Rethinking The Youth Question Hc:

Rethinking the Reasonable Person Mayo Moran, 2003 The reasonable person standard plays a central role in the law figuring prominently in tort law criminal law and administrative law However the reasonable person has also attracted substantial criticism from egalitarian critics and feminists insofar as it presupposes contested notions of normal behaviour and may discriminate against certain classes of defendant Judges and mainstream theorists also increasingly puzzle over what the standard amounts to and how to apply it Using these controversies as a point of departure Rethinking the Reasonable Person examines the promise and the perils of the reasonable person standard Ultimately it argues that an objective standard is not only defensible but essential Yet only with a radical reconstruction will it be possible to realize the promise of the standard and to ensure a truly egalitarian conception of responsibility Rethinking Ethical-Political Education Torill Strand, 2020-07-29 This book offers a variety of outlooks and perspectives on the constitutive values and formative norms of a society reflected by discourses on ethical political education It also discusses conceptual and critical philosophical works combined with empirical studies The book is divided into three parts the first part describes contemporary youth s tangible experience of and reflections on ethical political issues while the second part explores the potential powers and pitfalls of educational philosophies old and new The third part highlights cutting edge issues within the humanities and social sciences and examines the prospects of a fruitful rethinking of ethical political education in response to today s pressing issues By addressing current dilemmas with diligence and insight the authors offer solid arguments for new theoretical and practical directions to promote philosophical clarification and advance research Intended for students teachers and researchers the book provides fresh perspectives on the many facets of ethical political education and as such is a valuable contribution to educational research and debate **Moments of Modernity** Becky Conekin, Frank Mort, Chris Waters, 1999 Gift to King s University College Library from Prof Brian Patton 2005 **Beyond Resistance! Youth Activism and Community Change** Pedro Noguera, Julio Cammarota, Shawn Ginwright, 2013-05-13 The failure of current policy to address important quality of life issues for urban youth remains a substantial barrier to civic participation educational equity and healthy adulthood This volume brings together the work of leading urban youth scholars to highlight the detrimental impact of zero tolerance policies on young people s educational experience and well being Inspired by the conviction that urban youth have the right to more equitable educational and social resources and political representation Beyond Resistance offers new insights into how to increase the effectiveness of youth development and education programs and how to create responsive youth policies at the local state and federal level **Unheard Voices of the Young Egyptian Brothers** Doha Abdelgawad, 2024-09-19 Drawing upon extensive fieldwork this book unveils the Egyptian Muslim Brotherhood intra dynamics by examining the emerging pathways of political disengagement and radicalization in the aftermath of 2013 Coup It explores how the 2011 waves of protest and the 2013 military takeover of power two contradictory

phases in terms of their implications for political Islam shaped young members perceptions towards Egyptian politics violence and the role of Islamic political groups This offers a key to understanding the ideological and strategic evolution of Islamists in alignment with regional changes such as the rise of transnational jihadist groups and the fading of popular protest in the Arab region The book relies on Social Movement Theory and contentious politics literature to develop a relational approach for analysing the positionalities of the young Brothers This elucidates change within Islamic groups as a multi layered evolving phenomenon that cannot be attributed solely to either ideological or structural changes but rather to manifold factors operating at different levels It also rejects the prevailing binary classification of moderate versus radical activism when seeking to understand the effects of repression on the trajectories of Islamic movements members

Identity Formation, Youth, and Development James E. Côté, 2015-06-12 The concept of identity is one of the most important ideas the social sciences have investigated in recent years yet no introductory textbooks are available to those who want to gain a sense of this burgeoning field The first of its kind this text provides an introduction to the scientific study of identity formation with a focus on youth development The analyses of the problems and prospects faced by contemporary young people in forming identities are placed in the context of societies that themselves are in transition further complicating identity formation and the interrelated processes of self development and moral ethical reasoning In order to sort through what is now a vast literature on the various aspects of human identity this book introduces the Simplified Identity Formation Theory This theory cuts through much of the academic jargon that limits the accessibility of this promising field and builds an understanding of human identity from first principles This book is optimized for students and instructors featuring several useful pedagogical tools and a robust series of online resources Primer format the text synthesizes the vast and disparate literature that has characterized the field of Identity Studies with a focus on identity formation during the transition to adulthood theory and research is discussed in plain non technical language using the author s new Simplified Identity Formation Theory In text pedagogy to enhance student engagement box insert and in text examples from current events popular culture and social media are incorporated throughout the text key terms are in bold in each chapter and combined in a glossary at the end of the text Online resources for instructors A robust set of resources that when combined with the text provides a complete blueprint for designing an identity course resources include PowerPoint Presentations test bank sample syllabi and instructor manuals for both face to face and online courses that include weekly written assignment questions and discussion forum questions along with essay topic ideas and grading rubrics Online resources for students a student manual flashcards practice quizzes and exercises with video links

The Human Shore John R. Gillis,2022-12-22 Since before recorded history people have congregated near water But as growing populations around the globe continue to flow toward the coasts on an unprecedented scale and climate change raises water levels our relationship to the sea has begun to take on new and potentially catastrophic dimensions The latest generation of coastal dwellers lives largely in ignorance of the history of those who came before them the natural environment and the need to live sustainably on the world's shores Humanity has forgotten how to live with the oceans In *The Human Shore* a magisterial account of 100 000 years of seaside civilization John R Gillis recovers the coastal experience from its origins among the people who dwelled along the African shore to the bustle and glitz of today's megacities and beach resorts He takes readers from discussion of the possible coastal location of the Garden of Eden to the ancient communities that have existed along beaches bays and bayous since the beginning of human society to the crucial role played by coasts during the age of discovery and empire An account of the mass movement of whole populations to the coasts in the last half century brings the story of coastal life into the present Along the way Gillis addresses humankind's changing relationship to the sea from an environmental perspective laying out the history of the making and remaking of coastal landscapes the creation of ports the draining of wetlands the introduction and extinction of marine animals and the invention of the beach while giving us a global understanding of our relationship to the water Learned and deeply personal *The Human Shore* is more than a history it is the story of a space that has been central to the attitudes plans and existence of those who live and dream at land's end
