Economic Migration to the EU Great Britain: Parliament: House of Lords: European Union Committee, 2005-11-16 The European Commission published a Green Paper *An EU approach to managing economic migration* in January 2005 setting out proposals for a common EU policy for the admission of immigrants for employment and migrant workers rights In light of this consultation paper the Committee's report examines the issue of economic migration to the EU and the level at which it should be regulated and discusses whether Member States should retain the freedom to decide on issues of economic migration independently of each other The report is mostly concerned with migration into the EU but also looks at some aspects of intra EU movement it does not consider illegal immigration or asylum issues Issues discussed include wider economic issues the impact of globalisation EU enlargement options for control of migrant workers the UK's position on the Commission's Green Paper the case for a common EU policy and the rights of migrant workers

American Routes Angel Adams Parham, 2017-03-21 *American Routes* provides a comparative and historical analysis of the migration and integration of white and free black refugees from nineteenth century St Domingue Haiti to Louisiana and follows the progress of their descendants over the course of two hundred years The refugees reinforced Louisiana's tri racial system and pushed back the progress of Anglo American racialization by several decades But over the course of the nineteenth century the ascendancy of the Anglo American racial system began to eclipse Louisiana's tri racial Latin Caribbean system The result was a racial palimpsest that transformed everyday life in southern Louisiana White refugees and their descendants in Creole Louisiana succumbed to pressure to adopt a strict definition of whiteness as purity that conformed to standards of the Anglo American racial system Those of color however held on to the logic of the tri racial system which allowed them to inhabit an intermediary racial group that provided a buffer against the worst effects of Jim

Crow segregation The St Domingue Haiti migration case foreshadows the experiences of present day immigrants of color from Latin America and the Caribbean many of whom chafe against the strictures of the binary U S racial system and resist by refusing to be categorized as either black or white The St Domingue Haiti case study is the first of its kind to compare the long term integration experiences of white and free black nineteenth century immigrants to the U S In this sense it fills a significant gap in studies of race and migration which have long relied on the historical experience of European immigrants as the standard to which all other immigrants are compared
