Discussing the future of research in public administration (PA) is more than just listing topics for research which are inspired by possible future challenges for the public sector. Even if national contexts determine a strong path dependency for research agendas, there are four major trends which affect the future of PA research: Europeanisation, reform agendas, globalisation issues, and marketisation of research. A crucial element in the debate is to know what the specific European voice is and should be in PA research. For this purpose it is necessary to explicitly organise research in PA.

### INTRODUCTION

Research in the field of public administration is subject to a range of influences and dynamics, with a past, a present, and a future. Looking at the main influences and dynamics, it is important to see how the future of researching public administration could look like, and perhaps should look like. The difference between “should” and “could” depends on these influences and dynamics, e.g. our debates and academic agenda setting, but also resources in money and people, hazard (such as a sudden crisis of governance of the banking sector), or perhaps on serendipity (like the use of cultural theory from anthropologists).

It is useful to focus on some aspects of this future, also from the point of view of how to shape the research in public administration in the next decades. This is a

Introduction to Research in Public Administration and Related Academic Disciplines Petrus Brynard, S. X. Hanekom, 1997

This up to date practical book provides the researcher in Public Administration and Management with fundamental guidelines for research. It deals with the problems pertaining to the writing and successful completion of research reports, dissertations and theses.

Information-Finding and the Research Process Antony E. Simpson, 1993-12-07

This guide to information finding sources and techniques is attuned to the needs of researchers in all the social and behavioral sciences with a particular focus on public administration and related fields. This guide is unique in its analyses of how to design the research process in an evolving manner using approaches that reflect combinations of models, methods and data sources. This guide is also comprehensive in its coverage of a broad spectrum of the important primary and secondary source materials in all their current forms. Students and researchers in the policy sciences especially at the graduate level will find this research and reference guide an essential one. Simpson's broadly conceived guide covers sources and methods of approach to doing social science research. The book opens with an analysis of information finding and public administration as a special and disparate series of fields for study. Subsequent chapters discuss research strategies and designs and offer annotative bibliographies evaluating the usefulness of primary and secondary sources, examining guides to the literature, the conventional library catalog, journal literature indexing and abstracting services, computer searches, separately published bibliographies, public statistics, machine readable data files, government documents, sources of methodology and research instruments, other sources of information, archives and other primary sources and annual reviews. This topical and logically developed set of chapters makes the guide easy to use and a general subject index makes this reference most accessible.

**Taking Language Seriously** Jay D. White, 1999

Challenging scholars in public administration to be cognizant of the philosophical underpinnings of their field, White, public administration U of Nebraska Omaha, argues that the logic of applied research in this discipline resembles storytelling more than traditional social science. With a nod to postmodernism, actually an entire chapter his case for this narrative theory of knowledge is built by showing how inquiry into complex problems is grounded in language discourse and rationality and how the logical structure of explanatory, interpretive and critical

research are equally legitimate depending on the nature of the question.

**Research Methods and Statistics for Public and Nonprofit Administrators** Masami Nishishiba, Matthew Jones, Mariah Kraner, 2013-09-17

The approach is well executed. The problems encountered by the characters represent real life issues that administrators are faced with and the applications needed to address them.

Lee W. Payne, Stephen F. Austin State University

**Research Methods and Statistics for Public and Nonprofit Administrators: A Practical Guide** is a comprehensive, easy to read, core text that thoroughly prepares readers to apply research methods and data analysis to the professional environments of public and non-profit administration. The authors expertly incorporate original case examples to demonstrate concepts using real actors facing specific scenarios.

in which research methods must be applied This unique approach presented in language accessible to both students new to research as well as current practitioners guides the reader in fully understanding the research options detailed throughout the text     **Check List of Current Research in Public Administration ...** ,1948
