Racializing Class Classifying Race:

Racializing Class, Classifying Race P. Alexander, R. Halpern, 1999-12-14 The ten essays in this book explore the intersection of race and class in the study of labour on three continents Leading scholars examine the way in which working class identities took shape and changed over time in a variety of settings from the sea ports of southern Africa to the copper mining region of the American Southwest **Classifying race, racializing class** Fran Ansley, 1997 **Racializing Class, Classifying Race** Peter Alexander (Dr), Rick Halpern, 1999 The ten essays in this book explore the intersection of race and class in the study of labour on three continents Leading scholars examine the way in which working class identities took shape and changed over time in a variety of settings from the sea ports of southern Africa to the copper mining region of the American Southwest **Racialization** Karim Murji, John Solomos, 2005 Racialization has become one of the central concepts in the study of race and racism It is widely used in both theoretical and empirical studies of racial situations There has been a proliferation of texts that use this notion in quite diverse ways It is used broadly to refer to ways of thinking about race as well as to institutional processes that give expression to forms of ethno racial categorization An important issue in the work of writers such as Robert Miles for example concerns the ways in which the construction of race is shaped historically and how the usage of that idea forms a basis for exclusionary practices The concept therefore refers both to cultural or political processes or situations where race is invoked as an explanation as well as to specific ideological practices in which race is deployed It is evident however that despite the increasing popularity of the concept of racialization there has been relatively little critical analysis exploring its theoretical and empirical usages It is with this underlying concern in mind that *Racialization Studies in Theory and Practice* brings together leading international scholars in the field of race and ethnicity in order to explore both the utility of the concept and its limitations Workers of the Empire, Unite Yann Béliard, Neville Kirk, 2021-03-01 In most studies of British decolonisation the world of labour is neglected the key roles being allocated to metropolitan statesmen and native elites Instead this volume focuses on the role played by working people their experiences initiatives and organisations in the dissolution of the British Empire both in the metropole and in the colonies How central was the intervention of the metropolitan Left in the liquidation of the British Empire Were labour mobilisations in the colonies only stepping stones for bourgeois nationalists To what extent were British labour activists willing and able to form connections with colonial workers and vice versa Here are some of the complex questions on which this volume sheds new light Though convergences were fragile and temporary this book recapture the sense of uncertainty that accompanied the final decades of the British Empire a period when radical minorities hoped that coordinated efforts across borders might lead not only to the destruction of the British Empire but to that of capitalism and imperialism in general Exploiting rare primary sources and adopting a resolutely transnational approach our collection makes an original contribution to both labour history and imperial studies Forged in Genocide William Blakemore Lyon, 2024-07-22 *Forged in Genocide* traces the early history

of colonial capitalism in Namibia with a central focus on migrants who came to be key to the economy during and as a result of the German genocide of the Herero and Nama 1904 1908 It posits that Namibia far from being a colonial backwater of the early 20th century became highly integrated into the labor flows and economies of West and Southern Africa and even for a time was one of the most sought after regions for African migrants because of relatively high wages and numerous opportunities resulting from the war's demographic devastation paired with an economic frenzy following the discovery of diamonds In highlighting the life stories of migrants in Namibia from regions as diverse as the Kru coast of Liberia the Eastern Cape of South Africa and the Ovambo polities of Northern Namibia this work integrates micro history into larger African continental trends Building off of written sources from migrants themselves and utilising the Namibian Worker Database constructed for this project this book explores the lives of workers in early colonial Namibia in a way that has hereto not been attempted Irish, Catholic and Scouse John Belchem, 2007 Liverpool in the nineteenth and early twentieth centuries was the mirror of Ellis Island it acted as the great cultural melting pot and processing point of migration from Europe to the United States Here for the first time acclaimed historian John Belchem offers an extensive and groundbreaking social history of the elements of the Irish diaspora that stayed in Liverpool enriching the city's cultural mix rather than continuing on their journey Covering the tumultuous period from the Act of Union to the supposed final settlement between Britain and Ireland this richly illustrated volume will be required reading for anyone interested in the Irish diaspora

Slavery's Ghost Richard Follett, Eric Foner, Walter Johnson, 2011-11-01 Three thoughtful contributions attempt to deepen and extend an emerging discussion about the limits to African American freedom and autonomy Slavery Abolition President Abraham Lincoln freed millions of slaves in the South in 1863 rescuing them as history tells us from a brutal and inhuman existence and making the promise of freedom and equal rights This is a moment to celebrate and honor to be sure but what of the darker more troubling side of this story Slavery's Ghost explores the dire debilitating sometimes crushing effects of slavery on race relations in American history In three conceptually wide ranging and provocative essays the authors assess the meaning of freedom for enslaved and free Americans in the decades before and after the Civil War They ask important and challenging questions How did slaves and freedpeople respond to the promise and reality of emancipation How committed were white southerners to the principle of racial subjugation And in what ways can we best interpret the actions of enslaved and free Americans during slavery and Reconstruction Collectively these essays offer fresh approaches to questions of local political power the determinants of individual choices and the discourse that shaped and defined the history of black freedom Written by three prominent historians of the period Slavery's Ghost forces readers to think critically about the way we study the past the depth of racial prejudice and how African Americans won and lost their freedom in nineteenth century America Racial Union Julie Lavonne Novkov, 2009-09-11 In November 2001 the state of Alabama opened a referendum on its long standing constitutional prohibition against interracial marriage A bill on the state ballot

offered the opportunity to relegate the state's antimiscegenation law to the dustbin of history. The measure passed but the margin was alarmingly slim: more than half a million voters, 40 percent of those who went to the polls, voted to retain a racist and constitutionally untenable law. Julie Novkov's *Racial Union* explains how and why nearly forty years after the height of the civil rights movement Alabama struggled to repeal its prohibition against interracial marriage, the last state in the Union to do so. Novkov's compelling history of Alabama's battle over miscegenation shows how the fight shaped the meanings of race and state over ninety years. Novkov's work tells us much about the sometimes parallel, sometimes convergent evolution of our concepts of race and state in the nation as a whole. A remarkably nuanced account of interlocked struggles over race, gender, class, and state power, Novkov's site is Alabama but her insights are for all America. Rogers M. Smith, Christopher H. Browne, Distinguished Professor of Political Science, University of Pennsylvania. Hannah Arendt shocked Americans in the 1950s by suggesting that interracial intimacy was the true measure of a society's racial order. Julie Novkov's careful, illuminating, powerful book confirms Arendt's judgment. By ruling on who may be sexually linked with whom, Alabama's courts and legislators created a racial order and even a broad political order. Novkov shows us just how it worked in all of its painful, humiliating power. Jennifer L. Hochschild, Henry LaBarre Jayne Professor of Government, Professor of African and African American Studies, and Harvard College Professor. *George Padmore and Decolonization from Below* L. James, 2014-10-14. This book argues that the rising tide of anti-colonialism after the 1930s should be considered a turning point, not just in harnessing a new mood or feeling of unity but primarily as one that viewed empire, racism, and economic degradation as part of a system that fundamentally required the application of strategy to their destruction.
