Treatises Rhetoric among others and On the Soul On Generation and Corruption Physics Metaphysics Nicomachean Ethics Politics and Poetics in their entirety      Universality and Translation Gavin Arnall, Katie Chenoweth, 2025-01-07 Within contemporary theory the concepts of translation and universality have frequently been associated with different and even opposed philosophical and political projects watchwords of either domination or liberation the erasure of difference or the defense of difference The universalizing drives of capitalism colonialism and other systems of oppression have precipitated widespread suspicion of any appeal to universality This has led some in turn to champion the very notion of universality as antithetical to these systems of oppression Similarly recent scholarship has begun to grapple with the fundamental role of translation not only in forging inclusive democratic politics but also by contrast in violence including imperial expansion and global war The present volume advocates neither for nor against translation or universality as such Instead it attends to their insurmountable ambiguity and equivocity the tensions and contradictions that are internal to both concepts and that exist between them Indeed the wager of this volume is that translation universality and their relationship name irreducible yet overlapping sites of struggle for a diverse array of struggles on the Left Drawing from multiple intellectual traditions and orientations with a special emphasis on deconstruction and Marxism this volume both reveals and participates in a subterranean current of thought committed to theorizing the dynamic plural and ultimately inextricable relationship between translation and universality Its contributors approach this problem in ways that challenge and unsettle dominant trends within translation studies and critical and postcolonial theory thereby opening new lines of inquiry within and beyond these fields Contributors Ben Conisbee Baer Barbara Cassin Souleymane Bachir Diagne Cate Reilly Peter Thomas Gavin Walker Naomi Waltham Smith Gary Wilder      **Classified Catalogue of the Carnegie Library of Pittsburgh, 1895- 1902: Fine Arts. good deliberation and a proper deliberative democracy possible otherwise debate degenerates into demagoguery and hypocrisy

Liberating the Holy Name Daniel Spiro,2014-07-07 In an increasingly polarized world atheists and religious fundamentalists still agree on one thing how God must be defined Both dogmatically claim that God can only refer to the supernatural Lord of Scripture In Liberating the Holy Name Daniel Spiro takes square aim at this attempt to assert a monopoly over the meaning of divinity He explains how his Jewish atheist upbringing and later exposure to Orthodox Judaism set him on a lifelong search for truth and meaning through the annals of modern Jewish philosophy Christian theology and Islam He then reveals how this search has led to a highly original theology in which God can be conceived in the third person embraced in the second person and recognized in the first person Liberating the Holy Name leads the reader on a voyage through some of our species most influential and profound perspectives on divinity Spiro models how this search for divinity can be our greatest privilege while arguing that in order to appreciate this privilege we must liberate the Name itself from those who wish to monopolize it If successful he contends we will improve religion s standing in the world and unleash a powerful force for social unity

From Plato to Christ Louis Markos,2021-08-03 Christians throughout the history of the church and even today have inherited aspects of the ancient Greek philosophy of Plato To help us understand the influence of Platonic thought on the Christian faith Louis Markos offers careful readings of some of Plato s best known texts and then traces the ways that his work shaped some of Christianity s most beloved theologians      Lovesickness and Gender in Early Modern English Literature Lesel Dawson,2008-09-18 Lesel Dawson examines figures afflicted with erotic melancholy in early modern literature and provides a historical context for their malady She discusses how the literary representation of lovesickness relates to wider issues of gender and identity making an important contribution to the to the fields of literature gender and medical history

**The Philosophy of Plato** Plato,1928      **Le Corbusier's Ahmedabad Millowners Association Building** Mehrdad Hadighi,2025-04-21 The Millowners Association Building in Ahmedabad designed by Le Corbusier and completed in 1954 has rarely been published but is nevertheless considered an important milestone in the architect s work In particular the building influenced his later work such as the Carpenter Center for the Visual Arts at Harvard This book documents the building and relates it to Le Corbusier s theoretical work especially *Vers une architecture* The significance of key figures such as Paul Valéry and John Ruskin for Le Corbusier s work is explained Characteristic design elements such as the promenade architecturale and the use of brise soleils are explored In addition to numerous scaled drawings newly produced models clarify the most important design aspects of the building Le Corbusier s 1954 building for the Millowners Association in Ahmedabad is an understudied key work With attractive photographs new drawings and models created especially for the publication The structure exemplifies characteristic elements of Le Corbusier s work and

his development as an architect      Where Are You? Maurizio Ferraris, 2014-09-01 This book sheds light on the most philosophically interesting of contemporary objects the cell phone Where are you a question asked over cell phones myriad times each day is arguably the most philosophical question of our age given the transformation of presence the cell phone has wrought in contemporary social life and public space Throughout all public spaces cell phones are now a ubiquitous prosthesis of what Descartes and Hegel once considered the absolute tool the hand Their power comes in part from their ability to move about with us they are like a computer but we can carry them with us at all times in part from what they attach to us and how as all that computational and connective power becomes both handy and hand sized Quite surprisingly despite their name one might argue as Ferraris does that cell phones are not really all that good for sound and speaking Instead the main philosophical point of this book is that mobile phones have come into their own as writing machines they function best for text messages e mail and archives of all kinds Their philosophical urgency lies in the manner in which they carry us from the effects of voice over into reliance upon the written traces that are Ferraris argues the basic stuff of human culture Ontology is the study of what there is and what there is in our age is a huge network of documents papers and texts of all kinds Social reality is not constructed by collective intentionality rather it is made up of inscribed acts As Derrida already prophesized our world revolves around writing Cell phones have attached writing to our fingers and dragged it into public spaces in a new way This is why with their power to obliterate or morph presence and replace voice with writing the cell phone is such a philosophically interesting object      **On the Level** Bob Mierisch, 2000 This memoir combines autobiography with reflections on building a successful business enterprise The author describes his experiences as CEO of an Australian company over 20 years of growth and presents his ideas on the value of openness and striving for excellence in building a successful and lasting organisation Includes a bibliography and an index The author is former director of Boulderstone Hornibrook He was appointed a member of the Order of Australia for service to the building and construction industry and to the community in 1994      **Classified Catalogue of the Carnegie Library of Pittsburgh** Pittsburgh, Pa.
