shaking Britain and the world Mourning was focused on London where Diana s body lay and on Diana s home Kensington Palace Throughout the city and especially in Kensington Gardens millions left shrines to the dead princess made of flowers messages teddy bears and other objects In towns and villages around the UK this was repeated The mourning was also global with media dominated by Diana s death in scores of countries The funeral itself had a record breaking world television audience and messages of condolence floated around the globe in cyber space How unique was all this Does it mark a shift in the culture of mourning of the position of the monarchy of the role of emotion in British culture How does it compare with the mourning for other super icons JFK Evita Elvis and Monroe Was it media induced hysteria Or was it simply a magnification of normal mourning behaviour Focusing on the extraordinary actions of millions of ordinary people this book documents what happened and shows how a modern rational society coped with the unexpected in a proto revolutionary week that left participants and objectors alike asking why did we behave like this *Sensible Idiots* KYG,2025-10-07
