Seeking Identity:

Seeking Identity Nancy Mae Antrim, 2021-03-04 *Seeking Identity* Language in Society looks at how we define and create identity both as individuals and as a society through language. Our language choices reflect not only how we view ourselves but how we are viewed by society. An individual's identity is reflected in various language construed identities: ethnicity, gender, and cross-cultural counter-cultural. In turn, these identities are projected by society on the individual ethnic group by the language choices society makes in describing and addressing these individuals. In the first section, *Language and Identity*, an ethnolinguistic approach is used to address the areas of language, identity, loyalty, gender, and ethnic pride. Section two, *Language and Advertising*, looks at how society in turn uses language to relate to different groups by appealing to ethnic pride, language identity, and the power/prestige that using a particular language variety entails. Section three, *Language and the Media*, explores how the media contributes to our construction of identity. Section four, *Language and Discourse*, shows how written discourse can appropriate, construct, and parody identity.

Seeking Identity Raymond A. Belliotti, 1995 Outlining the unwritten but deeply ingrained system of moral codes that Italian immigrants brought to America, Belliotti examines that system in relation to moral theorists who argue we owe the most to people close to us and those who contend we must attach no special weight to our own interests when determining proper moral action. He also investigates philosophical, historical, sociological, and political aspects of government authority, examines conflicting images of Italian immigrant women, and analyzes war and pacifism.

Seeking Identities Parul Kapoor, 2024-08-28 To seek is to fall. To seek is to heal. To seek is to grow. To seek is to love. To seek is to learn. *Seeking Identities* is a debut collection of poems by Parul Kapoor that delves deep into the multifaceted layers of one's inner selves, revealing the myriad identities that lie dormant within us. As we embark on this journey of unearthing and unlayering, we encounter moments of profound transformation where we may experience both the pain of being scarred and shattered as well as the joys of healing that lead to our ultimate metamorphosis. It's a book to be embraced, not adorned; it's an emotion to be felt, not read.

Finding Identity Through Directing Soseh Yekanians, 2020-05-10 *Finding Identity through Directing* is a practice-led autoethnographical monograph that provides an in-depth exploration into the field of theatre directing and an individual's endless creative pursuit for belonging. The book specifically examines how a culturally displaced individual may find a sense of identity through their directing and addresses the internal struggles of belonging, acceptance, and Self that are often experienced by those who have confronted cultural unhoming. The first half of the story scrutinises Dr Yekanians' own identity as an Iranian-born Armenian Australian and how she struggled with belonging growing up in a world that for the most part was unaccepting of her differences. The second half looks at how theatre directing aided her re-discovery of Self. While evidence shows that within the past decade there has been a growing interest in the vocation of theatre directing, embarking on a career within this field while exciting, can often be a daunting and experimental vocation. *Finding Identity through Directing* questions this

conundrum and specifically asks in a competitive artistic profession that is rapidly developing what attracts an individual to the authoritative role of the director and what are the underlying motivations of this attraction By uncovering that there is more to the role of the director than the mere finality of a production we can observe that the theatre is a promising setting for cultural exchanges in dialogue and for personal development Theatre directing as the vehicle for these expansions and progressions of self can potentially address the internal struggles of identity often experienced by those who in some form have encountered cultural displacement

Douglas, 2025-06-19 A philosopher explains why the search for identity is meaningless and how we should escape the self Modern life encourages us to pursue the perfect identity Whether we aspire to become the best lawyer or charity worker life partner or celebrity influencer we emulate exemplars that exist in the world hoping it will bring us happiness But this often leads to a complex game of envy and pride We achieve these identities but want others to imitate us We disagree with those whose identities contradict ours leading to polarisation and even violence And yet when they thump against us we are ashamed to ring hollow In *Against Identity* philosopher Alexander Douglas seeks an alternative wisdom Searching the work of three thinkers ancient Chinese philosopher Zhuangzi Dutch Enlightenment thinker Benedict de Spinoza and 20th Century French theorist Ren Girard he explores how identity can be a spiritual violence that leads us away from truth Through their worlds and radically different cultures we discover how at moments of historical rupture our hunger for being grows and yet it is exactly these times when we should make peace with our indeterminacy and discover the freedom of escaping our selves

Regaining Your Self Ira Sacker, 2010-12-23 You are not what you don't eat Never has there been a mental disorder so controversial in the theories surrounding its causes treatments and recovery than that of the eating disorder Its mysterious nature onset and lack of predictability make this an elusive epidemic that causes frustration and fear in those who are afflicted and those who love and treat them This is exactly why patients families and treatment professionals need to be privy to the observations of one of the foremost eating disorder specialists in the world and bestselling author of *Dying to Be Thin* Ira M Sacker M D It is he who continues to be at the forefront of true treatment breakthroughs the latest of which is evidenced in his latest book *Regaining Your Self* Over the last several decades as theories and books circulated and speculated on whether it is perfectionism trauma genetics biology or social pressures of

the media that has caused the rapid spread of anorexia bulimia and related disorders Dr Sacker was busy making a breakthrough in identifying the true culprit in eating disorders The Eating Disorder Identity With Eating Disorder Identities victims attach to their disorder and view it as part of who they are ultimately coming to identify with that persona exclusively Sometimes individuals will even name the disease Ana Mia or Ed in order to personify the new identity Just as a musician cannot live without his instruments an eating disorder individual will feel inauthentic and lost if ever they give up their eating disorder contributing to a higher rate of relapse In Regaining Your Self Dr Sacker explains the phenomenon of the Eating Disorder Identity and describes why this is the least identified concept in traditional treatment methods yet most detrimental aspect of the disorder Further Sacker explains how in an attempt to substitute their former identity many eating disorder patients adopt their eating disorder as a more acceptable definition of who they are therefore blurring the lines between their disorder and their self Like any thing that is viewed as intrinsic the eating disorder becomes nearly impossible to cut off and turn away from To combat this crisis Sacker lays out his effective program called PIRT or Personal Interaction Rational Therapy which assists families clinicians medical doctors and therapists in identifying the issue of identity the lack of one the disdain for the one they have exhibited by patients and offers them techniques on replacing the eating disorder identity with a new and healthier one the major component in facilitating recovery In addition Dr Sacker created a brand new workbook section exclusively for this paperback edition which offers both interactive and introspective exercises to help treatment professionals and patients successfully execute the bold new approach of Regaining Your Self

Fighting Identity Michael Vlahos, 2008-12-30 This work highlights a national ethos infused by a sacred narrative of divine mission This deep association leads to a narrow approach to conflict relationships built around an Us vs Them distance from the enemy in which their submission is achieved through kinetic effects and their subsequent redemption through our good works reconstruction Vlahos contends that America's difficult engagement in the Muslim world demonstrates urgently that different operational approaches and tactics like counterinsurgency are not enough Alternative paradigms of strategic engagement are needed but their very consideration requires deeper cultural rethinking about how we assess world change and other cultures and how our national ethos makes war Why are terrorists and insurgents we fight so formidable Their strength and our vulnerability is in identity Clausewitz knew that geist spirit was always stronger than the material identity is power in war But how can non state actors face up to nation states The answer is in globalization This is the West's 3rd globalization Two centuries of intense mixing has torn down old ways of life and created a growing demand for new belonging There is also a decline in US universalism America's vision as history's anointed prophet and manager is now competing head to head with renewed universal visions Like Late Antiquity and the High Middle Ages our globalization begins to subside We may be in the later days of American modernity We can see this worldwide as emerging local communities within states and meta movements find their voice through conflict and war Identities struggling for realization are always the most powerful Add the diffusion

of new technology and new practice and even the poorest and seemingly most primitive group can now make war against those on high They are successful because of a symbiotic fit between old states and new identities Increasingly old societies no longer find identity celebration in war while non state identities embrace the struggle for realization Hence non state wars with America become a mythic narrative for them Our engagement actually helps them realize identity and we become the midwife This book offers another path to deal with non state challenges one that does not further weaken us *Communal Functions of Social Comparison* Zlatan Križan, Frederick X. Gibbons, 2014-03-21 The extent to which we see ourselves as similar or different from others in our lives plays a key role in getting along and participating in social life This volume identifies research relevant to such communal functions of social comparisons and summarizes and organizes this research within a single coherent conceptual framework The volume provides an important addition to current thinking about social comparison which has often neglected communal and affiliative functions Whereas human desire to compare with others has traditionally been viewed as motivated by self centered needs such as self evaluation self enhancement and self improvement this book presents an eclectic cross section of research that illuminates connective cooperative and participatory functions of social comparisons In this vein the book aims both to expose research on currently neglected functions of social comparisons and to motivate a broader theoretical integration of social comparison processes *New York Sports* Stephen Norwood, 2018-06-01 New York has long been both America s leading cultural center and its sports capital with far more championship teams intracity World Series and major prizefights than any other city Pro football s Greatest Game Ever Played took place in New York along with what was arguably history s most significant boxing match the 1938 title bout between Joe Louis and Max Schmeling As the nation s most crowded city basketball proved to be an ideal sport and for many years it was the site of the country s most prestigious college basketball tournament New York boasts storied stadiums arenas and gymnasiums and is the home of one of the world s two leading marathons as well as the Belmont Stakes the third event in horse racing s Triple Crown New York sportswriters also wield national influence and have done much to connect sports to larger social and cultural issues and the vitality and distinctiveness of New York s street games its ethnic institutions and its sports centered restaurants and drinking establishments all contribute to the city s uniqueness New York Sports collects the work of fourteen leading sport historians providing new insight into the social and cultural history of America s major metropolis and of the United States These writers address the topics of changing conceptions of manhood and violence leisure and social class urban night life and entertainment women and athletics ethnicity and assimilation and more *Square 1* Demetris Prewitt, 2023-03-10 Countless academic studies Christian leaders and personal experience show a startling and disturbing fact about the church most Christians do not understand their faith Square 1 Bible Study for Christian Foundations explains clearly what the Bible teaches why Christians believe it and how to walk with Jesus The book brings foundational biblical doctrine to life through plain language thought provoking images and challenging application

questions for group discussion The purpose of the book is to provide a biblical foundation for the Christian faith worldview and lifestyle So what makes it different Everything starts with God s nature character and attributes Its pages are visually stimulating with color imagery The book does not begin assuming the reader has high biblical literacy or holds Christian worldview and is therefore laced with Christian apologetics Square 1 treats 21st century topics like identity human rights and sexuality as foundational for believers to understand their faith The book tackles end times and the new creation with unbelievable clarity Square 1 is a masterful blend of theological philosophical pastoral apologetical and biblical material At the end of this study the reader should be able to walk out the Christian life in the power of the Holy Spirit in expectation of Christ s return to the praise and glory of the Father They will also be capable of understanding explaining and defending the central claims of Christianity which is the good news of Jesus Christ Square 1 is systematic theology for anybody
