Peters,2017-12-13 Employment for former

prisoners is a critical pathway toward reintegration into society and is central to the processes of desistance from crime. Nevertheless, the economic climate in Western countries has aggravated the ability of former prisoners and people with criminal records to find gainful employment. After Prison opens with a former prisoner's story of reintegration, employment experiences. Next, relying on a combination of research interviews, quantitative data, and literature, contributors present an international comparative review of Canada's evolving criminal record legislation, the promotive features of employment, the complex constraints and stigma former prisoners encounter as they seek employment, and the individual and societal benefits of assisting former prisoners attain gainful employment. A main theme throughout is the interrelationship between employment and other central conditions necessary for safety and sustenance. This book offers suggestions for criminal record policy amendments and new reintegration practices that would assist individuals in the search for employment. Using the evidence and research findings of practitioners and scholars in social work, criminology, and law, psychology, and other related fields, the contributors concentrate on strategies that will reduce the stigma of having been in prison, foster supportive relationships between social and legal agencies and prisons and parole systems, and encourage individually tailored resources and training following release of individuals.

**Jail Sentences** Andrew Sobanet, 2008-01-01

A long list of canonical writers in Western literature have experienced incarceration and have subsequently written celebrated works about the imprisoned and the condemned. The French tradition is no exception: writers who produced noteworthy texts while incarcerated or who later wrote about their experiences in prison are found on the literary historical landscape from the medieval era through the twentieth century. Prison writing by inmates, former guards, chaplains, teachers, and doctors is firmly established as part of the fabric of popular culture and has long attracted the attention of culture critics and scholars. Nevertheless, scant analysis exists of the prison novel, a literary genre that, as Andrew Sobanet argues in *Jail Sentences*, uses fiction as a documentary tool. Its narrative peculiarities, which are the main subjects of Sobanet's study, include the use of autobiographical and testimonial techniques to critique the penitentiary system. *Jail Sentences* is the definitive study of the legacy of the Western tradition of prison writing in twentieth-century French literature. Although Sobanet focuses primarily on French writers Victor Segalen, Jean Genet, Albertine Sarrazin, and François Bon, his keen sense of literary dialogue pulls into the orbit of his study an international corpus of work from Dostoyevsky to Malcolm X. *Jail Sentences* arrives at a coherent definition of the genre whose unique conventions stem from the innermost regions of our understanding of stories, truth, fiction, and belief.
