Michael O'Malley, Anna Uhl Chamot, 1990-02-23 A review of the literature on learning strategies describing and classifying learning strategies in second language learning Second Language Task Complexity Peter Robinson, 2011-09-13 Understanding how task complexity affects second language learning interaction and spoken and written performance is essential to informed decisions about task design and sequencing in TBLT programs The chapters in this volume all examine evidence for claims of the Cognition Hypothesis that complex tasks should promote greater accuracy and complexity of speech and writing as well as more interaction and learning of information provided in the input to task performance than simpler tasks Implications are drawn concerning the basic pedagogic claim of the Cognition Hypothesis that tasks should be sequenced for learners from simple to complex during syllabus design Containing theoretical discussion of the Cognition Hypothesis and cutting edge empirical studies of the effects of task complexity on second language learning and performance this book will be important reading for language teachers graduate students and researchers in applied

linguistics second language acquisition and cognitive and educational psychology **The Age Factor in Second Language Acquisition** David Michael Singleton, Zsolt Lengyel, 1995-01-01 This book takes a hard look at some of the assumptions that are customarily made concerning the role of age in second language acquisition The evidence and arguments the contributors present run counter to the notion that an early start in second language learning is of itself either absolutely sufficient or necessary for the attainment of native like mastery of a second language Another theme of the book is a doubt that there is a particular stage of maturity beyond which language learning is no longer fully possible In short the book presents a challenge to those who take it as given that second language learning is inevitably different in its essential nature from language acquisition in the childhood years and that second language knowledge acquired beyond the critical period is in all circumstances and in all respects doomed to fossilize at a non native like level Learning a Second Language through Interaction Rod Ellis, 1999-12-15 This book examines different theoretical perspectives on the role that interaction plays in second language acquisition The principal perspectives are those afforded by the Interaction Hypothesis Socio Cultural Theory and the Levels of Processing model Interaction is therefore defined broadly it is seen as involving both intermental and intramental activity The theoretical perspectives are explored empirically in a series of studies which investigate the relationship between aspects of interaction and second language acquisition A number of these studies consider the effects of interaction on the acquisition of vocabulary word meanings by both adult and child L2 learners In addition the effects of language aptitude on input processing are considered Further studies consider the contribution that interaction makes to the acquisition of grammatical knowledge These studies provide clear evidence that social and intermental interaction are major forces in the acquisition of an L2 Finally the book considers a number of pedagogic specifications In particular the importance of discourse control as a means of learners obtaining the quality of interaction likely to foster acquisition is discussed *Tasks in Second Language Learning* Virginia Samuda, Martin Bygate, 2007-11-27 *Tasks in Second Language Learning* aims to re centre discussion of the ways in which language learning tasks can help offer a holistic approach to language learning and to explore the research implications It relates the broad educational and social science rationale for the use of tasks to the principles and practices of their classroom use The authors provide a balanced review of research as a basis for exploring a broader research agenda Throughout the book offers telling illustration of the contributions of a range of specialists in research teaching methodology and materials development and of the authors own argument **The Study of Second Language Acquisition** Rod Ellis, 1994 This thorough introduction to second language research provides a comprehensive review of the research into learner language internal and external factors in language acquisition individual differences and classroom second language learning **Second Language Acquisition** Susan M. Gass, Larry Selinker, 2001 This book is a thorough revision of the highly successful text first published in 1994 The authors retain the multidisciplinary approach that presents research from linguistics sociology psychology and education in a format

designed for use in an introductory course for undergraduate or graduate students The research is updated throughout and there are new sections and chapters in this second edition as well New chapters cover child language acquisition first and second Universal Grammar and instructed language learning new sections address issues such as what data analysis doesn't show replication of research findings interlanguage transfer multilingual acquisition and transfer the aspect hypothesis general nativism connectionist approaches and implicit explicit knowledge Major updates include nonlanguage influences and the lexicon The workbook *Second Language Learning Data Analysis Second Edition* makes an ideal accompaniment to the text

Peer Interaction and Second Language Learning Jenefer Philp, Rebecca Adams, Noriko Iwashita, 2013-11-07 *Peer Interaction and Second Language Learning* synthesizes the existing body of research on the role of peer interaction in second language learning in one comprehensive volume In spite of the many hours that language learners spend interacting with peers in the classroom there is a tendency to evaluate the usefulness of this time by comparison to whole class interaction with the teacher Yet teachers are teachers and peers are peers as partners in interaction they are likely to offer very different kinds of learning opportunities This book encourages researchers and instructors alike to take a new look at the potential of peer interaction to foster second language development Acknowledging the context of peer interaction as highly dynamic and complex the book considers the strengths and limitations of peer work from a range of theoretical perspectives In doing so *Peer Interaction and Second Language Learning* clarifies features of effective peer interaction for second language learning across a range of educational contexts age spans proficiency levels and classroom tasks and settings

Second Language Acquisition: The Basics Gregory D. Keating, 2015-09-16 Starting from the premise that language instruction should be informed by how humans learn language this module on second language acquisition SLA aims to provide teachers at any level with a comprehensive and up to date introduction to the key findings about how second languages are learned in adulthood This module explores a variety of topics including the mechanisms in the mind responsible for language acquisition the roles that input and output play in acquisition and how language develops in the learner's mind over time Furthermore the module explores the many factors believed to impact the outcome of SLA such as the role of the native language individual differences in aptitude and motivation and age of acquisition Please visit the series companion website for more information <http://routledgetextbooks.com/textbooks/9781315679594>

Peer Interaction and

Second Language Learning Masatoshi Sato (Psycholinguist), Susan Gail Ballinger, 2016 This volume represents the first collection of empirical studies focusing on peer interaction for L2 learning These studies aim to unveil the impact of mediating variables such as task type mode of interaction and social relationships on learners interactional behaviors and language development in this unique and pedagogically powerful learning context To examine these issues contributors employed quantitative qualitative and mixed methods designs as well as cognitive social and sociocognitive theoretical frameworks The majority of the studies are classroom based and were conducted in a rich array of settings covering five continents and encompassing a wide range of learner L1s and target languages These settings include second and foreign language classrooms from primary to university level content based programs online contexts and after school programs To span the divide between research and practice each study includes a section suggesting pedagogical implications

Strategies in Learning and Using a Second Language Andrew D. Cohen, 2014-06-11 *Strategies in Learning and Using a Second Language* examines what it takes to achieve long term success in languages beyond the first language Distinguishing language learning from language use strategies Andrew D Cohen disentangles a morass of terminology to help the reader see what language strategies are and how they can enhance performance Particular areas of research examined in the book include links between the use of task specific strategies and language performance how multilinguals verbalise their thoughts during language learning and use strategies that learners use in test taking contexts In this fully revised and substantially rewritten second edition every chapter has been reworked with material either updated or replaced Entirely new material has also been developed based on examples of specific strategies supplied by actual learners mostly drawn from a website featuring these strategies in the learning of Spanish grammar *Strategies in Learning and Using a Second Language* will be an invaluable resource for language teachers and researchers as well as for administrators of second language programmes and for students of applied linguistics
