Origins and Evolution of Islamic Law Wael B. Hallaq, 2005 Long before the rise of Islam in the early seventh century Arabia had come to form an integral part of the Near East This book covering more than three centuries of legal history presents an important account of how Islam developed its own law while drawing on ancient Near Eastern legal cultures Arabian customary law and Quranic reforms The development of the judiciary legal reasoning and legal authority during the first century is discussed in detail as is the dramatic rise of prophetic authority the crystallization of legal theory and the formation of the all important legal schools Finally the book explores the interplay between law and politics explaining how the jurists and the ruling elite led a symbiotic existence that seemingly paradoxically allowed Islamic law and its application to be uniquely independent of the state **A History of Islamic Law** N. J. Coulson, 2011 The classic introduction to Islamic

law tracing its development from its origins through the medieval period to its place in modern Islam **The Ashgate Research Companion to Islamic Law** Peri Bearman, 2016-03-16 This unparalleled Companion provides a comprehensive and authoritative guide to Islamic law to all with an interest in this increasingly relevant and developing field The volume presents classical Islamic law through a historiographical introduction to and analysis of Western scholarship while key debates about hot button issues in modern day circumstances are also addressed In twenty one chapters distinguished authors offer an overview of their particular specialty reflect on past and current thinking and point to directions for future research The Companion is divided into four parts The first offers an introduction to the history of Islamic law as well as a discussion of how Western scholarship and historiography have evolved over time The second part delves into the substance of Islamic law Legal rules for the areas of legal status family law socio economic justice penal law constitutional authority and the law of war are all discussed in this section Part three examines the adaptation of Islamic law in light of colonialism and the modern nation state as well as the subsequent re Islamization of national legal systems The final section presents contemporary debates on the role of Islamic law in areas such as finance the diaspora modern governance and medical ethics and the volume concludes by questioning the role of Sharia law as a legal authority in the modern context By outlining the history of Islamic law through a linear study of research this collection is unique in its examination of past and present scholarship and the lessons we can draw from this for the future It introduces scholars and students to the challenges posed in the past to the magnitude of milestones that were achieved in the reinterpretation and revision of established ideas and ultimately to a thorough conceptual understanding of Islamic law **Between God and the Sultan** Knut S. Vikør, 2005 The

contrast between religion and law has been continuous throughout Muslim history Islamic law has always existed in a tension between these two forces God who gave the law and the state the sultan representing society and implementing the law This tension and dynamic have created a very particular history for the law in how it was formulated and by whom in its theoretical basis and its actual rules and in how it was practiced in historical reality from the time of its formation until today That is the main theme of this book Knut S Vikor introduces the development and practice of Islamic law to a wide readership students lawyers and the growing number of those interested in Islamic civilization He summarizes the main concepts of Islamic jurisprudence discusses debates concerning the historicity of Islamic sources of dogma and the dating of early Islamic law describes the classic practice of the law in the formulation and elaboration of legal rules and practice in the courts and sets out various substantive legal rules on such vital matters as the family and economic activity

The Islamic State in the Post-Modern World Louis D. Hayes, 2016-03-03 The Islamic State in the Post Modern World is a study of the political development of Pakistan This study consists of three parts The first addresses the concept of the state as it has evolved historically The approach is comparative and involves a brief review of Islamic political theory The second part of this section is the modern state i e the Westphalian model The territorial state is still the standard although it has been evolving in new directions for some time The second section focuses on the creation of Pakistan as an experiment in bridging the gulf between the demands of the modern state and the philosophical spiritual attraction of the Islamic model In addition to constitutional issues the discussion also includes political forms i e the machinery of daily government and the appropriateness of democratic methods elections legislative process and political parties to achieve Islamic ends The third part considers international issues from the beginning of the twenty first century especially the conflicts in Iraq and Afghanistan Despite its partnership role with the US in the war on terror Pakistan has been consistently marginalized Pakistan s problems are exacerbated by the conflict over Kashmir a vestigial remnant of Pakistan s continuous and largely unsuccessful efforts at self identification

The Impossible State Wael B. Hallaq, 2014-09-02 Wael B Hallaq boldly argues that the Islamic state judged by any standard definition of what the modern state represents is both impossible and inherently self contradictory Comparing the legal political moral and constitutional histories of premodern Islam and Euro America he finds the adoption and practice of the modern state to be highly problematic for modern Muslims He also critiques more expansively modernity s moral predicament which renders impossible any project resting solely on ethical foundations The modern state not only suffers from serious legal political and constitutional issues Hallaq argues but also by its very nature fashions a subject inconsistent with what it means to be or to live as a Muslim By Islamic standards the state s technologies of the self are severely lacking in moral substance and today s Islamic state as Hallaq shows has done little to advance an acceptable form of genuine Shari a governance The Islamists constitutional battles in Egypt and Pakistan the Islamic legal and political failures of the Iranian Revolution and similar disappointments underscore this fact Nevertheless

the state remains the favored template of the Islamists and the ulama Muslim clergymen Providing Muslims with a path toward realizing the good life Hallaq turns to the rich moral resources of Islamic history Along the way he proves political and other crises of Islam are not unique to the Islamic world nor to the Muslim religion These crises are integral to the modern condition of both East and West and by acknowledging these parallels Muslims can engage more productively with their Western counterparts

Hallaq, 2009-07-09 The study of Islamic law can be a forbidding prospect for those entering the field for the first time Wael Hallaq a leading scholar and practitioner of Islamic law guides students through the intricacies of the subject in this absorbing introduction The first half of the book is devoted to a discussion of Islamic law in its pre modern natural habitat The second part explains how the law was transformed and ultimately dismantled during the colonial period In the final chapters the author charts recent developments and the struggles of the Islamists to negotiate changes which have seen the law emerge as a primarily textual entity focused on fixed punishments and ritual requirements The book which includes a chronology a glossary of key terms and lists of further reading will be the first stop for those who wish to understand the fundamentals of Islamic law its practices and history

A History of Islamic Law Noel J. Coulson, 1946

Just War in Religion and Politics Jacob Neusner, Bruce D. Chilton, R. E. Law in the Middle East: Origin and development of Islamic law Majid Khadduri, 1955

Islam, Law and the Modern State Arif A. Jamal, 2018-03-14 Within the global phenomenon of the re emergence of religion into issues of public debate one of the most salient issues confronting contemporary Muslim societies is how to relate the legal and political heritage that developed in pre modern Islamic polities to the political order of the modern states in which

Muslims now live This work seeks to develop a framework for addressing this issue The central argument is that liberal theory and in particular justice as discourse can be normatively useful in Muslim contexts for relating religion law and state Just as Muslim contexts have developed historically and continue to develop today the same is the case with the requisites of liberal theory and this may allow for liberal choices to be made in a manner that is not a renunciation of Muslim heritage

The Formation of Islamic Law Wael B. Hallaq,2004 The fourteen studies included in The Formation of Islamic Law have been chosen to serve several purposes simultaneously At a basic level they provide a general if not wholly systematic coverage of the emergence and evolution of law during the first three and a half centuries of Islam On another level they reflect the different and at times widely divergent scholarly approaches to this subject matter These two levels combined will offer a useful account of the rise of Islamic law not only for students in this field but also for Islamicists who are not specialists in matters of law comparative legal historians and others At the same time however and as the Introduction to the work argues this collection of distinguished contributions illustrates both the achievements and the shortcomings of paradigmatic scholarship on the formative period of Islamic law

International Law and Muslim States Dawood Hamzah,2021-08-12 This book analyses the general interaction between international law and Islamic law in the Muslim world today It interrogates factors that often form the root of the tension between the two legal regimes Literalist interpretations of Islamic law and the modern international law s disposition that does not give due consideration to differences among cultures and civilizations are some of these factors This work examines the Saudi Arabia textualist approach to the two primary sources of law in Islam the Qur an and Sunnah and argues that a liberal approach of interpretation has become sine qua non especially now that myriad issues are confronting the Muslim world generally and Saudi Arabia in particular Similarly globalization has generated an unprecedented multi culturalism legal pluralism and trans border interactions in socio economic and political relations Therefore Saudi Arabia as the bastion of Islam and Islamic nations is faced with the imperative of adopting a liberal approach to interpretation of Islamic law with a view to accommodating a wide spectrum of other laws and cultures The book provides a timely examination of the issue of modern Saudi Arabia Islamic legal order vis vis the contemporary concept of international law and international relations in specific areas such as international human rights law and trans national economic matters As such it will be of interest to academics and researchers working in Islamic law international and comparative law human rights law and law and religion
