Race Labor And Punishment In The New South:

Race, Labor, and Punishment in the New South Martha A. Myers, 1998 For Emile Durkheim writing in the nineteenth century punishment was simply understood as a clear response to the criminal behavior a society experiences Today s penal institutions challenge such a simple understanding Inseparably linked with many aspects of society they are profoundly shaped by the traumatic events and changes a society undergoes Nowhere is this clearer than in the American South Georgia embraced the concept of the penitentiary as a form of social control earlier than most of its southern neighbors Its penal code of 1816 replaced or curtailed such traditional punishments as whipping the pillory fines or death Georgia s control over felony convicts effectively began in 1817 when the state prison at Milledgeville accepted its first convict Martha A Myers finds that Georgia also led the region in embracing the convict lease system as an alternative to incarceration In *Race Labor and Punishment in the New South* she examines the social political and economic forces that shaped punishment over a seventy year period Between 1870 and 1940 Georgia s system of punishment shifted from capital and corporal punishment to hard labor in the penitentiary then to the convict lease system then to county run chain gangs and then back to incarceration in prison This book forges a connection between these dramatic shifts and analyzes three facets of punishment for black and white men rates of admission to the penitentiary the harshness of sentences and the ease with which felons achieved release from the penitentiary Her findings challenge the conventional notion that hard times invariably prompt harsh punishment In uncovering the complex link between social change and southern punishment Myers reveals the poverty of current theories of criminal punishment

Life and Labor in the New New South Robert H. Zieger, 2012-03-18 This collection of essays explores the dynamic new face of Southern labour since 1950 examining such topics as southern deindustrialisation union activism in the healthcare industry labour community coalitions the politics of southern anti unionism and immigrant labour in southern agriculture

Caging Borders and Carceral States Robert T. Chase, 2019-04-09 This volume considers the interconnection of racial oppression in the U S South and West presenting thirteen case studies that explore the ways in which citizens and migrants alike have been caged detained deported and incarcerated and what these practices tell us about state building converging and coercive legal powers and national sovereignty As these studies depict the institutional development and state scaffolding of overlapping carceral regimes they also consider how prisoners and immigrants resisted such oppression and violence by drawing on the transnational politics of human rights and liberation transcending the isolation of incarceration detention deportation and the boundaries of domestic law Contributors Dan Berger Ethan Blue George T D az David Hernandez Kelly Lytle Hernandez Pippa Holloway Volker Janssen Talitha L LeFlouria Heather McCarty Douglas K Miller Vivien Miller Donna Murch and Keramet Ann Reiter

The SAGE Handbook of Punishment and Society Jonathan Simon, Richard Sparks, 2012-09-18 The project of interpreting contemporary forms of punishment means exploring the social political economic and historical conditions in the society in which those forms arise The SAGE

Handbook of Punishment and Society draws together this disparate and expansive field of punishment and society into one compelling new volume. Headed by two of the leading scholars in the field, Jonathan Simon and Richard Sparks, have crafted a comprehensive and definitive resource that illuminates some of the key themes in this complex area from historical and prospective issues to penal trends and related contributions through theory, literature, and philosophy. Incorporating a stellar and international line up of contributors, the book addresses issues such as capital punishment, the civilising process, gender, diversity, inequality, power, human rights, and neoliberalism. This engaging, vibrantly written collection will be captivating reading for academics and researchers in criminology, penology, criminal justice, sociology, cultural studies, philosophy, and politics.

Buried Lives Michele Lise Tarter, Richard Bell, 2012. *Buried Lives* offers the first critical examination of the experience of imprisonment in early America. These interdisciplinary essays investigate several carceral institutions to show how confinement shaped identity, politics, and the social imaginary both in the colonies and in the new nation. The historians and literary scholars included in this volume offer a complement and corrective to conventional understandings of incarceration that privilege the intentions of those in power over the experiences of prisoners. Considering such varied settings as jails, penitentiaries, almshouses, workhouses, floating prison ships, and plantations, the contributors reconstruct the struggles of people imprisoned in locations from Antigua to Boston. The essays draw upon a rich array of archival sources from the seventeenth century to the eve of the Civil War, including warden logs, petitions, execution sermons, physicians' clinical notes, private letters, newspaper articles, runaway slave advertisements, and legal documents. Through the voices, bodies, and texts of the incarcerated, *Buried Lives* reveals the largely ignored experiences of inmates who contested their subjection to regimes of power.

Freedom's Main Line Derek Charles Catsam, 2009-01-23. A compelling, spellbinding examination of a pivotal event in civil rights history, a highly readable and dramatic account of a major turning point. *Journal of African American History*. Black Americans in the Jim Crow South could not escape the grim reality of racial segregation, whether enforced by law or by custom. In *Freedom's Main Line: The Journey of Reconciliation and the Freedom Rides*, author Derek Charles Catsam shows that courtrooms, classrooms, and cemeteries were not the only front lines in African Americans' prolonged struggle for basic civil rights. Buses, trains, and other modes of public transportation provided the perfect means for civil rights activists to protest the second-class citizenship of African Americans, bringing the reality of the violence of segregation into the consciousness of America and the world. *Freedom's Main Line* argues that the Freedom Rides, a turning point in the Civil Rights Movement, were a logical, natural evolution of such earlier efforts as the Journey of Reconciliation, relying on the principles of nonviolence so common in the larger movement. The impact of the Freedom Rides, however, was unprecedented, fixing the issue of civil rights in the national consciousness. Later activists were often dubbed Freedom Riders, even if they never set foot on a bus. With challenges to segregated transportation as his point of departure, Catsam chronicles black Americans' long journey toward increased civil rights. *Freedom's Main Line* tells the story of bold incursions into the

heart of institutional discrimination journeys undertaken by heroic individuals who forced racial injustice into the national and international spotlight and helped pave the way for the landmark Civil Rights Act of 1964

Mass Imprisonment David Garland, 2001-05-18 This major new volume of papers by leading criminologists sociologists and historians sets out what is known about the political and penological causes of the phenomenon of mass imprisonment Mass imprisonment American style involves the penal segregation of large numbers of the poor and minorities Imprisonment has become a central institution for the social control of the urban poor Other countries are now looking to the USA to see what should be learned from this massive and controversial social experiment This book describes mass imprisonment s impact upon crime upon the minority communities most affected upon social policy and more broadly upon national culture This is a book that all penologists and poli

[Breaking the Pendulum](#) Philip Goodman, Joshua Page, Michelle Phelps, 2017-03-20 The history of criminal justice in the U S is often described as a pendulum swinging back and forth between strict punishment and lenient rehabilitation While this view is common wisdom it is wrong In [Breaking the Pendulum](#) Philip Goodman Joshua Page and Michelle Phelps systematically debunk the pendulum perspective showing that it distorts how and why criminal justice changes The pendulum model blinds us to the blending of penal orientations policies and practices as well as the struggle between actors that shapes laws institutions and how we think about crime punishment and related issues Through a re analysis of more than two hundred years of penal history starting with the rise of penitentiaries in the 19th Century and ending with ongoing efforts to roll back mass incarceration the authors offer an alternative approach to conceptualizing penal development Their agonistic perspective posits that struggle

is the motor force of criminal justice history Punishment expands contracts and morphs because of contestation between real people in real contexts not a mechanical swing of the pendulum This alternative framework is far more accurate and empowering than metaphors that ignore or downplay the importance of struggle in shaping criminal justice This clearly written engaging book is an invaluable resource for teachers students and scholars seeking to understand the past present and future of American criminal justice By demonstrating the central role of struggle in generating major transformations Breaking the Pendulum encourages combatants to keep fighting to change the system The American South William J. Cooper Jr., Thomas E. Terrill, Christopher Childers, 2016-11-17 In The American South A History Fifth Edition William J. Cooper Jr and Thomas E. Terrill demonstrate their belief that it is impossible to divorce the history of the South from the history of the United States The authors analysis underscores the complex interaction between the South as a distinct region and the South as an inescapable part of America Cooper and Terrill show how the resulting tension has often propelled section and nation toward collision In supporting their thesis the authors draw on the tremendous amount of profoundly new scholarship in Southern history Each volume includes a substantial bibliographical essay completely updated for this edition which provides the reader with a guide to literature on the history of the South This volume contains updated chapters and tables
