Rich, 2021-03-06 The proliferation of pipelines to transport oil and natural gas represents a major area of contestation in the landscape of energy development Battles over energy pipelines pit private landowners local community representatives and environmentalists against energy corporations and industry supporters sometimes drawing opposition and attention from well beyond the impacted regions as in the case of the Standing Rock Dakota Access Pipeline Stakeholders must navigate complex government regulatory processes interpret technical and scientific reports and endure lengthy and expensive court battles As with other forms of environmental injustice the contentious construction of pipelines often disproportionately impacts communities of lower economic development people of color and indigenous peoples pipelines also pose potential short and long term health and safety threats With the expansion of energy pipelines carrying fracked oil and gas across the United States and abroad the moment is ripe for teaching about pipeline projects and engaging students and community members in learning about methods for mobilization Our volume examines pedagogical opportunities challenges and interventions that campus community engagement and other kinds of community engagement

produce in relation to infrastructuring in the form of pipeline development *From an Ethic of Sufficiency to its Policy and Practice in Late Capitalism* Manu V. Mathai, Sylvia Lorek, Wolfgang Sachs, 2023-12-13 That the notion of sufficiency is essential for a good life is an idea that enjoys support across many ethical philosophical religious and cultural persuasions This notion reasserted itself in the study of sustainability once modern society reluctantly took cognizance of the limited low entropy energy and matter available for human appropriation There is today therefore a general recognition of i e not necessarily wide agreement on the merits of or needs for notions of sufficiency as a species of environmentalism within secular communities In this context a critical question that invites our attention is how to effect sufficiency and in particular of dealing with the daunting challenge of injustice as well as questions of distribution within and between countries that it brings to attention Given sufficiency's original home as it were in tradition the modern world has tended to dismiss it or to plead to individual voluntary simplicity when faced with evidence asserting its necessity Sufficiency is also often written away as a spiritual problem The domain of ascetics and the religious How to habilitate sufficiency in a political economy for the secular modern facing its biggest existential challenge yet in the form of the environmental crisis **An Integrated**
