unique value of ethnographic work in the fields of policing studies and criminology It will be a key resource for scholars and researchers of policing criminology sociology law and research methods The chapters in this book were originally published in two special issues of Policing and Society **Eyes Everywhere** Aaron Doyle,Randy Lippert,David Lyon,2013-03-01 In many countries camera surveillance has become commonplace and ordinary citizens and consumers are increasingly aware that they are under surveillance in everyday life Camera surveillance is typically perceived as the archetype of contemporary surveillance technologies and processes While there is sometimes fierce debate about their introduction many others take the cameras for granted or even applaud their deployment Yet what the presence of surveillance cameras actually achieves is still very much in question International evidence shows that they have very little effect in deterring crime and in making people feel safer but they do serve to place certain groups under greater official scrutiny and to extend the reach of today s surveillance society Eyes Everywhere provides the first international perspective on the development of camera surveillance It scrutinizes the quiet but massive expansion of camera surveillance around the world in recent years focusing especially on Canada the UK and the USA but also including less debated but important contexts such as Brazil China Japan Mexico South Africa and Turkey

Containing both broad overviews and illuminating case studies including cameras in taxi cabs and at mega events such as the Olympics the book offers a valuable oversight on the status of camera surveillance in the second decade of the twenty first century The book will be fascinating reading for students and scholars of camera surveillance as well as policy makers and practitioners from the police chambers of commerce private security firms and privacy and data protection agencies
