*The Foxite Whigs and Visual Culture, 1780-1810* Callum D. Smith, 2025-08-22 This book offers a comprehensive exploration of the intricate relationship between radicalism and sociability in late Georgian parliamentary and extra parliamentary politics focusing on the Foxite Whig faction Re evaluating the significance and tactical use of sociability and radicalism in late eighteenth and early nineteenth century British politics the book charts not only the rise and fall of a leading and neglected British political faction but through its interdisciplinary and thematic focus it seeks to intervene in the field and situate sociability as a key driver and facilitator of late Georgian politics By utilising original research into contemporary newspapers letters diaries legal records parliamentary accounts and especially political caricature the author offers a new methodological approach in the study of sociability and radicalism and presents original categorisations of contemporary sociability The book examines how sociability was strategically employed by the Foxite Whigs and argues for the existence of two primary forms of sociability insular and porous Insular sociability manifested itself through dining drinking to excess or gambling in a private setting with members

of the same aristocratic or political order Porous sociability however was the extra parliamentary mechanism by which Fox and his faction tactically opened their insular Whig World to forge connections with the lower orders French revolutionary leaders popular radicals and Irish rebels The author provides a detailed analysis of Foxite sociability within the context of distinct radical themes including plebeian radicalism French Revolutionary radicalism and Irish radicalism Beyond its innovative methodological approach to sociability studies the book foregrounds visual culture as a lens through which to study and enter the wordless experience of the eighteenth century and to view the themes of sociability and radicalism from within In doing so the it reveals the inconsequential or informal dynamics of the Foxites political and extra parliamentary career from their origin in c 1780 to their decline in the early nineteenth century *Collecting and Displaying China's "Summer Palace" in the West* Louise Tythacott,2017-10-25 In October 1860 at the culmination of the Second Opium War British and French troops looted and destroyed one of the most important palace complexes in imperial China the Yuanmingyuan Known in the West as the Summer Palace this site consisted of thousands of buildings housing a vast art collection It is estimated that over a million objects may have been taken from the palaces in the Yuanmingyuan and many of these are now scattered around the world in private collections and public museums With contributions from leading specialists this is the first book to focus on the collecting and display of Summer Palace material over the past 150 years in museums in Britain and France It examines the way museums placed their own cultural political and aesthetic concerns upon Yuanmingyuan material and how displays especially those at the Royal Engineers Museum in Kent the National Museum of Scotland and the Mus e Chinois at the Ch teau of Fontainebleau tell us more about European representations and images of China than they do about the Yuanmingyuan itself *A Million Pictures* Sarah Dellmann, Frank Kessler,2020-08-18 Slides for the magic or optical lantern were a major tool for knowledge transfer in the second half of the 19th and early 20th centuries Schools universities the church and many public and private institutions all over the world relied on the lantern for illustrated lectures and demonstrations This volume brings together scholarly research on the educational uses of the optical lantern in different disciplines by international specialists representing the state of the art of magic lantern research today In addition it contains a lab section with contributions by archivists and curators and performers reflecting on ways to preserve present and re use this immensely rich cultural heritage today Authors of this collection of essays will include Richard Crangle Sarah Dellmann Ine van Dooren Claire Dupr La Tour Jenny Durrant Francisco Javier Frutos Esteban Anna Katharina Graskamp Emily Hayes Erkki Huhtamo Martyn Jolly Joe Kember Frank Kessler Machiko Kusahara Sabine Lenk Vanessa Otero Carmen Lopez San Segundo Ariadna Lorenzo Sunyer Daniel Pitarch Jordi Pons Montse Puigdeval Ang lique Quillay Angel Quintana Morraja Nadezhda Stanulevich Jennifer Tucker Kurt Vanhoutte M rcia Vilarigues Joseph Wachelder Artemis Willis Lee Wing Ki Irene Suk Mei Wong and Nele Wynants *The Media, Animal Conservation and Environmental Education* John Blewitt,2013-10-31 Natural History filmmaking has a long history but the generic boundaries between it and

environmental and conservation filmmaking are blurred Nature environment and animal imagery has been a mainstay of television campaigning organisations and conservation bodies from Greenpeace to the Sierra Club with vibrant images being used effectively on posters leaflets and postcards and in coffee table books media releases short films and viral emails to educate and inform the general public However critics suggest that wildlife film and photography frequently convey a false image of the state of the world s flora and fauna The environmental educator David Orr once remarked that all education is environmental education and it is possible to see all image based communication in the same way The Media Animal Conservation and Environmental Education has contributions from filmmakers photographers researchers and academics from across the globe It explores the various ways in which film television and video are and can be used by conservationists and educators to encourage both a greater awareness of environmental and conservation issues and practical action designed to help endangered species This book is based on a special issue of the journal Environmental Education Research

**On Arrows** Laurent Stalder, 2025-01-21 A series of original essays on the history of British postwar architecture through the concept of performance and the ubiquitous but elusive image of the arrow In the 1950s the figure of the arrow had a strange kind of ubiquity in architectural drawings publications and advertisements symbolizing everything from the circulation of cold and warm air in a kitchen fridge to the flow of traffic in assorted New Towns Twenty five years earlier there were barely any arrows within architectural publications and 15 years later they had all but disappeared In *On Arrows* Laurent Stalder looks back at the near past to trace the idea of performance in architecture by following this pervasive yet relatively unnoticed figure within the history of British architecture During its short intense period of use the arrow pointed beyond any one singular author typology or scale to the operative dimension of architecture and its environments working both as an appropriate representational technique and a concrete tool for design Stalder uses

the arrow to move through the different dimensions of performance mapping out the changing set of constellations that made up postwar British architecture and its environments the constructive aspects structural properties infrastructural innovations spatial challenges as well as their aesthetic and practical consequences It is the arrow he writes that brings together debates from within different disciplines from building physics to sociology structural design and historiography inscribed as they are in the materials spaces and buildings that are all too often considered in isolation from one another

"Addiction and British Visual Culture, 1751-1919" Julia Skelly, 2017-07-05 Highly innovative and long overdue this study analyzes the visual culture of addiction produced in Britain during the long nineteenth century The book examines well known images such as William Hogarth's Gin Lane 1751 as well as lesser known artworks including Alfred Priest's painting Cocaine 1919 in order to demonstrate how visual culture was both informed by and contributed to discourses of addiction in the period between 1751 and 1919 Through her analysis of more than 30 images Julia Skelly deconstructs beliefs and stereotypes related to addicted individuals that remain entrenched in the popular imagination today Drawing upon both feminist and queer methodologies as well as upon extensive archival research Addiction and British Visual Culture 1751-1919 investigates and problematizes the long held belief that addiction is legible from the body thus positioning visual images as unreliable sources in attempts to identify alcoholics and drug addicts Examining paintings graphic satire photographs advertisements and architectural sites Skelly explores such issues as ongoing anxieties about maternal drinking the punishment and confinement of addicted individuals the mobility of female alcoholics through the streets and spaces of nineteenth century London and soldiers use of addictive substances such as cocaine and tobacco to cope with traumatic memories following the First World War
