**Critical Terms for the Study of Buddhism** Donald S. Lopez Jr.,2009-11-15 Over the

past century Buddhism has come to be seen as a world religion exceeding Christianity in longevity and according to many philosophical wisdom Buddhism has also increasingly been described as strongly ethical devoted to nonviolence and dedicated to bringing an end to human suffering And because it places such a strong emphasis on rational analysis Buddhism is considered more compatible with science than the other great religions As such Buddhism has been embraced in the West both as an alternative religion and as an alternative to religion This volume provides a unique introduction to Buddhism by examining categories essential for a nuanced understanding of its traditions Each of the fifteen essays here shows students how a fundamental term from art to word illuminates the practice of Buddhism both in traditional Buddhist societies and in the realms of modernity Apart from Buddha the list of terms in this collection deliberately includes none that are intrinsic to the religion Instead the contributors explore terms that are important for many fields and that invite interdisciplinary reflection Through incisive discussions of topics ranging from practice power and pedagogy to ritual history sex and death the authors offer new directions for the understanding of Buddhism taking constructive and sometimes polemical positions in an effort both to demonstrate the shortcomings of assumptions about the religion and the potential power of revisionary approaches Following the tradition of *Critical Terms for Religious Studies* this volume is not only an invaluable resource for the classroom but one that belongs on the short list of essential books for anyone seriously interested in Buddhism and Asian religions

volume explore some of the diverse and contradictory ways that the lives of women in the Asia Pacific region are shaped by two powerful regimes religion and law and by the interactions between them They show that for women laws customary colonial post independence and international and religions indigenous or introduced Buddhism Christianity Islam and Confucianism have been a mixed blessing These diverse legal systems and religious doctrines and institutions have variously denied women authority and the capacity to participate fully in the public organization of social political and religious life they have furthermore constructed gender and familial relations in ways that subordinate women Yet they have also offered promises of women s empowerment and provided rules and procedures norms values and interpretations of sacred traditions to deliver those emancipatory promises Each chapter is devoted to a single state first the history and current framework of the national legal system is introduced then the place of religion in the state is explained and finally by means of precise and detailed case studies or examples each author explores how these sometimes competing sometimes colluding regimes constructed women and how women interpreted this positioning and sought to resituate themselves
