international security studies human security global politics and international relations **Environmental Change and Security Project Report** ,1995 **Problems and Prospects of Sustaining Democracy in Nigeria** Bamidele A. Ojo, 2001

The past few years have been very traumatic ones for many Nigerians With the exception of those in power or close to the seat of power the changes of 1998 were a welcome relief given the tyranny and repression that the country had suffered under General Abacha With many people in prison and more in exile the death of Abacha was received with a sigh of relief Many observers have seen the resilience that has come to signify the strength and potential of this once giant of Africa as well as the destruction and the socio political and economic decay of the past decades The Nigerian people have endured the exploitation of their rights due to the lack of democratic leadership and with this in mind they have been called to attention to fight for their country **Environmental Change and Human Security: Recognizing and Acting on Hazard**

**Impacts** Peter H. Liotta, David A. Mouat, W.G. Kepner, Judith Lancaster, 2008-07-31 Environmental and Human Security Then and Now 1 2 ALAN D HECHT AND P H LIOTTA 1 U S Environmental Protection Agency Office of Research and Development 2 Pell Center for International Relations and Public Policy Salve Regina University 1 Nontraditional Threats to Security The events of September 11 2001 have sharpened the debate over the meaning of being secure Before 9 11 there were warnings in all parts of the world that social and environmental changes were occurring While there was prosperity in North America

and Western Europe there was also increasing recognition that local and global effects of ecosystem degradation posed a serious threat. Trekking from Cairo to Cape Town thirty years after living in Africa as a young teacher for example travel writer Paul Theroux concluded that development in sub Saharan Africa had failed to improve the quality of life for 300 million people. Africa is materially more decrepit than it was when I first knew it hungrier poorer less educated more pessimistic more corrupt and you can't tell the politicians from the witch doctors. 2002 While scholars and historians will debate the causes of 9 11 for some time one message is clear. An often dizzying array of nontraditional threats and complex vulnerabilities define security today. We must understand them and deal with them or suffer the consequences. Environmental security has always required attention to nontraditional threats linked closely with social and economic well being.
