Race Jobs And The War The Fepec In The Midwest 1941 1946:

Race, Jobs, and the War Andrew Edmund Kersten, 2000 In this examination of the FEPC's work focusing on the pivotal Midwest Andrew Edmund Kersten shows how this tiny government agency influenced the course of civil rights reform and moved the United States closer to a national fair employment policy **Born Along the Color Line** Eben Miller, 2012-02 This book chronicles the 1933 Amenia Conference in upstate New York which brought together a young group of African American activists who would shape the ongoing civil rights movement during the Depression World War II and beyond

Latina/os and World War II Maggie Rivas-Rodríguez, 2014-04-15 This eye opening anthology documents the effects of WWII on Latina o personal and political beliefs across a broad spectrum of ethnicities and races The first book length study of Latina o experiences in World War II over a wide spectrum of identities and ancestries from Cuban American Spanish American and Mexican American segments to the under studied Afro Latino experience *Latina os and World War II* probes the controversial aspects of Latina o soldiering and citizenship in the war the repercussions of which defined the West during the twentieth century The editors also offer a revised more accurate tabulation of the number of Latina os who served in the war Spanning imaginative productions such as vaudeville and the masculinity of the soldado raso theatrical performances military segregation and the postwar lives of veterans *Tejanas on the homefront* journalism and youth activism and other underreported aspects of the wartime experience the essays collected in this volume showcase rarely seen recollections Whether living in Florida in a transformed community or deployed far from home including Mexican Americans who were forced to endure the Bataan Death March the men and women depicted in this collection yield a multidisciplinary metacritical inquiry The result is a study that challenges celebratory accounts and deepens the level of scholarly inquiry into the realm of ideological mobility for a unique cultural crossroads Taking this complex history beyond the realm of war narratives *Latina os and World War II* situates these chapters within the broader themes of identity and social change that continue to reverberate in postcolonial lives *Continually Working* Crystal Marie Moten, 2023-03-15 *Continually Working* tells the stories of Black working women who resisted employment inequality in Milwaukee Wisconsin from the 1940s to the 1970s The book explores the job related activism of Black Midwestern working women and uncovers the political and intellectual strategies they used to critique and resist employment discrimination dismantle unjust structures and transform their lives and the lives of those in their community Moten emphasizes the ways in which Black women transformed the urban landscape by simultaneously occupying spaces from which they had been historically excluded and creating their own spaces Black women refused to be marginalized within the historically white and middle class Milwaukee Young Women's Christian Association MYWCA an association whose mission centered on supporting women in urban areas Black women forged interracial relationships within this organization and made it not without much conflict and struggle one of the most socially progressive organizations in the city When Black women could not integrate historically white institutions they

created their own. They established financial and educational institutions such as Pressley School of Beauty Culture which beautician Mattie Pressley DeWese opened in 1946 as a result of segregation in the beauty training industry. This school served economic, educational, and community development purposes as well as created economic opportunities for Black women. Historically and contemporarily, Milwaukee has been and is still known as one of the most segregated cities in the nation. Black women have always contested urban inequality by making space for themselves and others on the margins. In so doing, they have transformed both the urban landscape and urban history.

Race and Renaissance Joe William Trotter Jr., Jared N. Day, 2010-06-27 African Americans from Pittsburgh have a long and distinctive history of contributions to the cultural, political, and social evolution of the United States. From jazz legend Earl Fatha Hines to playwright August Wilson, from labor protests in the 1950s to the Black Power movement of the late 1960s, Pittsburgh has been a force for change in American race and class relations. *Race and Renaissance* presents the first history of African American life in Pittsburgh after World War II. It examines the origins and significance of the second Great Migration, the persistence of Jim Crow into the postwar years, the second ghetto, the contemporary urban crisis, the civil rights and Black Power movements, and the Million Man and Million Woman marches among other topics. In recreating this period, Trotter and Day draw not only from newspaper articles and other primary and secondary sources but also from oral histories. These include interviews with African Americans who lived in Pittsburgh during the postwar era, which reveal firsthand accounts of what life was truly like during this transformative epoch. *Race and Renaissance* illuminates how Pittsburgh's African Americans arrived at their present moment in history. It also links movements for change to larger global issues: civil rights with the Vietnam War, affirmative action with the movement against South African apartheid. As such, the study draws on both sociology and urban studies to deepen our understanding of the lives of urban blacks.

Labor's Home Front Andrew E. Kersten, 2009-03 One of the oldest, strongest, and largest labor organizations in the U.S., the American Federation of Labor (AFL) had 4 million members in over 20,000 union locals during World War II. The AFL played a key role in wartime production and was a major actor in the contentious relationship between the state, organized labor, and the working class in the 1940s. The war years are pivotal in the history of American labor, but books on the AFL's experiences are scant, with far more on the radical Congress of Industrial Unions (CIO). Andrew E. Kersten closes this gap with *Labor's Home Front*, challenging us to reconsider the AFL and its influence on twentieth-century history. Kersten details the union's contributions to wartime labor relations, its opposition to the open shop movement, divided support for fair employment and equity for women and African American workers, its constant battles with the CIO, and its significant efforts to reshape American society, economics, and politics after the war. Throughout, Kersten frames his narrative with an original central theme: that despite its conservative nature, the AFL was dramatically transformed during World War II, becoming a more powerful, progressive force that pushed for liberal change.

The Papers of Clarence Mitchell, Jr.: 1944-1946 Clarence Maurice Mitchell, 2005 Clarence Mitchell Jr. was the

driving force in the struggle for civil rights in America Volumes I and II part of the projected five volume The Papers of Clarence Mitchell Jr document Mitchell s crucial role during the Roosevelt years of getting the Congress to join the courts and the president in upholding the Constitutional rights of all Americans **Making Republicans Liberal** Kristoffer Smemo,2024-08-20 Mass movements and social protest forced mid century Republicans to articulate their own form of liberalism As poor and working people organized themselves on the job in the streets and at the polls during the mid twentieth century they forced Republicans to reckon with new demands for political and social citizenship in big cities across the Northeast Midwest and Pacific Coast While rightwing Republicans mobilized to crush those movements Making Republicans Liberal explores how another wing of the party responded to intensifying mass movement pressure Beginning in the 1930s Republican governors such as Earl Warren of California George Romney of Michigan and Nelson Rockefeller of New York spent the next four decades articulating their own vision of liberalism These Republican liberals believed that strategically they could not win elections and govern in places where unions civil rights groups and other social movements organized voters What may have begun as an opportunistic strategy soon mutated into an ideological commitment to use state power to realize working people s demands for a greater say and stake in the decisions governing their lives Republican liberals accepted labor s right to organize legislated antidiscrimination laws and legalized abortion Yet at the same time each of those policies proved weaker than the alternatives supported by organized labor or mainline civil rights groups and paled in comparison to what people on strike and on the march really wanted Kristoffer Smemo shows how this was the contradiction of Republican liberalism as a policy program and as an ideology The reforms it ushered in at once asked too much from core conservative Republican constituencies and offered too little to the movements struggling for change As the movements making Republicans compromise fragmented and collapsed in the late twentieth century so too did the material foundation for Republican liberalism Africana Social Stratification James L. Conyers Jr.,2017-11-30 This study seeks to critically examine the field and function of social stratification with emphasis on Africana phenomena Phrased another way this edited volume attempts to study and focus on who gets what and why with regard to resources and structural application of support The John Henrik Clarke query is who made this arrangement of leadership in America Moreover serving as a reference this study will assist researchers in contextualizing and thematically examining the structural and resource allocation of disparity exhibited toward Africana people This manuscript of essays is the first its kind This study incorporates an interdisciplinary scope to examine the concept of Africana Social Stratification in the subject areas of history political science economics Africana Studies and social policy Victory at Home Charles D. Chamberlain,2010-07-01 Victory at Home is at once an institutional history of the federal War Manpower Commission and a social history of the southern labor force within the commission s province Charles D Chamberlain explores how southern working families used America s rapid wartime industrialization and an expanded federal presence to gain unprecedented economic social and geographic mobility

in the chronically poor region Chamberlain looks at how war workers black leaders white southern elites liberal New Dealers nonsouthern industrialists and others used and shaped the federal war mobilization effort to fill their own needs He shows for instance how African American Latino and white laborers worked variously through churches labor unions federal agencies the NAACP and the Urban League using a wide variety of strategies from union organizing and direct action protest to job shopping and migration Throughout Chamberlain is careful not to portray the southern wartime labor scene in monolithic terms He discusses for instance conflicts between racial groups within labor unions and shortfalls between the War Manpower Commission's national directives and their local implementation An important new work in southern economic and industrial history Victory at Home also has implications for the prehistory of both the civil rights revolution and the massive resistance movement of the 1960s As Chamberlain makes clear African American workers used the coalition of unions churches and civil rights organizations built up during the war to challenge segregation and disenfranchisement in the postwar South
