Research Methods for Business Uma Sekaran,Roger Bougie,2010-02-02 *Research Methods for Business* A Skill Building Approach 5th Edition is a concise and straightforward introduction for students to the world of business research

The skill building approach provides students with practical perspectives on how research can be applied in real business situations. Maintaining Uma Sekaran's popular and accessible style of writing, Roger Bougie draws upon his extensive experience of the field to present an up to date guide on business research for the aspiring future manager. The fifth edition has a new chapter on qualitative data analysis featuring a case study of the research process. The chapters on scientific investigation, the broad problem area and defining the problem statement, measurement of variables, experimental designs, sampling and quantitative data analysis have all been substantially revised. Additional real life cases have been included and examples are taken from Europe, Asia and the US to give students a comprehensive view of modern business research methods.

Territorial Landscapes: Solutions for Sustainable Energy and Food Security Mourad Amer, Mohamed El Kaftangui, Ibrahim El-Sayed Maarouf, Nauman Khalid, Sharul Sham Bin Dol, 2025-07-09. This book introduces a model for the built environment designed to incorporate sustainability at every level. It emphasizes the integration of environmental, social and economic factors to create resilient urban spaces. Also, it presents a decision support system that optimizes energy management for sustainability, enabling real time adjustments and reducing carbon footprints. It discusses innovative strategies for managing water and wastewater in swampland areas, offering insights from UIN Raden Fatah Palembang's adaptation efforts. Also, this book provides a thorough review of bio-based business models, examining their agility and adaptability in fostering sustainable innovations that respond to market and environmental changes. Moreover, the book explores a novel approach to renewable energy; this chapter assesses the feasibility of using vortex bladeless wind turbines for energy generation at airport runways, offering both conceptual and economic analyses. In addition, it discusses the creation and role of multi-actor forums in promoting a sustainable blue economy in the Black Sea region, emphasizing collaborative efforts to preserve marine resources. This book investigates the use of halophyte biochar as a sustainable soil amendment for sandy soils, demonstrating its potential to improve soil quality and promote sustainable agriculture. Also, the book aims to assess the sustainability of food-energy-water systems at the household level, advocating for integrated solutions that enhance resource efficiency and sustainability. This book delves into societal perceptions of climate change adaptation using interaction analysis to better understand public attitudes and their implications for policy and communication strategies. This book presents a case study from Istanbul, offering insights into how local identity can strengthen community resilience and sustainability efforts. Finally, the book provides a comprehensive guide to understanding and implementing sustainable practices across various sectors, from energy management and water resources to food systems and environmental education. It emphasizes the importance of interdisciplinary approaches and innovation agility in addressing global sustainability challenges.
