Student Mobility Bista, Krishna, 2015-12-09 As one of the fastest growing trends in higher education study abroad programs are having a critical impact on the educational landscape While international study programs generate more revenue and promote campus diversity there are several challenges that must be considered when integrating non native students into native universities Global Perspectives and Local Challenges Surrounding International Student Mobility explores

comparative research regarding the implementation of effective strategies needed when working with native and non native individuals in educational settings Offering perspectives from international student experiences as well as views on current mobility trends immigration policies and challenges with cultural expectations this publication will be a critical source for educators policymakers and university staff who interact with international students *Research Methods for International Human Rights Law* Damian Gonzalez-Salzberg,Loveday Hodson,2019-06-13 The study and teaching of international human rights law is dominated by the doctrinal method A wealth of alternative approaches exists but they tend to be discussed in isolation from one another This collection focuses on cross theoretical discussion that brings together an array of different analytical methods and theoretical lenses that can be used for conducting research within the field As such it provides a coherent accessible and diverse account of key theories and methods A distinctive feature of this collection is that it adopts a grounded approach to international human rights law through demonstrating the application of specific research methods to individual case studies By applying the approach under discussion to a concrete case it is possible to better appreciate the multiple understandings of international human rights law that are missed when the field is only comprehended through the doctrinal method Furthermore since every contribution follows the same uniform structure this allows for fruitful comparison between different approaches to the study of our discipline Routledge Research Companion to Landscape Architecture Ellen Braae,Henriette Steiner,2018-11-09 The Routledge Research Companion to Landscape Architecture considers landscape architecture s increasingly important cultural aesthetic and ecological role The volume reflects topical concerns in theoretical historical philosophical and practice related research in landscape architecture research that reflects our relationship with what has traditionally been called nature It does so at a time when questions about the use of global resources and understanding the links between human and non human worlds are more crucial than ever The twenty five chapters of this edited collection bring together significant positions in current landscape architecture research under five broad themes History Sites and Heritage City and Nature Ethics and Sustainability Knowledge and Practice supplemented with a discussion of landscape architecture education Prominent as well as up and coming contributors from landscape architecture and adjacent fields including Tom Avermaete Peter Carl Gareth Doherty Ottmar Ette Matthew Gandy Christophe Girot Anne Whiston Spirn Ian H Thompson and Jane Wolff seek to widen fuel and frame critical discussion in this growing area A significant contribution to landscape architecture research this book will be beneficial not only to students and academics in landscape architecture but also to scholars in related fields such as history architecture and social studies

Philosophy and Theory in Educational Research Amanda Fulford,Naomi Hodgson,2016-06-10 Philosophy and Theory in Educational Research Writing in the margin explores the practices of reading and writing in educational philosophy and theory Showing that there is no right way to approach research in educational philosophy but illustrating its possibilities this text invites an engagement with philosophy as a possibility and opening possibilities for educational research Drawing on

their own research and theoretical and philosophical sources the authors investigate the important issue of what it means to read and write when there is no prescribed structure Innovative in its contribution to the literature this edited volume enlightens readers in three ways The volume focuses on the practices of reading and writing that are central to research in educational philosophy suggesting that these practices constitute the research rather than simply reporting it It is not a prescriptive guide and should not be read procedurally Rather it is intended to illustrate the possibilities for this kind of research and to suggest starting points for those pursuing research projects Finally attention is given to the ways in which conducting educational philosophy can be educative in itself both to the researcher in writing it and to its audience in reading it With contributions from international scholars in the field of educational philosophy this book is a valuable guide for practitioner researchers taught postgraduate and doctoral students and early career researchers in university education departments Academic staff teaching research methods and seeking to introduce their students to philosophy as research without wishing to offer a prescriptive how to guide will also find this book of particular interest *The Routledge International Handbook of Existential Human Science* Huon Wardle,Nigel Rapport,Albert Piette,2023-08-01 This volume is the first handbook to explore existentialism as epistemology and method Transdisciplinary in scope it considers the nature of human subjectivity and how human experience ought to be studied examining the connections that exist between the individual s imagining of the world and their everyday practice within it With attention to the question of whether humans are ultimately alone in their self knowledge or whether what they know of themselves is constructed in common with others it enables the reader to recognize core questions that frame the methods and orientation of an existential inquiry In addition to historical exposition it offers a variety of chapters from around the world that explore the diverse global spaces for and different types of existential focus and discussion thus questioning the view that the existential problem may be singularly a matter for the post enlightenment West The fullest and most comprehensive survey to date of what human beings can and should make of themselves The Routledge International Handbook of Existential Human Science will appeal to scholars across the humanities and social sciences with interests in anthropology sociology philosophy and research methods
