Contemporary Architects Ann Lee Morgan, Colin Naylor, 1987 To strengthen the contemporary focus of this volume we have added about forty architects and have deleted some whose activity ceased before World War II In making these decisions we have been assisted by an Advisory Board As in the first volume we have continued to define the word architect very broadly so as to include planners theorists structural engineers and landscape architects whose work seems to be central to the enterprise of creating habitable spaces in our day Editor's note *Time Out Mallorca & Menorca* Editors of Time Out, 2009 Mallorca and Menorca two of Europe's most popular holiday resorts are often unfairly maligned as overdeveloped package tour playgrounds This guide seeks to redress the balance by revealing the variety to be found on these small islands **José Luis Sert** Josep M. Birksted, 2016-12-05 Set on a hillside near Cluny in a region associated with religious

institutions and sacred architecture including Le Corbusier's La Tourette Le Carmel de la Paix designed by Jos Luis Sert remains tranquilly unvisited and quietly erased from architectural history Why This unusual convent falls outside the standard categories of Sert's architecture and has been overlooked in most publications about his work As J K Birksted explains the design and construction process for this building proved nightmarish resulting in a building which at first sight appears to be ineloquent This first detailed examination of this building shows how the convent and the story of its creation offer valuable and important new insights into Sert his architecture and his life However the study also opens up discussions on wider subjects such as the relationships between modernist architecture and ecclesiastical architecture The design and construction of the Carmel de la Paix 1968 1972 followed the Second Ecumenical Council of the Vatican 1962 1965 which introduced fundamental changes and proposals for renewing the relationship between the Church and the changing modern world and the convent provides an interesting illustration of this period In addition it offers insights into the fascinating world of the Carmelite order and its specific liturgical requirements and reflecting on the nuns active involvement in the design and construction process it also explores wider issues of women in architecture *Barcelona* Suzanne Strum,2001 This guide looks at a broad range of architecture and urbanism in Barcelona providing an understanding of the historical and political contexts that have shaped it It focuses on significant projects built since 1990 as well as providing practical information for visitors **Avery Index to Architectural Periodicals. 2d Ed., Rev. and Enl** Avery Library,1990
