The Origins of Self-Consciousness in The Secret Doctrine H. P. Blavatsky, 2009 Any attempt to explain the mysterious connections between consciousness and matter and self consciousness in particular necessarily involves much complexity Because all levels of relative reality are present here and now the human being embodies the whole hierarchy of the cosmos a microcosm of the macrocosm to use an insightful Renaissance expression Besides the physical human body there is the dynamic structural plan of that body called the astral body the desire nature the life force that permeates all living creatures consciousness involved in sense perception and practical operations consciousness capable of universal thought and awareness and pure consciousness manifest in pristine intuition Above these six principles of human nature broods the luminous spirit called the Atman Many people are seldom aware of anything more in themselves than the first five of these principles although many also have intuitive glimpses of universal understanding often as transcendent experiences which cannot be sustained Because understanding cannot be separated from experience and experience cannot be divorced from the way we live think feel and have our being various spiritual traditions have offered practices to nurture these inner awakenings to our higher natures and to a greater awareness of spiritual reality Theosophy connects together how we live our lives what we think and how we focus our attention the bold exploration of our inner natures how we react to what comes to us karma and how we can build depth of awareness across lifetimes with Enlightenment Theosophy therefore connects ethics and action including both physical action in the world and the action of our own thoughts Where we are ignorant of all the dimensions of our circumstances and short of Enlightenment we are all ignorant motive for thought and action is fundamental for altering one s karmic trajectory and future incarnations The selections from The Secret Doctrine in this book are gathered with a focus on the consciousness exhibited in Nature its origin and destiny and on human self consciousness in particular This book therefore explores one vital current in the Ocean of Wisdom that is Theosophy A thoughtful and persistent reading of these texts will radically transform one s understanding of the unity of self consciousness and the world

around us and of one's place in the greater scheme of things *The Secret Doctrine* Helena Blavatsky, 2023-12-10 In *The Secret Doctrine* Helena Blavatsky offers a profound exploration of esoteric philosophies weaving together Eastern and Western spiritual traditions. The book presents a synthesis of ancient wisdom and modern thought structured around the foundational concepts of cosmic evolution, the nature of consciousness, and the interconnectedness of all life. Blavatsky employs a richly symbolic literary style drawing on extensive historical and philosophical references to illuminate her vision of an underlying unity in diverse spiritual practices. Situated in the context of the late 19th century's burgeoning interest in the occult and spirituality, the text serves as a cornerstone of theosophical discourse, challenging readers to dive deep into mysteries of existence and the hidden laws governing the universe. Helena Blavatsky, co-founder of the Theosophical Society, was a pivotal figure in the revival of mysticism and spiritual inquiry during her time. Her travels through India and Tibet, along with her exposure to various esoteric traditions, significantly informed her worldview and her writings. Blavatsky's unique position as a woman in a male-dominated intellectual landscape enabled her to challenge prevailing paradigms, advocating for spiritual understanding that transcends cultural boundaries. *The Secret Doctrine* is essential reading for those interested in spirituality, philosophy, and the interplay of science and mysticism. Blavatsky's work compels readers to reevaluate their own beliefs and encourages a deeper comprehension of the spiritual laws that govern existence. By engaging with this profound text, you will embark on a transformative journey that promises to expand your consciousness and insight into the mysteries of life.

The Secret Doctrine (Vol. 1-3) Helena Blavatsky, 2023-12-03 Helena Blavatsky's monumental work *The Secret Doctrine Volumes 1-3* serves as an intricate tapestry weaving together elements of theology, philosophy, and science, integrating esoteric traditions with a profound exploration of the cosmos and human evolution. Written in a dense yet poetic literary style, the text is structured around the dual doctrines of the universal and the individual, rooted deeply in theosophical thought. Blavatsky draws upon a wide array of religious and philosophical sources, including Eastern and Western esotericism, to expound upon the idea of a hidden knowledge that transcends the physical realm, presenting her insights as both a critique of materialism and an invitation to spiritual awakening. Helena Blavatsky, a seminal figure in the Theosophical Society, was profoundly influenced by her travels to India and her studies of ancient wisdom traditions. Her quest for universal truths led her to challenge prevailing scientific and religious dogmas of the 19th century, positioning her as a pioneer of modern spirituality and a bridge between Eastern spirituality and Western thought. *The Secret Doctrine* is a must-read for anyone intrigued by metaphysics, spirituality, and the quest for knowledge that transcends conventional wisdom.
