Troubling Freedom Natasha Lightfoot, 2015-11-19 In 1834 Antigua became the only British colony in the Caribbean to move directly from slavery to full emancipation Immediate freedom however did not live up to its promise as it did not guarantee any level of stability or autonomy and the implementation of new forms of coercion and control made it in many

ways indistinguishable from slavery In *Troubling Freedom* Natasha Lightfoot tells the story of how Antigua's newly freed black working people struggled to realize freedom in their everyday lives prior to and in the decades following emancipation She presents freedpeople's efforts to form an efficient workforce acquire property secure housing worship and build independent communities in response to elite prescriptions for acceptable behavior and oppression Despite its continued efforts Antigua's black population failed to convince whites that its members were worthy of full economic and political inclusion By highlighting the diverse ways freedpeople defined and created freedom through quotidian acts of survival and occasional uprisings Lightfoot complicates conceptions of freedom and the general narrative that landlessness was the primary constraint for newly emancipated slaves in the Caribbean *The Black Church Studies Reader* Alton B. Pollard, Carol B. Duncan, 2016-04-29 The *Black Church Studies Reader* addresses the depth and breadth of Black theological studies from Biblical studies and ethics to homiletics and pastoral care The book examines salient themes of social and religious significance such as gender sexuality race social class health care and public policy While the volume centers around African American experiences and studies it also attends to broader African continental and Diasporan religious contexts The contributors reflect an interdisciplinary blend of Black Church Studies scholars and practitioners from across the country The text seeks to address the following fundamental questions What constitutes Black Church Studies as a discipline or field of study What is the significance of Black Church Studies for theological education What is the relationship between Black Church Studies and the broader academic study of Black religions What is the relationship between Black Church Studies and local congregations as well as other faith based entities The book's search for the answers to these questions is compelling and illuminating *Performing Afro-Cuba* Kristina Wirtz, 2014-06-05 Visitors to Cuba will notice that Afro Cuban figures and references are everywhere in popular music and folklore shows paintings and dolls of Santería saints in airport shops and even restaurants with plantation themes In *Performing Afro Cuba* Kristina Wirtz examines how the animation of Cuba's colonial past and African heritage through such figures and performances not only reflects but also shapes the Cuban experience of Blackness She also investigates how this process operates at different spatial and temporal scales from the immediate present to the imagined past from the barrio to the socialist state Wirtz analyzes a variety of performances and the ways they construct Cuban racial and historical imaginations She offers a sophisticated view of performance as enacting diverse revolutionary ideals religious notions and racial identity politics and she outlines how these concepts play out in the ongoing institutionalization of folklore as an official even state sponsored category Employing Bakhtin's concept of chronotopes the semiotic construction of space time she examines the roles of voice temporality embodiment imagery and memory in the racializing process The result is a deftly balanced study that marries racial studies performance studies anthropology and semiotics to explore the nature of race as a cultural sign one that is always in process always shifting *Gender, Race and Religion* Martin Bulmer, John Solomos, 2014-01-02 *Gender Race and Religion* brings

together a selection of original papers published in Ethnic and Racial Studies that address the intersections between gender relations race and religion in our contemporary environment Chapters address both theoretical and empirical aspects of this phenomenon and although written from the perspective of quite different national social and political situations they are linked by a common concern to analyze the interface between gender and other situated social relationships from both a conceptual and a policy angle These are issues that have been the subject of intense scholarly research and analysis in recent years as well as forming part of public debates about the significance of gender race and religion as sites of identity formation and mobilization in our changing global environment The substantive chapters bring together insights from both theoretical reflection and empirical research in order to investigate particular facets of these questions Gender Race and Religion addresses issues that are at the heart of contemporary scholarly debates in the field of race and ethnic studies and engages with important questions in policy and public debates This book was originally published as a special issue of Ethnic and Racial Studies
