The Quran When Was It Compiled? Ayatollah Sayed Muhammad al-Shirazi, 2015-01-09 The Holy Qur'an is the eternal celestial message revealed by Allah to His prophet Muhammad Blessings and Peace be upon him and his family so that he might rescue a confused humanity from the darkness of doubt and ignorance to the light of certainty and knowledge for the Qur'an delineates the road of guidance and righteousness in both religious and worldly affairs The Qur'an represents the foundation stone of Islam which Allah has promised to keep free from corruption

The History of The Quranic Text: from Revelation to Compilation Muhammad Mustafa Al-Azami, 2008-01-01 This expansive book provides unique insights into the holy text's immaculate preservation as well as exploring many of the accusations leveled against it The reception of divine revelations Prophet Muhammad's role in disseminating and compiling these verses and the setting of the text's final external shape are scientifically examined alongside such topics as the origins of Arabic the so called Mushaf of Ibn Masud and the strict methodology employed in assembling textual fragments By way of comparison the author investigates the histories of the Old and New Testaments relying entirely on Judeo-Christian sources and uncovers a startling range of alterations in the biblical Scriptures Using this as a springboard he illustrates convincingly that Western research into Islam's Holy Book is motivated by more than mere curiosity and has no scientific bearing on the Quran's integrity This monumental effort a scholarly work composed in an impassioned tone provides a welcome foundation for sincere study at a time when assailing the Quran has become all too common

Mohammad Malkawi, 2010-04-22 The Fall of Capitalism and the Rise of Islam provides a critical analysis of the current financial crisis in the US and the world at large It concludes that the current crisis could very well be a sign of failure of the underlying system of capitalism The book shows that the system of capitalism contains serious faults and defects at the core theory level Economic and financial crisis periodically occur whenever these defects are triggered by various conditions and political decisions during the life of capitalism The collapse of financial institutions the crash of the housing market the evaporation of trillions of dollars the creation of virtual unreal wealth and the decline of productivity are symptoms of the potential failure of the ideology of capitalism This failure has serious impact on the life quality of billions of people around the world who suffer from poverty hunger health insecurity lack of education and serious inhuman conditions The world order under capitalism witnessed multiple world wars political and economic instability colonialism absence of peace deprivation of justice and polarization of wealth and power This book predicts a potential crash and collapse of the world order under the pressure of a failing capitalism Concurrent to the decline and potential collapse of capitalism the book makes an account of another global phenomenon namely the second rise of Islam The rise of Islam similar to the first one that lasted for thirteen hundred years is a comprehensive rise that brings up the economic system together with the political system and the moral system together with the legal system It is much needed and sought to introduce to the world a system full of justice fairness and geared toward productivity and human righteousness The new rise of Islam is argued to be in the best interest of the human societies around the world and that the propagated fear of this rise is unfounded The book provides a detailed description of the economic system and the political economy of Islam It provides compelling evidence that the Islamic political economy characterized by sustained productivity and wealth distribution guarantees the satisfaction of the basic needs of a human The Islamic political economy integrates several mechanisms for natural distribution of wealth while it maintains a high level of productivity through the inhibition of usury hoarding and exploitation The Fall of Capitalism and the Rise of Islam makes extensive references to a score of historians scholars and scientists who provide a fair testimony of
