R E M Companion:

Cool Town Grace Elizabeth Hale, 2020-02-13 In the summer of 1978 the B 52 s conquered the New York underground A year later the band s self titled debut album burst onto the Billboard charts capturing the imagination of fans and music critics worldwide The fact that the group had formed in the sleepy southern college town of Athens Georgia only increased the fascination Soon more Athens bands followed the B 52 s into the vanguard of the new American music that would come to be known as alternative including R E M who catapulted over the course of the 1980s to the top of the musical mainstream As acts like the B 52 s R E M and Pylon drew the eyes of New York tastemakers southward they discovered in Athens an unexpected mecca of music experimental art DIY spirit and progressive politics a creative underground as vibrant as any to be found in the country s major cities In Athens in the eighties if you were young and willing to live without much money anything seemed possible *Cool Town* reveals the passion vitality and enduring significance of a bohemian scene that became a model for others to follow Grace Elizabeth Hale experienced the Athens scene as a student small business owner and band member Blending personal recollection with a historian s eye she reconstructs the networks of bands artists and friends that drew on the things at hand to make a new art of the possible transforming American culture along the way In a story full of music and brimming with hope Hale shows how an unlikely cast of characters in an unlikely place made a surprising and beautiful new world

Begin the Begin Robert Dean Lurie, 2019-05-14 Robert Dean Lurie s biography is the first completely researched and written since R E M disbanded in 2011 It offers by far the most detailed account of their formative years the early lives of the band members their first encounters with one another their legendary debut show touring out of the back of a van initial recordings their shrewdly paced rise to fame The people and places of the South are

crucial to the R E M story in ways much more complex and interesting than have been presented thus far says Lurie who explores the myriad ways in which the band s adopted hometown of Athens Georgia and the South in general have shaped its members and the character and style of their art The South is more than the background to this story it plays a major role the creative ferment that erupted in Athens and gripped many of its young inhabitants in the late 70s and early 80s drew on regional traditions of outsider art and general cultural out there ness and gave rise to a free spirited music scene that produced the B 52 s and Pylon and laid the ground for R E M s subsequent breakout success Lurie has tracked down and interviewed numerous figures in the band s history who were under represented in or even absent from earlier biographies and they contribute previously undocumented stories as well as casting a fresh light on the familiar narrative *The Encyclopedia of Popular Music* Colin Larkin,2011-05-27 This text presents a comprehensive and up to date reference work on popular music from the early 20th century to the present day **Spirit Guides from the Future** David Wegert,2014-02-21 The book is a telepathic communication between myself and Dar a evolved human from 23 million years in the future as well as several other guides spiritual and otherwise from various future time periods Although most of the contact is through Dar several of his companions from various timelines from a few centuries to over 1000 million years in the future have made some observations about various time periods The book covers technology spirit guides singularities timelines evolution time travel parallel worlds future cities and other realities It also covers altered states of consciousness the 2012 event space travel time lines advanced data storage power generation future history and my notes There is discussion in time and the nature of reality as well as technological development and where it is leading us into the future It is about possibilities and I do not mean it to be either a positive or negative statement but an observation of what is I hope the book will encourage some people to objectively seek out alternative possibilities The Poetics of American Song Lyrics Charlotte Pence,2012-01-02 The Poetics of American Song Lyrics is the first collection of academic essays that regards songs as literature and that identifies intersections between the literary histories of poems and songs The essays by well known poets and scholars including Pulitzer Prize winner Claudia Emerson Peter Guralnick Adam Bradley David Kirby Kevin Young and many others locate points of synthesis and separation so as to better understand both genres and their crafts The essayists share a desire to write on lyrics in a way that moves beyond sociological historical and autobiographical approaches and explicates songs in relation to poetics Unique to this volume the essays focus not on a single genre but on folk rap hip hop country rock indie soul and blues The first section of the book provides a variety of perspectives on the poetic history and techniques within songs and poems and the second section focuses on a few prominent American songwriters such as Bob Dylan Bruce Springsteen and Michael Stipe Through conversational yet in depth analyses of songs the essays discuss sonnet forms dramatic monologues Modernism ballads blues poems confessionalism Language poetry Keatsian odes unreliable narrators personas poetic sequences rhythm rhyme transcription methods the writing process and more While the strategies

of explication differ from essay to essay the nexus of each piece is an unveiling of the poetic history and poetic techniques within songs
