Children's Books that Nurture the Spirit Louise Margaret Granahan, 2003 Children develop in so many ways physically, intellectually, socially, and spiritually. Story is just one of the ways to foster and support a child's faith development. They can find role models in the positive characters in literature and develop empathy for others when they see a different point of view presented. *Children's Books that Nurture the Spirit* is an introduction to quality children's literature for spiritual development. The most current and readily available children's literature is reviewed by the author. In addition, Granahan suggests ways for leaders to use and extend the literature.

Children's Literature Studies Linda C. Salem, 2005-11-30 This supplement to standard children's literature textbooks will be a help to instructors as they engage their students in discussions about selection of materials, censorship, dealing with curricular issues, the need to understand administrative policies, community beliefs, and their responses to these issues. It is designed to help instructors discuss books in ways that inspire collegiality, collaboration, and scholarship in book evaluation and selection. Using actual case studies, resource reviews, and/or scenarios of censorship, religion, violence, ethnicity, and other issues, the instructor will be able to encourage discussion and reflective thought about real issues faced by teachers and librarians as they select materials for classroom or school library use. Guides for possible resources for help in researching situations will be included. This will prove a very valuable resource in teaching children's literature courses in schools of education and library schools and useful to practicing teachers and librarians as well. Though the book is slanted toward the use of books as classroom materials, it will be a valuable asset to a school library's professional collection and certainly valuable to the training of pre-service teachers and school librarians. Children's Literature Masha Kabakow Rudman, 1995 Children's Literature: An Issues Approach Third Edition is an invaluable text and resource guide to the critical study and selection of books for children from kindergarten through junior high school. Written for teachers, librarians, and anyone interested in introducing young people to the joy and benefits of reading, it examines children's literature and its treatment of important, sometimes controversial issues. Focusing on the personal and societal concerns of today's youth, including sexuality, divorce, heritage, abuse, and death, it offers practical suggestions for using books to help children successfully confront these matters.

Research & Professional Resources in Children's Literature Kathy Gnagey Short, 1995 Noting that few syntheses of research on children's literature exist, this annotated bibliography guides teachers, researchers, and librarians who are searching for research on a particular topic, strategies for using literature in schools, or children's books on a particular topic. Section I of the book focuses on children's literature research: research reviews, books, selected articles, other published studies, and dissertations published from January 1985 through December 1993, and includes a discussion of the procedures for identifying, listing, and annotating that research. Section II highlights professional journals that educators can use to locate reviews of children's literature, lists of books on particular topics, articles on using literature in the classroom, and research on children's literature. Section III contains annotations of many professional books on children's literature which focus on theoretical foundations, literature discussion and response, broad surveys of children's literature, sociopolitical and cultural issues, genre studies, literature across the curriculum, collections of teaching activities, and bibliographies of children's and adolescent literature. Each section of the book contains research or professional resources aimed at elementary and middle school contexts, specifically preschool through grade 8.

A Celebration of Literature and Response Marjorie R. Hancock, 2004 Reinforced by teachers' experiences in actual classrooms, this book provides a wealth of ideas for projects, readings, and response-based activities that will engage all learners in the joy of reading and responding to literature. It blends an appreciation of children's books across all genres with an emphasis on meaningful instructional strategies for literacy programs. Coverage of multicultural, international literature helps illustrate the universality of themes in children's literature, providing a basis for establishing a library of literature that expresses the totality of children's experiences and speaks to children from all cultures and backgrounds. Coverage is based on Louise Rosenblatt's transactional theory of reader response and organized around five main celebrations that the author uses as a framework for uniting the findings of reader response theory with quality children's literature and exemplary reflective literature-based practice. Includes expanded coverage on multicultural, international literature, including numerous examples of children's literature written and published in other countries.
