Seditious Heidegger And The Limit Of Modernity:

Seditious Heribert Boeder, 1997-01-01 This is the first book length work by Heribert Boeder to appear in English The essays brought together here several of which are to be found only in this volume bear witness to a new perspective on metaphysics modernity and so called postmodernity The seditiousness of Boeder's undertaking lies in his twofold intention to explicate what has been thought in metaphysics modernity and postmodernity as self contained rational totalities as history world and speech respectively and by means of those explications to recover dwelling as it has been made visible in the configurations of wisdom for example in Homer Paul and Holderlin He approaches each of these totalities by way of Heidegger's thought which marks the limit of modernity and as such is pivotal to Boeder's enterprise *Seditious* Heribert Boeder, 1997-01-01 This is the first book length work by Heribert Boeder to appear in English The essays brought together here several of which are to be found only in this volume bear witness to a new perspective on metaphysics modernity and so called postmodernity The seditiousness of Boeder's undertaking lies in his twofold intention to explicate what has been thought in metaphysics modernity and postmodernity as self contained rational totalities as history world and speech respectively and by means of those explications to recover dwelling as it has been made visible in the configurations of wisdom for example in Homer Paul and Holderlin He approaches each of these totalities by way of Heidegger's thought which marks the limit of modernity and as such is pivotal to Boeder's enterprise **The New Yearbook for**

Phenomenology and Phenomenological Philosophy Burt Hopkins, Steven Crowell, 2020-10-07 The New Yearbook for Phenomenology and Phenomenological Philosophy provides an annual international forum for phenomenological research in the spirit of Husserl's groundbreaking work and the extension of this work by such figures as Scheler Heidegger Sartre Levinas Merleau Ponty and Gadamer *Heidegger and the Issue of Space* Alejandro A. Vallega, 2010-11 As the only full length treatment in English of spatiality in Martin Heidegger's work this book makes an important contribution to Heidegger studies as well as to research on the history of philosophy More generally it advances our understanding of philosophy in terms of its exilic character a sense of alterity that becomes apparent when one fully engages the temporality or finitude essential to conceptual determinations By focusing on Heidegger's treatment of the classical difficulty of giving conceptual articulation to spatiality the author discusses how Heidegger's thought is caught up in and enacts the temporality it uncovers in *Being and Time* and in his later writings Ultimately when understood in this manner thought is an exilic experience a determination of being that in each case comes to pass in a loss of first principles and origins and simultaneously as an opening to conceptual figurations yet to come The discussion engages such main historical figures as Plato Aristotle Descartes Kant and indirectly Husserl as well as contemporary European and American Continental thought *The Emergency of Being* Richard Polt, 2013-07-12 The heart of history for Heidegger is not a sequence of occurrences but the eruption of significance at critical junctures that bring us into our own by making all being including our being into an urgent

issue In emergency being emerges from The Emergency of Being The esoteric Contributions to Philosophy often considered Martin Heidegger s second main work after Being and Time is crucial to any interpretation of his thought Here Heidegger proposes that being takes place as appropriation Richard Polt s independent minded account of the Contributions interprets appropriation as an event of emergency that demands to be thought in a future subjunctive mode Polt explores the roots of appropriation in Heidegger s earlier philosophy Heidegger s search for a way of thinking suited to appropriation and the implications of appropriation for time space human existence and beings as a whole In his concluding chapter Polt reflects critically on the difficulties of the radically antirationalist and antimodern thought of the Contributions Polt s original reading neither reduces this challenging text to familiar concepts nor refutes it but engages it in a confrontation an encounter that respects a way of thinking by struggling with it He describes this most private work of Heidegger s philosophy as a dissonant symphony that imperfectly weaves together its moments into a vast fugue under the leitmotif of appropriation This fugue is seeded with possibilities that are waiting for us its listeners to develop them Some are dead ends viruses that can lead only to a monolithic monotonous misunderstanding of history Others are embryonic insights that promise to deepen our thought and perhaps our lives if we find the right way to make them our own

Expanded Painting Mark Titmarsh,2017-08-24 The relevance of painting has been questioned many times over the last century by the arrival of photography installation art and digital technologies But rather than accept the death of painting Mark Titmarsh traces a paradoxical interface between this art form and its opposing forces to define a new practice known as expanded painting giving the term historical context theoretical structure and an important place in contemporary practice As the formal boundaries tumble the being of painting expands to become a kind of total art incorporating all other media including sculpture video and performance Painting is considered from three different perspectives ethnology art theory and ontology From an ethnological point of view painting is one of any number of activities that takes place within a culture In art theory terms painting is understood to produce objects of interest for humanities disciplines Yet painting as a medium often challenges both its object and image status expanding and creating hybrid works between painting objects screen media and text Ontologically painting is understood as an object of aesthetic discourse that in turn reflects historical states of being Thus Expanded Painting delivers a new kind of saying a post aesthetic discourse that is attuned to an uncanny tension between the presence and absence of painting

Belief and Its Neutralization Marcus Brainard, 2012-02-01 Presenting the first step by step commentary on Husserl's Ideas I Marcus Brainard's Belief and Its Neutralization provides an introduction not only to this central work but also to the whole of transcendental phenomenology Brainard offers a clear and lively account of each key element in Ideas I along with a novel reading of Husserl one which may well cause scholars to reconsider many long standing views on his thought especially on the role of belief the effect and scope of the epoch and the significance of the universal neutrality modification **The**

Time of Life William McNeill, 2012-02-01 The Time of Life explores Heidegger's rethinking of ethics and of the ethical in terms of an understanding of the original Greek notion of *thos* Engaging the ethical in Heidegger's thought in relation to Aristotle Michel Foucault and Friedrich Hölderlin William McNeill examines the way in which Heidegger's thought shifts our understanding of ethics away from a set of theoretically constructed norms principles or rules governing practice toward an understanding of the ethical as our concrete way of Being in the world Central to this study is the consideration of the ethical in relation to time the time of biological life the time of human life as biographical and historical the temporality of human action and the historicity of human thought In addition this book critically examines the predicament of ethical responsibility in a scientific technological era considering how the world of modern science and technology call upon us to rethink the nature of ethical responsibilities **Phenomenology or Deconstruction?** Christopher Watkin, 2009-03-03

Phenomenology or Deconstruction challenges traditional understandings of the relationship between phenomenology and deconstruction through new readings of the work of Maurice Merleau-Ponty Paul Ricœur and Jean-Luc Nancy A constant dialogue with Jacques Derrida's engagement with phenomenological themes provides the impetus to establishing a new understanding of being and presence that exposes significant blindspots inherent in traditional readings of both

phenomenology and deconstruction In reproducing neither a stock phenomenological reaction to deconstruction nor the routine deconstructive reading of phenomenology Christopher Watkin provides a fresh assessment of the possibilities for the future of phenomenology along with a new reading of the deconstructive legacy Through detailed studies of the philosophy of Merleau Ponty Ricur and Nancy he shows how a phenomenological tradition much wider and richer than Husserlian or Heideggerean thought alone can take account of Derrida s critique of ontology and yet still hold a commitment to the ontological This new reading of being and presence fundamentally re draws our understanding of the relation of deconstruction and phenomenology and provides the first sustained discussion of the possibilities and problems for any future deconstructive phenomenology

Japanese Hermeneutics Michael F. Marra, 2002-01-01 Japanese Hermeneutics provides a forum for the most current international debates on the role played by interpretative models in the articulation of cultural discourses on Japan It presents the thinking of esteemed Western philosophers aestheticians and art and literary historians and introduces to English reading audiences some of Japan s most distinguished scholars whose work has received limited or no exposure in the United States In the first part Hermeneutics and Japan contributors examine the difficulties inherent in articulating otherness without falling into the trap of essentialization and while relying on Western epistemology for explanation and interpretation In the second part Japan s Aesthetic Hermeneutics they explore the role of aesthetics in shaping discourses on art and nature in Japan The essays in the final section of the book Japan s Literary Hermeneutics rethink the notion of Japanese literature in light of recent findings on the ideological implications of canon formations and transformations within Japan s prominent literary circles

Heidegger and Kabbalah Elliot R. Wolfson, 2019-10-01 While many scholars have noted Martin Heidegger s indebtedness to Christian mystical sources as well as his affinity with Taoism and Buddhism Elliot R Wolfson expands connections between Heidegger s thought and kabbalistic material By arguing that the Jewish esoteric tradition impacted Heidegger Wolfson presents an alternative way of understanding the history of Western philosophy Wolfson s comparison between Heidegger and kabbalah sheds light on key concepts such as hermeneutics temporality language and being and nothingness while yielding surprising reflections on their common philosophical ground Given Heidegger s involvement with National Socialism and his use of antisemitic language these innovative readings are all the more remarkable for their juxtaposition of incongruent fields of discourse Wolfson s entanglement with Heidegger and kabbalah not only enhances understandings of both but more profoundly serves as an ethical corrective to their respective ethnocentrism and essentialism Wolfson masterfully illustrates the redemptive capacity of thought to illuminate common ground in seemingly disparate philosophical traditions

Language, Eros, Being Elliot R. Wolfson, 2009-08-25 This long awaited magisterial study an unparalleled blend of philosophy poetry and philology draws on theories of sexuality phenomenology comparative religion philological writings on Kabbalah Russian formalism Wittgenstein Rosenzweig William Blake and the very physics of the time space continuum to establish what will surely be a highwater

mark in work on Kabbalah Not only a study of texts Language Eros Being is perhaps the fullest confrontation of the body in Jewish studies if not in religious studies as a whole Elliot R Wolfson explores the complex gender symbolism that permeates Kabbalistic literature Focusing on the nexus of asceticism and eroticism he seeks to define the role of symbolic and poetically charged language in the erotically configured visionary imagination of the medieval Kabbalists He demonstrates that the traditional Kabbalistic view of gender was a monolithic and androcentric one in which the feminine was conceived as being derived from the masculine He does not shrink from the negative implications of this doctrine but seeks to make an honest acknowledgment of it as the first step toward the redemption of an ancient wisdom Comparisons with other mystical traditions including those in Christianity Buddhism and Islam are a remarkable feature throughout the book They will make it important well beyond Jewish studies indeed a must for historians of comparative religion in particular of comparative mysticism Praise for Elliot R Wolfson Through a Speculum That Shines is an important and provocative contribution to the study of Jewish mysticism by one of the major scholars now working in this field Speculum *The Distinction of Human Being* Thomas Kruger Caplan, 2016-03-28 Perhaps we are never done with thought nor should be If this is indeed the case then Kant may have been right after all in supposing that folks will never lose interest in metaphysics in thought thinking thought But what of academics Where would we find these days a comprehensive treatment of pure reason of the epochs of its origins and accomplishments that is not just another collection of interpretations of source texts in translation This study introduces philosophy students and professionals to the logotectonic method of conception as developed by Heribert Boeder a pupil of Martin Heidegger which is broadly structuralist in its approach but endeavors to make evident how the principles of rationality governing the Occidental tradition of logos even those dictated by the animus of our post modern world of thought in opposition to it are in fact founded upon the nature of pure reason itself the intellect the discipline and the art of which can be understood as constituting a unique language containing a vocabulary of distinguished terms a syntax that determines their ratios and rules of inference with which these terms of principle insight and issue are built into trains of thought about thought every thought As a result the wisdom of the Muses Homer Hesiod Solon of the Holy Spirit the Synoptic Narratives of Mark Luke and Matthew the Apostolic Letters of Paul the Gospel of John and of Humanity Rousseau Schiller Herderlin can be seen to have thrice articulated in their own terms a moving vision of our experience with the distinction of human being inspiring critical reflection to consider the as a destiny with regards to which even we as the thinkers the doers and the builders of today are still learning what it means to make a difference The Distinction of Human Being offers contemporary thinkers beginners as well as professionals a comprehensive reading of the origin and the tradition of metaphysics encompassing the life and times of pure reason as it unfolds across its theoretical practical and poetic endeavor the last of which suggests what a philological philosophy might entail and demand of a new generation of friends of wisdom About the Author Thomas Kruger Caplan born 1961 in Manhattan has lived for the past 30 years in Europe

for the most part in Germany He studied literature theory in Paris philosophy in Osnabrück Germany with Heribert Boeder 4 December 2013 a pupil of Martin Heidegger attended experimental theater workshops at the Brunswick University of Fine Arts Germany and is currently teaching business English philosophy cultural history and rhetoric at the Ostfalia University of Applied Sciences Salzgitter Germany *The New Yearbook for Phenomenology and Phenomenological Philosophy* ,2003
