Race Evolution And Mankind:

Race Evolution & Mankind Lehrman, 1966-01-21 *Race and Human Evolution* Milford H. Wolpoff, Rachel Caspari, 1997 *Race and Human Evolution* shows how the debate over the Eve theory reflects a long history of theories about human origins and race that has been fraught with social and political implications *Races of Mankind* Marianne Kinkel, 2011 In 1930 Chicago's Field Museum of Natural History commissioned sculptor Malvina Hoffman to produce three dimensional models of racial types for an anthropology display called the Races of Mankind In this exceptional study Marianne Kinkel measures the colossal impact of the ninety one bronze and stone sculptures on perceptions of race in twentieth century visual culture tracing their exhibition from their 1933 debut and nearly four decades at the Field Museum to numerous reuses repackagings reproductions and publications that reached across the world Front flap of book jacket

The Primitive Races of Mankind Max Schmidt, 1926 *Race, Evolution, and Mankind* Robert L. Lehrman, 1966 **The Concept of Race in Natural and Social Science** E. Nathaniel Gates, 2014-05-01 Explores the concept of race The term race which originally denoted genealogical or class identity has in the comparatively brief span of 300 years taken on an entirely new meaning In the wake of the Enlightenment it came to be applied to social groups This ideological transformation coupled with a dogmatic insistence that the groups so designated were natural and not socially created gave birth to the modern notion of races as genetically distinct entities The results of this view were the encoding of race and racial hierarchies in law literature and culture How racial categories facilitate social control The articles in the series demonstrate that the classification of humans according to selected physical characteristics was an arbitrary decision that was not based on valid scientific method They also examine the impact of colonialism on the propagation of the concept and note that racial

categorization is a powerful social force that is often used to promote the interests of dominant social groups Finally the collection surveys how laws based on race have been enacted around the world to deny power to minority groups A multidisciplinary resource This collection of outstanding articles brings multiple perspectives to bear on race theory and draws on a wider range of periodicals than even the largest library usually holds Even if all the articles were available on campus chances are that a student would have to track them down in several libraries and microfilm collections Providing of course that no journals were reserved for graduate students out for binding or simply missing This convenient set saves students substantial time and effort by making available all the key articles in one reliable source Authoritative commentary The series editor has put together a balanced selection of the most significant works accompanied by expert commentary A general introduction gives important background information and outlines fundamental issues current scholarship and scholarly controversies Introductions to individual volumes put the articles in context and draw attention to germinal ideas and major shifts in the field After reading the material even a beginning student will have an excellent grasp of the basics of the subject
