Obdurate Brilliance Exteriority And The Modern Long Poem:

Obdurate Brilliance Peter Baker, 1991 Working from a broad knowledge of modern poetry Baker proposes an original interpretation of the long poem based on the notion of exteriority Readers of the 20th century long poem must discard the traditional idea of a lyric speaker or Romantic I he argues Modern and postmodern poetry turns outward toward the experience of others and deliberately de emphasizes an inner or personal life *Mysticism in Postmodernist Long Poems* Joe Moffett, 2014-10-28 Written from a literary critic s perspective *Mysticism in Postmodernist Long Poems* borrows insights from Religious Studies and critical theory to examine the role of spirituality in contemporary poetry specifically the genre of the long poem Descending from Whitman s *Song of Myself* the long poem is often considered the American twentieth century equivalent of the epic poem but unlike the epic it carries few generic expectations aside from the fact that it simply must be long This makes the form particularly pliable as a tool for spiritual inquiry The period following World War II is often described as a secular age but spirituality continued as a concern for poets as evidenced by this study These writers look beyond conventional faith systems and instead seek individual paths of understanding they engage in mysticism in other words With chapters on H D and Brenda Hillman Robert Duncan James Merrill Charles Wright and Galway Kinnell and Gary Snyder this study demonstrates how these poets engage the culture of consumption in the postwar years at the same time they search for opportunities for transcendence Not content to throw over the earthly in favor of the otherworldly these poets reject the familiar binary of the worldly and metaphysical to produce distinctive paths of spiritual understanding that fuel what Wright calls a contemplation of the divine *Rethinking the North American Long Poem* Ridvan Askin, Julius Greve, 2024-12-15 For centuries critics poets poet scholars and philosophers have either openly proclaimed or tacitly assumed the long poem as the highest expression of literary ambition and excellence *Rethinking the North American Long Poem* focuses on the North American variant of this notorious form notorious because of its often forbidding and difficult character particularly with respect to the dialectics of content and form aesthetics and politics matter and genre In nine essays and a contextual introduction the editors and contributors scrutinize seminal long poems by North American writers including Walt Whitman s *Song of Myself* Ezra Pound s *The Cantos* Muriel Rukeyser s *The Book of the Dead* and Charles Olson s *The Maximus Poems* They also explore recent efforts that have redefined or reopened the case of the long poem including Rachel Blau DuPlessis s *Drafts* M NourbeSe Philip s *Zong* and Claudia Rankine s *Citizen* Taking the categories of form matter and experiment as frames of conceptual reference the book examines the ways in which material and immaterial aspects of literary practice and the philosophically and politically inscribed duality of experience and experiment are negotiated in and by North American long poems from the nineteenth century to the present *Genders, Races, and Religious Cultures in Modern American Poetry, 1908-1934* Rachel Blau DuPlessis, 2001-01-11 In *Genders Races and Religious Cultures in Modern American Poetries* Rachel Blau Duplessis shows how through poetic language modernist writers

represented the debates and ideologies concerning New Woman New Negro and New Jew in the early twentieth century From the poetic text emerge such social issues of modernity as debates on suffrage sexuality manhood and African American and Jewish subjectivities By a reading method she calls social philology a form of close reading inflected with the approaches of cultural studies Duplessis engages with the work of such canonical poets as Wallace Stevens Ezra Pound T S Eliot William Carlos Williams Gertrude Stein Marianne Moore and H D as well as Mina Loy Countee Cullen Alfred Kreyenborg and Langston Hughes writers she claims still marginalized by existing constructions of modernism This book is an ambitious attempt to remap our understanding of modern poetries and poetics and the relationship between early twentieth century writing and society The Subject of Desire Deborah Lesko Baker,1996 The French Renaissance poet Louise Labe is one of the most striking and influential women writers of early modern Europe In her broad ranging volume of prose and poetic works 1555 Labe transforms the position of woman in Renaissance discourse from an object to a subject of erotic and artistic desire and privileges the notion of desire itself as a central issue for literary and psychic exploration Deborah Lesko Baker presents the dramatic creation and evolution of female subjectivity in Labe as a passionate quest for internal selfhood made possible through both authentic self expression and interaction with others In so doing she analyzes how the development of the female subject coincides with an ongoing interrogation of the inherited models of the Petrarchan lyric tradition

Woznicki,2013-12-24 *The New American Poetry Fifty Years Later* is a collection of critical essays on Donald Allen s 1960 seminal anthology *The New American Poetry* an anthology that Marjorie Perloff once called the fountainhead of radical American poetics *The New American Poetry* is referred to in every literary history of post World War II American poetry Allen s anthology has reached its fiftieth anniversary providing a unique time for reflection and reevaluation of this preeminent collection As we know Allen s anthology was groundbreaking it was the first to distribute widely the poetry and theoretical positions of poets such as Charles Olson Allen Ginsberg and the Beats and it was the first to categorize these poets by the schools Black Mountain New York School San Francisco Renaissance and the Beats by which

they are known today Over the course of fifty years this categorization of poets into schools has become one of the major if not only way that The New American Poetry is remembered or valued one certain goal of this volume as one reviewer invites is to pry The New American Poetry out from the hoary platitudes that have encrusted it To this point critics mostly have examined The New American Poetry as an anthology former treatments of The New American Poetry look at it intently as a whole Though the almost singularly focused study of its construction and less often reception has lent a great deal of documented highly visible and debated material in which to consider we have been left with certain notions about its relevance that have become imbued ultimately in the collective critical consciousness of postmodernity This volume however goes beyond the analysis of construction and reception and achieves something distinctive extending those former treatments by treading on the paths they create This volume aims to discover another sense of radical that Perloff articulated rather than a radical that departs markedly from the usual we invite consideration of The New American Poetry that is radical in the sense of root of harboring something fundamental something inherent as we uncover and trace further elements correlated with its widespread influence over the last fifty years

Canons and Wisdoms Albert Cook, 2016-11-11 In *Canons and Wisdoms* Albert Cook addresses what is arguable the most profound question about poetry and literature What is its human value Cook claims that the value lies in the special yield of wisdom rich full and not available in other forms of human discourse This somewhat traditional position is reinforced by the related arguments of such philosophers as Adorno and Heidegger and by other works in Renaissance poetry and modern poetry and fiction where the sense of the work becomes clearer when it is seen in the light of such a question Cook addresses what can be claimed for poetry and literature after all due allowance has been made for the relativity of canons the subjectivity of the literary experience and the subtle and comprehensive effects of received expectations Such questions have dominated recent discussions about the value of literature The nature of all human utterance argues for its being aimed at social inclusion formalized as a canon even though such a notion must remain ideal *Canons and Wisdoms* is an eloquent and original contribution to the ongoing debate about the canon It is the work of an experienced erudite and individualistic scholar working at the intersection of philosophy and literary theory and criticism
