Security In The Caribbean Basin The Challenge Of Regional Cooperation:

Crime, Violence and Security in the Caribbean M. Raymond Izarali, 2017-11-20 Security challenges pose significant hardship for citizens of Caribbean nations Public safety is threatened by high rates of crime especially violent crime in much of the region the plague of the illicit drug trade transnational organized crime gangs the current global proliferation of crimes of terrorism and related violent extremism and radicalization The situation diminishes morale among the youth their education and their future and operates as a major push factor Yet surprisingly there has been a scarcity of scholarly work that addresses these conditions This interdisciplinary volume succinctly responds to the gap in criminological and security studies on the Caribbean by drawing attention to the understudied nexus of crime violence and security that is so pervasive in the region and the ways in which underdevelopment re creates environments for insecurity The book is organized in three parts Part one encompasses conceptualizations of crime violence and punishment Part two takes up country cases on crime and security Part three addresses issues of regional security both public and private This timely volume will be valuable reading for scholars students practitioners and policy makers who share a critical interest in the scope impact and inter relationality of crime violence and in security in the region

The DISAM Journal of International Security Assistance Management, 2003 Caribbean Security in the Age of Terror Ivelaw L. Griffith, 2004 The security issues which have come into prominence since the September 11 terrorist attack in the USA provide both the starting point and the focus for this comprehensive survey of contemporary security issues in the Caribbean This volume assesses the impact of the 9 11 terrorist attack on Caribbean states and examines the institutional and operational terrorism response capacity of security agencies in the region However understanding security challenge and change in the Caribbean context requires a broad based multidimensional approach terrorism for the small open and vulnerable nation states of the Caribbean region is a real security issue but even more so is a range of untraditional threats like crime drug trafficking territorial disputes environmental degradation and the rapid spread of the HIV AIDS epidemic How these states adapt policies and practices to adjust to the new regional and global circumstances represent the challenge and the change

Routledge Handbook of South-South Relations Elena Fiddian-Qasmiyeh, Patricia Daley, 2018-12-18 South South cooperation is becoming ever more important to states policy makers and academics Many Northern states international agencies and NGOs are promoting South South partnerships as a means of sharing the burden in funding and undertaking development assistance and protection activities often in response to increased political and financial pressures on their own aid budgets However the mainstreaming of Southern led initiatives by UN agencies and Northern states is paradoxical in many ways especially because the development of a South South cooperation paradigm was originally conceptualised as a necessary way to overcome the exploitative nature of North South relations in the era of decolonisation This handbook critically explores diverse ways of defining the South and of conceptualising and engaging with South South relations Through 30 state of the art reviews of key academic and policy debates the handbook evaluates past present and future opportunities and challenges of South South cooperation and lays out research agendas for the next 5 10 years The book covers key models of cooperation including internationalism Pan Arabism and Pan Africanism diverse modes of South South connection exchange and support including South South aid transnational activism and migration and responses to displacement violence and conflict including Southern led humanitarianism peace building and conflict resolution In so doing the handbook reflects on decolonial postcolonial and anticolonial theories and methodologies exploring urgent questions regarding the nature and implications of conducting research in and about the global South and of applying a Southern lens to a wide range of encounters processes and dynamics across the global South and global North alike This handbook will be of great interest to scholars and post graduate students in anthropology area studies cultural studies development studies history geography international relations politics postcolonial studies and sociology
