Retirement In The West:

Managing the Ageing Workforce in the East and the West Matt Flynn, Anthony Chiva, Yuxin Li, 2017-11-21 This book brings together Eastern and Western perspectives to explore human resource interventions into extending working life including phased retirement healthy work environments and lifelong learning It assesses issues of implementation in differing cultural intergenerational institutional and family contexts

The Retirement Process United States. Public Health Service, 1966

New Geographies of the American West William Riebsame Travis, 2007-05-11 Reconciling explosive growth with often majestic landscape defines New Geographies of the American West Geographer William Travis examines contemporary land use changes and development patterns from the Mississippi to the Pacific and assesses the ecological and social outcomes of Western development Unlike previous boom periods dependent on oil or gold the modern population explosion in the West reflects a sustained passion for living in this specific landscape But the encroaching exurbs ranchettes and ski resorts are slicing away at the very environment that Westerners cherish Efforts to manage growth in the West are usually stymied at the state and local levels Is it possible to improve development patterns within the West's traditional anti planning pro growth milieu or is a new model needed Can the region develop sustainably protecting and managing its defining wildness while benefiting from it too Travis takes up the challenge suggesting that functional and attractive settlement can be embedded in preserved lands working landscapes and healthy ecologies

Employment Policy in Transition Regina T. Riphahn, Dennis J. Snower, Klaus F. Zimmermann, 2012-12-06 A historically unique experiment is about to enter its second decade German unification Early hopes for a rapid and smooth economic transformation soon turned out to be overly optimistic Despite massive financial transfers the political promise of a blooming landscape remains a vision Actual developments have left deep scars on the labor market and the effects will be felt for decades to come Was this outcome to be expected perhaps even inevitable What went wrong and what were the available options Or is the current state of Eastern German labor market in fact better than is commonly assumed
