Racial Discrimination in Canada: Asian Minorities Kananur V. Chandras, 1973 *Racism and Anti-Racism in Canada* David Este, 2020-07-10T00:00:00Z Multiculturalism is regarded as a key feature of Canada's national identity Yet despite an increasingly diverse population racialized Canadians are systematically excluded from full participation in society through personal and structural forms of racism and discrimination *Race and Anti Racism in Canada* provides readers with a critical examination of how racism permeates Canadian society and articulates the complex ways to bring about equity and inclusion both individual and systemically *Racial Discrimination in Canada* Kananur V. services This book is an attempt to understand the what and how of that unfolding process and also to know the real concerns about the conditions of Canada's ethnic minority population South Asian Canadians and their children in particular

A Reckoning with Racism Augie Fleras, 2022-11-07 The politics of racism have returned with a bang What was once a whisper is now a roar in the wake of public outrage over charges of police racism that claimed the lives of racialized minorities and Indigenous peoples Yet confusion and uncertainty unsettle the challenge of clarifying the nature and scope of racism in general systemic racism in particular resulting in a glaring disconnect between public perceptions and lived experiences *Reckoning with Racism* is themed around the prospect of problematizing the idea of racism as articulated understood and debated in response to new realities emergent demands and contested dynamics A profoundly new racism world is evolving one so fundamentally different from the iterations of the past as to trigger a foundational shift in reconceptualizing how we see think and talk about and act on racism Changing the conversation on racism must also acknowledge its uncanny knack of reinventing itself while intersecting with other axes of identity and differentiation to amplify the inequalities of exclusion

Mediated Racism and Democracy in Canada Ahmed Al-Rawi, 2025-09-22 Based on studying political systems and the news industry this book examines the tension between the hierarchical configurations of racial discrimination and the ideals of equality found in Western democracy to explore how and why the reality of racism persists in modern day democratic societies Taking Canada as a case study of a multicultural society it uses a mixed methods approach to present insights from racialized politicians and journalists that explore how they navigate the issues of democracy and racism Drawing on empirical critical race theory it addresses crucial knowledge gaps about the political realities of people of color in a democratic nation and how they perceive these experiences to impact the functioning and progress of democracy It will therefore appeal to scholars and researchers with interests in race and racism multiculturalism democracy and critical race theory

The Edge of Race Kalervo N. Gulson, Zeus Leonardo, David Gillborn, 2017-10-02 The phrase the edge of race can be used both as a description and as a response to two key concerns The first of these is that while race is increasingly on the periphery of education policy with a growing disregard shown for racist inequities as education systems become dominated by market driven concerns it is important that we map the shifting relations of race in neoliberal politics and policies The second concern is that at this time within and outside the spaces of the academy even to mention race equity is to risk condemnation marginalization and ridicule The authors in this collection use the edge of race as a provocation in order to examine the concepts methodologies policies politics processes and practices associated with race and racism in education The chapters offer empirical examples of the perpetuation and perniciousness of racism that point to the continued salience of research about race Additionally the chapters make contributions to conceptual and methodological understandings of race and racism The contributors illustrate the contingency productivity and fragility of race as a concept and point to how educational research continues to be a contested site in and from which to study race and

education This book was originally published as a special issue of Discourse Studies in the Cultural Politics of Education
